### NATIONAL REGISTER OF HISTORIC PLACES REGISTRATION FORM

This form is for use in nominating or requesting determinations for individual properties and districts. See instructions in How to Complete the National Register of Historic Places Registration Form (National Register Bulletin 16A). Complete each item by marking "x" in the appropriate box or by entering the information requested. If any item does not apply to the property being documented, enter "N/A" for "not applicable." For functions, architectural classification, materials, and areas of significance, enter only categories and subcategories from the instructions. Place additional names and narrative items on continuation sheets (NPS Form 10-900a). Use a typewriter, word processor, or computer, to complete all items.

#### 1. Name of Property

historic name SAINT MARY'S CATHOLIC CEMETERY

other names/site number VDHR FILE # 122-1036

#### 2. Location

street & number 3000 CHURCH STREET not for publication N/A  
city or town NORFOLK vicinity N/A  
state Virginia code VA county Independent code 710 Zip 23504  
City

#### 3. State/Federal Agency Certification

As the designated authority under the National Historic Preservation Act of 1986, as amended, I hereby certify that this X nomination request for determination of eligibility meets the documentation standards for registering properties in the National Register of Historic Places and meets the procedural and professional requirements set forth in 36 CFR Part 60. In my opinion, the property X meets does not meet the National Register Criteria I recommend that this property be considered significant nationally statewide locally. ( See continuation sheet for additional comments.)

**8. Statement of Significance**

Applicable National Register Criteria (Mark "x" in one or more boxes for the criteria qualifying the property for National Register listing)

- A Property is associated with events that have made a significant contribution to the broad patterns of our history.
- B Property is associated with the lives of persons significant in our past.
- C Property embodies the distinctive characteristics of a type, period, or method of construction or represents the work of a master, or possesses high artistic values, or represents a significant and distinguishable entity whose components lack individual distinction.
- D Property has yielded, or is likely to yield information important in prehistory or history.

Criteria Considerations (Mark "X" in all the boxes that apply.)

- A owned by a religious institution or used for religious purposes.
- B removed from its original location.
- C a birthplace or a grave.
- D a cemetery.
- E a reconstructed building, object or structure.
- F a commemorative property.
- G less than 50 years of age or achieved significance within the past 50 years.

Saint Mary's Cemetery  
Norfolk, Virginia

Section 7 Page 1

---

7. Summary Description: Saint Mary's Catholic Cemetery, a burial ground primarily serving the Catholic communities of Norfolk, Virginia Beach, and Chesapeake, comprises approximately 30 acres of mostly developed land. The cemetery is located at the intersection of Church Street and Monticello Avenue and lies adjacent to the Lafayette River and the Virginia Zoological Park in Norfolk. The Lafayette River and its small tributaries form a natural separation from property owners on the cemetery's north, south, and east boundaries. Aside from a few hills in the older sections, the cemetery lies on relatively flat ground. The property was purchased in 1854 by Father Matthew O'Keefe, who was the founder and pastor of Saint Mary's Catholic Church in downtown Norfolk. (VDHR 122-24).

The main entrance gate was erected in 1956 and is comprised of an overhead iron arch supported on twin red brick columns. A 4 foot high red brick wall extends outward from each column for 12 feet and connects to a hedgerow of the same height that stretches in both directions along the entire west boundary of the cemetery.

Large magnolia trees planted in the early 1960's line the main entrance of the cemetery. There are also numerous large oak, cedar, and pine trees and smaller crepe myrtle trees along with seasonal flowers displayed in public areas that compliment the cemetery's landscape. Magnificent white marble statues and crosses and huge granite monuments and vertical columns are plentiful throughout. Aside from the asphalt roads that meander through this historic district, there are numerous walking paths between rows of lots. The walking paths measure from 5 feet to 18 feet in width. Many of the paths were dirt roads at one time, and in an effort toward preservation, several paths were blocked off with concrete curbing in the early 1960's. It was during this period that a number of the wider walking paths were made available as gravesites.

The cemetery centerpiece is a large bronze crucifix erected around 1922 in honor of Catholic servicemen who served in World War I. The sculptor was George A. Lober. This crucifix is identical to a crucifix displayed at the Aquia Shrine located on Route 1 between Richmond, Virginia and Washington, DC. It stands approximately 30 feet high and is surrounded by large stone boulders and on two sides by rows of azalea bushes.

There are six family mausoleums on the property along with a 416-crypt mausoleum. Construction on the large cemetery mausoleum began on March 31, 1979 by Acme Marble and Granite Company of New Orleans, Louisiana. The mausoleum dedication was held on May 31, 1980 by Bishop Walter F. Sullivan of the Catholic Diocese of Richmond. The mausoleum has a concrete interior and marble exterior and was the first cemetery owned mausoleum to be erected in the Richmond diocese.

Since its beginning, management of Saint Mary's Catholic Cemetery had been an additional duty for the various pastors of Saint Mary's Catholic Church. In the early 1960's, cemetery management was shifted to the various succeeding pastors of Sacred Heart Catholic Church in Norfolk. Father Raymond Barton was the last

priest/director of Saint Mary's Cemetery and in 1975 he established the present 11-member lay cemetery board. Mr. W. Lewis Witt is the current board president and has been serving in that position for over one year. The cemetery superintendent, Mrs. Alesia Raper, maintains a residence and office on the property and handles day to day operations, lot sales, and supervision of grounds maintenance staff. Mrs. Raper has been serving as superintendent for over 12 years.

The year 1966 brought several major improvements to Saint Mary's Cemetery. Father Joseph L. Leitch was the cemetery director and Mr. Joseph F. Fitzpatrick was the superintendent. At that time the superintendent's residence/office was in need of a major renovation. After careful study the renovation was considered to be cost prohibitive. It was decided to build a new superintendent's residence/office and demolish the existing building. The former building was constructed of an a-frame tin roof with brown shingled siding. The current building is a red brick ranch a-frame design with a white shingled roof. A detached a-frame red brick maintenance building which adjoins the residence/office was constructed in 1985. It was also in 1966 that all the roads throughout the cemetery were paved with asphalt. Prior to that time the road surface consisted of dirt, rock, and cracked oyster shells.

In 1998 board member John Langlois formed the "Friends of Saint Mary's Cemetery". The Friends is made up of a group of lot owners and other concerned individuals who volunteer their time and talents to raise funds and help maintain the cemetery grounds. The group meets at the cemetery on a regular basis and performs such duties as repairing damaged headstones, planting seasonal flowers, weeding, and trimming. The Friends also plan and sponsor a Mass and Rosary service that is held 3-4 times a year in front of the cemetery's mausoleum with an average attendance of 150 people. Mr. Langlois publishes a quarterly newsletter on cemetery activities which is mailed to lot owners and church parishes. The Friends of Saint Mary's Cemetery, under the direction of lot owner James Gearheart, recently completed a year-long project of powerwashing all monuments and headstones throughout the cemetery.

Through the ongoing dedication and efforts of the cemetery board, the superintendent, the friends of Saint Mary's Cemetery, and individual lot owners, Saint Mary's Catholic Cemetery continues to be well preserved to honor the memory of those interred.

8. Statement of Significance: Saint Mary's Catholic Cemetery was established in 1854 as a result of the Yellow Fever Epidemic. Saint Mary's is one of the oldest monument cemeteries in the area and comprises one of only eight Catholic cemeteries throughout the state of Virginia.

Although records indicate that Saint Mary's Cemetery was established in 1854, there are several monuments and headstones on the property with inscribed death dates prior to that time. The oldest graves that could be located were that of Margaret Ann Barry who died in 1826, Thomas Moran who passed away in 1833, and Eugene Higgins who died in 1836. It is believed that these individuals along with many others were buried in the churchyard of Saint Mary's Church in downtown Norfolk and then later interred at Saint Mary's Cemetery in 1854 or sometime thereafter.

Several notable gravesites include:

Celiney Yasbeck Decker - Titanic survivor  
Ismael Ala - First Vietnamese-American to serve on a U.S. submarine  
Louis G. Plummer - Major league baseball hall of fame inductee  
Monsignor Thomas E. Waters - Builder of Sacred Heart Catholic Church, Norfolk  
Sisters of Charity - Served as teachers at local Catholic schools and as nurses at DePaul Hospital, Norfolk  
Barry family lot - Largest lot in the cemetery: 72 graves  
Michael Glennan - Confederate Major and founder of Virginian-Pilot newspaper  
Rev. Lawrence O'Connell - Confederate chaplain, professor, and vice president of St. Mary's College, Columbia, SC  
White-Lenney family lot - 12-grave lot encased in concrete

Saint Mary's Cemetery became the final resting place for many veterans of the armed services:

Civil War	Michael Glennan 1843-1899 (CSA)
Spanish-American War	John J. Plato (dates unknown) (USA)
World War I	Frank Preziotti 1893-1957 (USA)
World War I	Gregorio F. Ocate 1875-1962 (USCG)
World War II/Korea/Vietnam	Joseph P. Wulzer 1919-1973 (USAF)
World War II/Korea	Falcome G. Brammer 1915-1977 (USN)
World War II/Korea	Donald E. Hofford 1924-1965 (USMC)
World War II/Korea	Mary F. Hofford 1915-1988 (USMC)
World War II	John V. Johnson Sr. 1926-1991 (USA)
Vietnam	John V. Johnson Jr. 1947-1968 (USA-KIA)
Canadian Forces	Albert L. McCoy 1881-1940

The six family mausoleums displayed on the property are remarkable historic structures:

1. The Decosi Mausoleum erected around 1936 measures 11'x16'x18'. It is unique to the other five mausoleums in that it has a black shingled roof with aluminum guttering and downspouts. Located in the northwest section of the cemetery, the structure is very visible from Church Street. The mausoleum has an a-frame design and is constructed of red brick with granite supports and a white marble interior. Double cast iron doors control the entrance to the above ground tomb. A seven foot concrete walkway leads up to the structure that is surrounded by a metal railing with granite supports. The Decosi Mausoleum contains two crypts and is the only mausoleum of the six that is still maintained by surviving family members.

2. The Shanly Mausoleum, erected around 1898 and measuring 12'x14'x14' is located at the north end of the cemetery. Similar to the Decosi Mausoleum, this structure has an a-frame roof. The mausoleum has a granite exterior and a white marble interior. Twin cast iron doors control the entrance to the structure containing six crypts. A stained glass window measuring 18"x48" is located at the rear with a one-step granite walkway leading to the entrance.

3. The Murphy Mausoleum, erected around 1928 and measuring 5'x10'x7' is located in the center of the cemetery and almost directly behind the large bronze crucifix. Its construction is totally white marble with a flat roof. The structure contains two crypts protected by twin sealed doors. Twin white marble planters placed in front and on each side of the mausoleum are separated by a six foot white marble walkway leading up to this impressive structure.

4. The Quinn Mausoleum, measuring 10'x13'x7', is located approximately 50 yards inside the property and south of the main entrance road. The structure is situated near the largest oak tree in the cemetery. The mausoleum is of a half oval or mounded design and constructed of red brick and concrete with granite supports. The entrance to the mausoleum is sealed in concrete. In the early 1960's concrete was placed over an aged and weathered cast iron door to prevent water seepage and vandalism. It is unknown when the mausoleum was built or the number of crypts contained within.

5. The Andrews/Higgins Mausoleum is located just inside and to the right of the main entrance. This structure is identical to the Quinn Mausoleum with the half oval or mounded design and measures 10'x13'x7'. It was constructed with red brick and concrete along with granite supports on each end. Twin cast iron doors seal the entrance. It is unknown when the mausoleum was constructed or how many crypts are contained within.

National Park Service

National Register of Historic Places  
Continuation Sheet

Saint Mary's Cemetery  
Norfolk, Virginia

Section 8 Page 5

---

6. The Dodd Mausoleum is located approximately 20 feet from the Andrews/Higgins Mausoleum and measures 11'x13'x8'. The mausoleum was constructed of red brick, limestone, and concrete and is similar to the Andrews/Higgins and Quinn Mausoleums with the half oval or mounded design. A sealed cast iron door prevents entry to the structure. It is unknown when the mausoleum was built or the number of crypts contained within. However, it is estimated that the Quinn, Andrews/Higgins, and Dodd Mausoleums may have been constructed in the late 1800's or early 1900's.

Some examples of the statuary and funerary art displayed at Saint Mary's Cemetery include the following:

1. Bisese Lot

a. Two identical two foot high white marble angel statues atop a three foot high white marble base.

b. 3 ½ foot high white marble statue of Joseph/Mary/child Jesus atop a three foot high white marble base.

2. Amato Lot

a. Five foot high white marble statue of the Virgin Mary holding a ring of flowers and glancing downward over the graves.

b. Six foot high white marble statue of Jesus looking down with arms partially stretched out and praying over the graves.

3. Clark Lot

a. Four foot high white marble angel statue atop a five foot high white marble base. The angel is seen praying over the graves.

b. Facing the opposite direction, an identical four foot high white marble angel statue atop a four foot high white marble base. The angel is seen looking downward and reading the Bible.

4. Rehpeiz Monument - Two 2 foot high white marble headstones atop a five foot wide white marble base. Between the two headstones is a two foot high statue of the Virgin Mary. A short prayer is inscribed on the base of the monument. Twin white marble vases are positioned on each side of the headstones.

Norfolk, Virginia

Section 8 Page 6

---

5. The Andrews Monument erected after 1886 is situated between the Andrews/Higgins Mausoleum and the Dodd Mausoleum on the cemetery's west side. It is a unique gothic-style oval monument constructed of granite and measures 15 ½ feet in diameter at its widest point. A 14" high granite cross rests atop this impressive marker. The monument is one of only two oval shaped monuments in the cemetery.

6. Conway Monument - A white marble vertical column approximately 25 feet high. On the east side of the column a crucifix is displayed atop small boulders. Below the crucifix are two Bible inscriptions. Below the inscriptions is a depiction of the sacred heart of Jesus surrounded by palm branches.

7. Flynn headstone, erected after 1894 is probably the most unique marker in the cemetery. Located at the south end of the cemetery, the marker is constructed of limestone and concrete and measures 21'x16'x4½'. It resembles an antique cash register or rolltop desk with the decedents name and date of death inscribed on a scroll.

8. D'Este headstone, erected after 1924 is located approximately 50 yards south of the bronze crucifix. The marker measures 20"x12"x39". The top ten inches of this white marble headstone is oval shaped with a white marble chain encircling the oval and piercing a scrolled inscription of the deceased. Palm branches are etched out on each side of the scroll.

9. Scotece Lot - An impressive six foot high white marble statue of Jesus standing in front of a seven foot high granite cross. The statue and cross are located on the cemetery's east end.

Two priests lots and two Sister of Charity lots make up the religious orders interred at Saint Mary's Cemetery. The older priests lot is located at the northwest section of the cemetery where 18 priests lie interred. The other priests lot is located on the site of the cemetery's large bronze crucifix. To date, 10 priests lie interred in front of the crucifix. The older Sisters of Charity lot is located along the southwest side of the cemetery where 60 nuns lie interred. The other Sisters of Charity lot is located toward the rear or east end of the cemetery where four nuns lie interred. This lot is marked by a six foot high granite cross positioned in the center of the lot.

The infant section is located approximately 100 yards inside the property and south of the main entrance road. Currently there have been 344 infants and children buried in this section of the cemetery with the first interment recorded in 1943. Numerous one foot and two foot white marble angel and lamb statues along with small granite headstones can be observed atop most of the graves. Several large oak and cedar trees accentuate the landscape in this serene setting. Located in the cemetery's northwest section, there is a lot dedicated to Saint Mary's Home for Disabled Children. Currently there are 30 infants buried on this lot with the first interment recorded in April 1951.

Saint Mary's Catholic Cemetery was found to be eligible for the National Register of Historic Places (NRHP) by the Virginia Department of Historic Resources (VDHR) in December 1996 (Register Evaluation Rating Sheet, dated December 19, 1996). The VDHR's evaluation team evaluated the cemetery for NRHP eligibility under criterion C (design/construction) and gave its integrity a rating of 6 on a scale of 0-8. The intensive Level Survey Report states, "The property retains integrity of association, design, feeling, location, material, and workmanship".
