DESCRIBE THE PRESENT AND ORIGINAL (If known) PHYSICAL APPEARANCE

Annefield is a stone, two-story mansion, seven bays wide, four bays deep, with a hipped roof, modillioned cornice, balustraded deck, and four interior end chimneys. The central door is flanked by two narrow windows, which fit behind the two-level pedimented porch supported by Roman Ionic columns. All openings use the flat arch motif in stone. A one-and-one-half story stuccoed rear ell as well as a wooden shelter running to the old kitchen have been added. The frame kitchen on the north west with its large stone chimney matches a similar outbuilding to the north east.

The interior plan centers on a wide stair hall with two rooms to the east and two to the west. All rooms have a chair rail and dado with a Roman Ionic pilaster and entablature motif used in the stair hall, south west and south east rooms. The north east room confines its own decorated Adamesque pilasters to door and mantel framings. Most doorways have architrave framings with crossettes and a frieze above. The central stair with a single landing rises along the west wall and features slender column and pedestal balusters.

STATEMENT OF SIGNIFICANCE (Include Personages, Dates, Events, Etc.)

SEE INSTRUCTIONS

Annefield was built about 1790 by Mathew Page, originally of Broadneck, Hanover County. The tract, originally 2258 acres, is located in Clarke County to which Mathew Page and his brother came to settle from Hanover. Mathew Page married Anne Randolph Meade in 1787 according to the Page family genealogy. She was the sister of Bishop William Meade and it was probably for her that "Annefield" was named. Mathew Page planned both the house itself and its lovely gardens. Some of the excellent interior carving is purported to have been done by Hessian soldiers who wandered down the Valley following the Revolution.

Mathew Pages' daughters sold Annefield following their father's death to Mr. Thomas Carter. Mary Custis, wife of Robert E. Lee, was born at Annefield in 1808 when her mother's coach stopped there during a journey. Mrs. Thomas Carter supposedly freed thirty-four of her own slaves at Annefield and colonized them in Liberia.

The son of Thomas Carter, William Page Carter, grew up at Annefield and later, after serving in the Confederate Army, went on to become a noted poet, his poems mostly being about the Civil War. The most outstanding of his works was a collection of poems, Echoes of the Glen.

Annefield is a pleasing well-proportioned mansion which combines a basic eighteenth-century house design with some of the refinements of the Federal period. Although many features of the building would tend to place its stylistic date toward the middle of the eighteenth century, such things as the rather low silhouette of the roof, the Adamesque features of the north east room, and the narrow muntins of the window sash reveal the structure's true circa 1790 date. Its position at the brow of a broad hill in the rolling slopes of the lower Shenandoah Valley gives it both a commanding view of the countryside and a justifiably prominent site.
