

United States Department of the Interior  
National Park Service

**NATIONAL REGISTER OF HISTORIC PLACES  
REGISTRATION FORM**

This form is for use in nominating or requesting determinations for individual properties and districts. See instructions in How to Complete the National Register of Historic Places Registration Form (National Register Bulletin 16A). Complete each item by marking "x" in the appropriate box or by entering the information requested. If any item does not apply to the property being documented, enter "N/A" for "not applicable." For functions, architectural classification, materials, and areas of significance, enter only categories and subcategories from the instructions. Place additional entries and narrative items on continuation sheets (NPS Form 10-900a). Use a typewriter, word processor, or computer, to complete all items.

**1. Name of Property**

historic name Chestnut Hill/Plateau Ristic District  
other names/site number DHR# 127-0343

**2. Location**

street & number First, Second Third, Fourth, and Fifth avenues, and cross streets from Brookland Park Boulevard  
south to Trigg Street not for publication N/A  
city or town City of Richmond vicinity N/A  
state Virginia code VA county Richmond (Independent City) code 760 Zip 23227

**3. State/Federal Agency Certification**

As the designated authority under the National Historic Preservation Act of 1986, as amended, I hereby certify that this  
X nomination request for determination of eligibility meets the documentation standards for registering  
properties in the National Register of Historic Places and meets the procedural and professional requirements set forth  
in 36 CFR Part 60. In my opinion, the property X meets does not meet the National Register Criteria. I  
recommend that this property be considered significant \_\_\_\_\_ nationally \_\_\_\_\_ statewide X locally. ( \_\_\_\_\_ See  
continuation sheet for additional comments.)

**Paperwork Reduction Act Statement:** This information is being collected for applications to the National Register of Historic Places to nominate properties for listing or determine eligibility for listing, to list properties, and to amend existing listings. Response to this request is required to obtain a benefit in accordance with the National Historic Preservation Act, as amended (16 U.S.C. 470 et seq.).

**Estimated Burden Statement:** Public reporting burden for this form is estimated to average 18.1 hours per response including the time for reviewing instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding this burden estimate or any aspect of this form to the Chief, Administrative Services Division, National Park Service, P.O. Box 37127, Washington, DC 20013-7127; and the Office of Management and Budget, Paperwork Reductions Project (1024-0018), Washington, DC 20503.

Chestnut Hill/Plateau Historic District  
City of Richmond, Virginia

Section 7 Page 1

**7. Summary Description:**

The Chestnut Hill/Plateau Historic District in Richmond, Virginia forms the southern tip of the larger neighborhood known as Highland Park. Chestnut Hill, one of Richmond's early streetcar suburbs, was established about 1890 and experienced much of its growth by 1901. It continued to grow into the third decade of the twentieth century. The district generally lines between First and Fifth Avenues and between Trigg Street and Brookland Park Boulevard. The district's resources are frame, two-story, residential buildings for the most part, but also include multiple dwellings, a small number of commercial buildings along Brookland Park Boulevard, fraternal lodges and several prominent churches. Architectural styles represented in the district include Queen Anne, American Foursquare, Bungalow, Colonial Revival and Gothic Revival. The area contains a significant number of contributing garages, several of which were designed to complement the houses they supported. The district contains 742 resources, 83 of which were deemed to be noncontributing.

Section 7 Page 2

### *Detailed Description*

Richmond's historic settlement patterns have been influenced to a great extent by the area's environmental features. While the bottomlands served as commercial and industrial areas, the bordering hills and ridges were the choice sites for residential settlement and dense development after the earliest years. The major portion of the city on Shockoe Hill was bordered on the north by the deep course of Bacon's Quarter Branch, which largely prevented easy settlement of the area to the north of the city. Not until development of efficient public transportation did the flat-topped ridges between the ravines and the fertile adjoining farmland become subjects of development projects as extensions of the city's residential grid. One of the closest of these wide ridges to the north, an arm of land projecting south between Shockoe Creek and a tributary called Cannon's Branch, is the site of the Chestnut Hill/Plateau Historic District. The district's terrain is generally flat (hence "the Plateau"), but varies considerably with shallow knobs and small ravines intruding.

### *Colony to Early National Period (1753-1830) and Antebellum Period (1831-1860)*

The district was the site of an expensive brick, two-story, central-passage-plan country house called Mount Comfort. There are no standing structures that survive from this period or from the succeeding antebellum period.

### *Civil War (1861-1865)*

In the late antebellum era large lots along the west side of the Meadow Bridge Road were purchased by city merchants and others, who built houses on them. The only surviving resource from this period, probably dating from its end, is the large, frame, Greek Revival-style, double-pile, central-passage-plan Kastelberg House (127-0343-0203). The Kastelberg House is the earliest building to survive in the district.

### *Reconstruction and Growth (1866-1916)*

#### Industrial Growth and Initial Development (1866-1889)

The property continued largely in the hands of a few owners and was developed only along the west side of the Meadow Bridge Road. Intense industrial development which grew up in the period was restricted to the area along Bacon's Quarter Branch. When, in September of 1889, the 135-acre Mount Comfort property was purchased for development, several older buildings were standing on the tract, but these soon vanished and the plateau was laid out in

Section   7   Page   3  

streets and lots.

Street Car Suburb (1890-1916)

The prospective suburb of Chestnut Hill consisted of a grid made up of sixty-foot roadways. The principal streets were direct extensions of the city's numbered street grid across Bacon's Quarter Branch, although they were called Second through Fifth avenues instead of Second through Fifth streets. The cross streets were given tree names, beginning with Alder at the southwest end and continuing with Chestnut, Althea, Birch, Willow, Juniper, Spruce, Myrtle, and Magnolia to the irregular edges formed by the Old County Road on the northeast. Most of the forty-five squares or blocks were 300 feet on each side, but those along the sides and north edge were irregular and of widely varying size due to the positions of Shockoe Creek, the Chesapeake and Ohio Railway tracks on the southeast, the Old County Road on the north, and the old Meadow Bridge Road on the northwest. The lots were aligned with the numbered streets running southwest to northeast. Twenty narrow (30' by 140') lots in each square faced the numbered streets, divided into parallel groups of ten by twenty-foot central alleys. A street aligned with Willow Street was extended across the Cannon's Branch ravine to connect Chestnut Hill with the neighboring suburb of Barton Heights in the early 1890s.<sup>1</sup> Eventually, the bottom of the district was defined by a street named for William R. Trigg, president of the nearby American Locomotive Company.

Most of the standing structures in the Chestnut Hill/Plateau Historic District were built during this period. Growth was slow at first. In 1901, when a map of the neighborhood was prepared, there were only about sixty houses standing on the many lots of the district.<sup>2</sup> Ironically, and in spite of the suburban rhetoric, most of the houses built in the first two decades of the Chestnut Hill development followed the urban Richmond building tradition. The earliest houses were often narrow side-passage-plan dwellings that were designed to occupy the closely built streets in the city. Although these were not built as closely together as they might have been in the city, they betrayed an urban orientation on the part of the designers or builders. Two-story, frame houses such as the dwelling at 1712 Fourth Avenue (127-0343-0360) are related in form to structures built for most of the previous century, with their two main rooms reached by a passage containing a staircase along one side. A few took the form of the double house or duplex, as represented in the study area by the frame dwelling with Queen Anne-style details at 2527-2519 Second Avenue (127-0343-0028).

A significant number of houses built in the district in later years continued to incorporate vernacular floor plans. Well preserved examples of these vernacular forms include the side-passage-plan house at 2401 Fourth Avenue (127-0343-0407) and the similar houses at 1712 and

Section   7   Page   4  

1714 Fourth Avenue (127-0343-0359 and 0360). The house at 127-0343-0169 on the corner of Third Avenue and Juniper Street is a similar side-passage-plan dwelling with a dramatic Queen Anne-style corner tower [Photo 1].

Other houses in the early period were built for prosperous professionals or merchants, such as the Carstang, Duke, Leonard, and Heinrich houses. These were illustrated in an 1893 publication promoting the city.<sup>3</sup> These houses took the form of elaborate Queen Anne-style houses known from period pattern books, and they incorporated towers, undercut bay windows, elaborate porches, and picturesque roof forms. The unusual Duke House (127-0343-0174) survives at the corner of Willow Street and Third Avenue [Photo 2]. The central polygonal tower at the center of the principal facade incorporates a third-floor porch and wraparound first-floor porch. The Heinrich House survives at 1910 Fourth Avenue (127-0343-0349). Its elaborately bracketed wraparound porch, polygonal bays, and irregular slate roof have been carefully preserved [Photo 3]. The Naomi Askew Hall Home (127-0343-0163) at 2400 Third Avenue is an important Queen Anne House carefully restored and preserved by the Highland Park Restoration and Preservation Program. This two-story frame house features decorative sawn work, an undercut two-story bay, and a double-pile, side-passage plan [Photo 4].

One of the most important groups of related houses of a late nineteenth-century date are the four matching structures built along the southeast side of Third Avenue north of Trigg Street. These dwellings (127-0343-0217 to 0220) are elegantly detailed Queen Anne-style structures of modest scale with frame upper floors, closely-laid brick first floors, decorative slate roofs, towers, and polygonal bay windows [Photo 5]. Some of the more substantial early houses have matching carriage houses on the alleys, such as the one-and-a-half-story, brick, Second Empire-style carriage house with a Mansard roof at 127-0343-0176 or the two-story, frame stable/carriage house at 1706 Fourth Avenue (127-0343-0362).

The majority of the houses built in what became the Highland Park neighborhood, including Chestnut Hill and the Plateau sections, were the kinds of two-story frame dwellings known as American Foursquare houses. Together with its one-story counterpoint known as the Bungalow, these houses were the principal modest dwellings built across the country in the period from 1905-1930. Most were single-family dwellings but a few were duplexes. They resembled houses built in nearby Barton Heights.

Foursquare houses in the district are usually very simple, with stuccoed frame walls, and one-story, two-bay front porches. The houses are distinguished by minor variations, such as the type of fenestration (paired or single sash windows), the roof form (side gable or front gable, occasionally gambrel or clipped gable) or material (slate or metal), the eaves (open or closed),

Section 7 Page 5

and the porch (tapered piers or classical columns). Well preserved examples include the pair of stuccoed frame houses at 2510 and 2512 Fourth Avenue (127-0343-0314-0315) [Photo 6] and the carefully detailed brick house at 1921 Fourth Avenue (127-0343-0379). Good examples of the related one-and-one-half-story Bungalow form in the study area include the frame house at 2825 Fourth Avenue (127-0343-0438) and the similar example at 1715 Second Avenue (127-0343-0072). One of the most elegant small bungalows in the district is the gable-fronted house with decorative brackets and roof trusses at 1511 Custer Street (127-034-0451).

The plain, simply detailed houses built on most lots were often constructed in groups of two or more as investments by builders or real estate companies. Building permits from the period after the annexation of Highland Park by the city of Richmond in 1914 show the types of houses increasingly built in the district. The permit for the house at 1209 Third Avenue shows that it was a frame house of two stories with a concrete foundation and "hot air" heating system, covered with stucco and roofed with slate. The house, which measured about 30 by 33 feet, was estimated to cost \$2,900. The builder and owner were the same, C.L. Terrell, whose Terrell Building Company at 1911 Virginia Avenue in Highland Park was active in building houses for resale.<sup>4</sup>

A pair of more expensive houses (127-0343-0271 and 0272) were built at the same time at 2801 and 2803 Third Avenue as a development by Modern Home Builders, Inc.<sup>5</sup> The two-story brick-veneered structures were only slightly larger than the stucco house above, but nearly twice as expensive at \$5,000 each, perhaps due to their hot water heat and exterior sheathing of brick. The house at 2801 Third Avenue survives in excellent condition [Photo 7]. Plans and elevations for these houses submitted to the city's building inspector survive in the City of Richmond's building plan collection at the Library of Virginia. An identical floor plan for each was substantially varied by alternate facades and rooflines. One features asymmetrical gables, paired windows, and classical porch columns and the other a shallow hipped roof, single windows, and massive porch piers.<sup>6</sup>

A fourth dwelling was built for owner W. P. Flanagan on Fourth Street in the same year. The brick building, of a similar size to those mentioned previously, was expected to cost \$3,600. It was designed by J.T. Skinner, an employee of the Miller Manufacturing Company, and was to be built by N.W. Perkins. The differences in cost may have had to do with the detailing of the porch and the interior as much as the exterior materials and heating system.<sup>7</sup>

One of the most notable houses in the district is the sophisticated Colonial Revival dwelling of G.L. Beardsley designed by the Richmond architectural firm of Carneal and Johnston and located at 2300 Second Avenue (127-0343-0099) [Photo 8]. The house contrasts sharply with

Section 7 Page 6

neighboring Foursquare houses in its complex detailing, with a central, inset, two-story porch containing a classical frontispiece, flanked by one-story polygonal bays and surmounted by a wide kicked hipped roof. It was built in 1915 at an estimated cost of \$5,000 by the Arnheim Brothers construction firm. Many of the earlier houses with conventional Foursquare or Bungalow plans have finely detailed Colonial Revival exteriors, such as the house at 2115 Fourth Avenue (127-0343-0390) with a Dutch Colonial-style gambrel roof and the dwelling on Fourth Avenue at 127-0343-0327 with a shed dormer and a wide Ionic-columned porch.

Commerce developed on prominent corners of the district and along Brookland Park Boulevard at the northern edge of the district. A handsome two-story brick store with Classical Revival-style details was built about 1915 at the corner of Spruce Street and Fourth Avenue to serve the community (127-0343-0323). Operated by a merchant named Kranitsky, the architecturally sophisticated store is located at 2318 Fourth Avenue [See Photo 9].<sup>8</sup> A similar two-story building, now the home of an International A. F. and A. M. Lodge (127-0343-0285), faced Fourth Avenue at the corner of Brookland Park Boulevard and Fourth Avenue. It may have been built to house a Masonic lodge that formerly used the Northside Hall, a now-vanished town hall originally located across the street. Like most lodge buildings in the period, it housed a store on the ground floor.

Religious buildings also occupied corner lots throughout the neighborhood. The Episcopal Church of the Ascension building (127-0343-0441) still stands on the corner of Fourth Avenue and Custer Street. It is a low, brick structure in the Gothic Revival style, with a crenellated, projecting vestibule, pointed-arch windows, and side buttresses. The Gothic Revival-style stone Northside Baptist Church building stands on the corner of Third Avenue and Victor Street (127-0343-0138) [Photo 10]. It incorporates high gabled roofs and a crenellated corner tower.<sup>9</sup> The building was designed by Richmond architect Charles Robinson, who also did the very similar First English Evangelical Lutheran Church on Monument Avenue two years later.<sup>10</sup> It was enlarged in 1916 along Victor Street to hold a growing congregation. A large and substantial educational building was completed in 1934 to the rear of the church. In 1956 a new sanctuary with a high gabled stone principal facade and an arched entry was built to the northeast of the original church.

#### *World War I to World War II (1917-1945)*

The single-family resources associated with this suburban residential development of the third, fourth, and fifth decades of the twentieth century include houses of various forms: Bungalow, American Foursquare, and derivations of Tudor Revival- and Colonial Revival-style dwellings. Bungalow and American Foursquare dwellings, both resulting from a

U. S. Department of the Interior

Chestnut Hill/Plateau Historic District

City of Richmond, Virginia

Section 7 Page 7

popularization of the Craftsman movement, began to appear some years before the 1917 start of this period, but many were constructed after that date as well. The house forms, popularized in national publications, were largely differentiated by height, and both are among the first houses in the region to utilize irregular, functionally laid-out plans.

Of the houses in the district, the overwhelming majority from the period between the wars are frame buildings of the two-story, Foursquare form. They often are included in groups of two, three, or four similar buildings, probably erected as speculative developments by a builder or developer. Among the most interesting of the Foursquare houses built in this period are the related groups on Fourth and Fifth avenues. These brick houses (including 127-0343-0401-0402) have gabled fronts filled with half-timber work and ornamental stucco front porches with a variety of Gothic- and Palladian-inspired shapes, including several bold ogee arches.

The single-family house at 2707 Second Avenue (127-0343-0019) was built for Mrs. Calvin P. Jones in the mid-1920s [See Photo 11]. It is a good example of the way houses that were not built by a developer were designed. Mrs. Jones, widowed in 1924, moved to Highland Park and had a house built on this lot in 1926-27. Her daughter recalls that she raised her family there and lived there with a daughter until her death in 1972. The plans must have been purchased, but her brother, Louis Washer, Sr., an engineer with the city Department of Public Works, helped her incorporate elements, like the back stairs she wanted, into the design.<sup>11</sup>

Among the buildings built in the 1920s, 30s and 40s are several dwellings built in the Tudor Revival-style, simple houses with decorative entry vestibules, applied decorative features, and steep gabled roofs. A one-and-one-half-story stucco version stands at 2717 Fourth Avenue (127-0343-0329). A more unusual two-story, brick house in the style is found at 2903 Fourth Avenue (127-0343-0442). The house features a clipped gable-front slate roof, half-timbered gables, and Flemish bond brickwork. The Colonial Revival is represented in a limited way. The group of one-story houses at 2509-2515 Second Avenue (127-0343-0029-0032) with decorative porches and gable-front chimneys resemble nationally published prototypes. A related house stands on Brook Road in another part of the Northside area, suggesting that the plans were reused or purchased from the same sources.

Throughout the area homeowners built garages to house newly purchased automobiles. A few were designed to mirror the houses they supported, such as the hip-roofed, brick structure on the alley behind the house at 2406 Third Avenue (127-0343-0161). Most, however, were small frame buildings designed to house a single car and were covered, both wall and roof, with corrugated metal.

Section 7 Page 8

New apartment buildings such as the two-story, gable-fronted stucco house with an apartment on each floor at 2815 Fourth Avenue (127-0343-0435) became a more common housing form, reflecting the decreasing popularity of rooming houses in favor of independent rental units. Apartment construction may also represent a higher cost of home ownership in the 1920s. The four-unit, two-story apartment buildings with paired porches at 2601 Second Avenue (127-0343-00027) and 2207-2209 Fourth Avenue (127-0343-0395) are similar to many built throughout the city in the 1910s and 1920s. The shed roof is concealed by parapets carrying small ornamental tile rooflets. A similar house at 2407 Second Street (127-0343-0040) is a duplex.

Local service and commercial development continued with a row of small shops housed in a one-story, brick, commercial block built on Chestnut Street at Third Avenue about 1930 (127-0343-0215 and 216). A corner store was built about 1920 at Fourth Avenue and Spruce Street (127-0343-0406). The store looked much like the Foursquare houses adjacent to it.

The Classical Revival-style St. Elizabeth's Roman Catholic Church building (127-0343-0558) of 1923 was designed by the firm of architects by whom parishioner William H. Rhodes was employed. The temple-front church, located on the corner of Victor Street and Second Avenue, has a full entablature, a pediment, and colossal columns and pilasters based on the Tower of the Winds Order.<sup>12</sup>

#### *The New Dominion (1946-Present)*

Little occurred in the construction of new buildings in the district as families moved out and property values stagnated after World War II. The most notable building of the period is the school built for St. Elizabeth's Roman Catholic parish. The two-story, International-style building is constructed of brick on a raised poured-concrete foundation. The flat-topped rectangular profile was made distinctive by a roof that slopes gently toward the center as seen at the north and south ends. These ends are decoratively treated with inset crosses. The longer sides contain banded windows on each floor. A small square-topped brick belfry marks the entry near the north end of the east side.

The rapid change of the population in the 1960s did not result in a change in the physical form of the building stock. More recent decay of the real estate values has led to some neglect of the housing stock. The few newer buildings are houses and apartment buildings of plain and inexpensive form. The Grayland Baptist Church (127-0343-0240) built an impressive new Postmodern-style sanctuary in very recent years at the corner of Third Avenue and Juniper Street on the site of the former Mizpah Presbyterian Church building.

Section 7 Page 9

### Site Inventory

Properties in the inventory are organized by street and numerically by address. Entries list the name of the property, the approximate date of construction, and secondary resources. The sites listed below are identified by their property number on the attached Chestnut Hill/Plateau Historic District map. Abbreviations used in the inventory include: C = contributing property, NC = noncontributing property.

### Historic District Inventory Report

127-0343-0001                      1C      2919 Second Avenue                      1920 ca  
Architectural Summary: Two-story, two-bay frame Foursquare house with stucco exterior; wide one-bay arched porch across front; closed eaves; chimney projects ornamentally on south side.

127-0343-0002                      1C      2917 Second Avenue                      1920 ca  
Architectural Summary: Two-story, two-bay frame Foursquare house with paired 1/1 sash; door with sidelights and transom, one-story, two-bay stucco porch with arched opening; and closed eaves.

127-0343-0003                      2C      2915 Second Avenue                      1920 ca  
Architectural Summary: Two-story, four-bay frame Foursquare house with stucco exterior; asphalt shingle roof, 1/1 sash; 1-story, 2-bay porch across front with hipped slate roof and stuccoed piers. One-story gabled corrugated metal garage to rear.

127-0343-0004                      1C      2913 Second Avenue                      1920 ca  
Architectural Summary: Two-story, four-bay frame Foursquare house with stucco exterior; pyramidal hip roof with slate shingles; 1/1 sash; door has sidelights and transom; 2-bay, 1-story Tuscan porch.

127-0343-0005                      1C      2911 Second Avenue                      1920 ca  
Architectural Summary: Two-story, two-bay frame Foursquare dwelling with 6/1 sash; closed sloping eave with ornamental gabled brackets; one-story, two-bay arched porch with stucco piers.

127-0343-0006                      1C      2907 Second Avenue                      1920 ca  
Architectural Summary: Two-story double house with slate mansard roof with pressed metal cornice and end brackets; shed roof to rear; paired 1/1 sash on second floor; rear porch on one side.

Section 7 Page 10

127-0343-0007                      2C      2903 Second Avenue                      1920   ca  
Architectural Summary: Two-story, two-bay frame Foursquare dwelling with stuccoed exterior; paired sash 9/1 on second floor, triple 6/1 sash on first floor; closed eave cornice.  
One-story shed-roof, stuccoed frame garage.

127-0343-0008                      1C      2901 Second Avenue                      1920   ca  
Architectural Summary: Two-story, two-bay frame Foursquare dwelling with paired 9/1 sash, closed eave cornice; one-story, two-bay Tuscan porch with columns on brick plinths. Door has sidelights.

127-0343-0009                      2C      2815 Second Avenue                      1920   ca  
Architectural Summary: Two-story, two-bay frame Foursquare dwelling with vinyl siding; one-story, two-bay porch with modern posts; two-story porch on rear.  
One-story gabled corrugated metal garage to rear.

127-0343-0010                      2C      2813 Second Avenue                      1920   ca  
Architectural Summary: Two-story, two-bay frame Foursquare dwelling with 6/1 sash flanking second floor; small bathroom windows in center; and entry door flanked by small 1/1 sash.  
One-story concrete block gabled garage.

127-0343-0011                      2C      2811 Second Avenue                      1920   ca  
Architectural Summary: Two-story, two-bay frame Foursquare dwelling with stucco exterior, paired 9/1 sash replaced on second floor with 1/1. On first floor the 9/1 sash is flanked by 6/1 sash to form a triple unit; two-bay one-story porch has arched stucco supports; enclosed two-story porch on rear.  
One-story concrete block gabled garage.

127-0343-0012                      2C      2809 Second Avenue                      1940   ca  
Architectural Summary: Frame three-bay, 1 and 1/2-story "Cape Cod" style dwelling with gabled projecting entry vestibule with arched hood over door with transom, 8/8 sash. Screened side porch.  
Gabled corrugated metal garage.

127-0343-0013                      1C      2805 Second Avenue                      1920   ca  
Architectural Summary: Two-story, two-bay frame Foursquare dwelling with paired 1/1 sash (picture window with transom on first floor); 1-story, 2-bay porch with Ionic columns and turned balustrade.

127-0343-0014                      1NC    2803 Second Avenue                      1965   ca  
Architectural Summary: Noncontributing, brick and frame split level Ranch House with asphalt shingle roof, paired and single 1/1 sash windows and triple picture window beside door.

Architectural Summary: One-story, masonry storefront building with brick facade, shed roof, fixed multi-pane window, glass panel wood single-leaf door, and ornamental projecting brick diaper-work on parapet.

127-0343-0018 1C 2929 Second Avenue 1940 ca

Architectural Summary: One-story, masonry storefront building with brick facade and stuccoed side with shed roof and metal door.

127-0343-0019 1C 2707 Second Avenue 1920 ca

Architectural Summary: Two-story, two-bay brick Foursquare dwelling with paired 6/1 sash; hip standing seam metal roof; closed eave cornice; 1-story, 2-bay porch of tapered wood posts on brick plinths.

127-0343-0020 1C 2705 Second Avenue 1920 ca

Architectural Summary: Two-story, three-bay frame Foursquare dwelling with 2-bay, 1-story porch with triple window beside door, 12/1 sash on second floor, exposed decorative rafter ends.

127-0343-0021 2C, 1NC 2701 Second Avenue 1920 ca

Architectural Summary: Two-story, two-bay frame Foursquare dwelling with paired 1/1 sash on second floor; stucco exterior; triple windows (1/1) beside entry with sidelights and transom; closed eave cornice.

One-story shed roof frame garage.

Noncontributing, modern frame garage.

Section 7 Page 12

127-0343-0022                      2C      2611 Second Avenue                      1910   ca

Architectural Summary: Two-story, three-bay frame Foursquare dwelling with paired and single 1/1 sash; pedimented center dormer; 1-story, 5-bay wraparound porch with fluted Ionic columns; closed cornice with built in gutter; hipped slate roof; polygonal 2-story bay on north; 2-story porch on rear. One-story shed roof frame garage.

127-0343-0023                      3C      2609 Second Avenue                      1910   ca

Architectural Summary: Two-story, two-bay frame Foursquare dwelling with hip slate roof, hip dormer in center; paired and single 1/1 sash on second floor, triple sash on first floor; sidelights and transom at entry, one-story, two-bay porch with fluted Tuscan columns; square projecting wing on north side, second story enclosed porch on rear.

Metal clad frame garage.

Shed roof one-story frame hen house.

127-0343-0024                      1NC    2607 Second Avenue                      1970   ca

Architectural Summary: Noncontributing one-story brick tract house with 1/1 sash and stoop at entry.

127-0343-0025                      1C      2605 Second Avenue                      1910   ca

Architectural Summary: Two-story, three-bay frame Foursquare dwelling with 1/1 sash; asbestos siding; triple window on first floor beside entry door with sidelights and transom; square projecting bay on north side; 1-story, 2-bay porch on front with fluted square posts. Two-story porch on rear.

127-0343-0026                      2C      2603 Second Avenue                      1910   ca

Architectural Summary: Two-story, two-bay frame Foursquare dwelling with paired 1/1 sash; 1-story, 2-bay porch on with Ionic columns; hip dormer and closed eave cornice.

Frame corrugated metal garage.

127-0343-0027                      1C      2601 Second Avenue                      1925   ca

Architectural Summary: Two-story apartment building with two 1-story porches with paneled square posts; paired 6/6 sash; shed roof with parapet; ornamental with tile roofed bracketed rooflets.

127-0343-0028                      1C, 1NC    2517 -2519 Second Avenue                      1900   ca

Architectural Summary: Two-story, frame double-house with side-passage plan with polygonal bays on front and side of each unit; dentil cornice with decorative pierced panels in frieze; shed roof with ornamental slate mansard roof on front and steep pointed roof over the two front bays. Porch spans between bays to shelter entries.

Noncontributing, one-story, mid-20th concrete block garage.

Section 7 Page 13

127-0343-0029 1 C 2515 Second Avenue 1920 ca

Architectural Summary: One-story, frame gable fronted Colonial Revival style dwelling with ornamental chimney on front flanked by semi-circular garret windows. One-story porch supported by paired slender square columns with ornamental lattice between.

127-0343-0030 1C 2513 Second Avenue 1920 ca

Architectural Summary: One-story, frame Colonial Revival style dwelling with ornamental chimney on front; 8/8 sash; gabled 2-bay porch with large stuccoed columns and ornamental bullseye window in gable.

127-0343-0031 1C 2511 Second Avenue 1920 ca

Architectural Summary: One-story, frame Colonial Revival style dwelling with ornamental chimney on front; 8/8 sash; gabled 2-bay porch with large stuccoed columns and ornamental bullseye window in gable.

127-0343-0032 2C 2509 Second Avenue 1920 ca

Architectural Summary: One-story frame Colonial-Revival dwelling with ornamental chimney on front, 8/8 sash, gabled 2-story porch with large stuccoed columns and ornamental bullseye window. One-story frame metal-clad garage.

127-0343-0033 1C 2503 Second Avenue 1925 ca

Architectural Summary: One and one-half story frame Bungalow with paired and single 6/1 sash, stuccoed exterior, wide one-story arched stuccoed porch, exposed rafter ends on gambrel roof with front and rear shed dormers.

127-0343-0034 2C 2419 Second Avenue 1920 ca

Architectural Summary: Frame, two-bay, two-story Foursquare dwelling with paired 1/1 replacement sash, shingled upper story, vinyl lower floor, exposed rafters, 1-story, 2-bay porch with square posts. One-story, corrugated metal clad garage.

127-0343-0035 1C 2417 Second Avenue 1920 ca

Architectural Summary: Frame, two-bay, two-story Foursquare dwelling with paired 6/1 sash, stucco walls, closed cornice, hipped dormer, built-in gutter, one-story two-bay porch across front with large square stuccoed piers and pointed arch openings.

Section 7 Page 14

127-0343-0036                      1C      2415 Second Avenue                      1920   ca

Architectural Summary: Frame, four-bay, two-story Foursquare dwelling with paired 9/1 sash, stucco walls, closed cornice, hipped dormer, built-in gutter, one-story two-bay porch across front with large square stuccoed piers and pointed arch openings.

127-0343-0037                      2C      2413 Second Avenue                      1920   ca

Architectural Summary: Frame, four-bay, two-story Foursquare dwelling with paired 1/1 sash, stucco walls, closed cornice, hipped dormer, built-in gutter, one-story two-bay porch across front with large square stuccoed piers and pointed arch openings.

One-story frame garage.

127-0343-0038                      1C      2411 Second Avenue                      1920   ca

Architectural Summary: Frame, four-bay, two-story Foursquare dwelling with paired 1/1 sash, stucco walls, closed cornice, hipped dormer, built-in gutter, one-story two-bay porch across front with large square stuccoed piers and round arch openings.

127-0343-0039                      2C      2409 Second Avenue                      1920   ca

Architectural Summary: Frame, two-bay, two-story frame Foursquare dwelling with paired 6/1 sash, stucco walls, closed cornice, hipped dormer, built-in gutter, one-story two-bay porch across front with large square posts on brick plinths and pointed arch openings.

One-story, metal-clad frame garage to the rear.

127-0343-0040                      2C      2407 Second Avenue                      1930   ca

Architectural Summary: Two-story shed-roofed brick duplex dwelling with parapet with cast stone cornice, 7-course American bond brick with panel over second floor windows, cast stone lintels and sills at the 6/1 sash windows, porch across front shelters double entry is supported on tapered posts on brick plinths. Two-story porch on rear.

One-story, metal-clad frame garage to the rear.

127-0343-0041                      1C, 1NC      2401 Second Avenue                      1925   ca

Architectural Summary: One-and one-story brick dwelling with gambrel fronted roof with slate covering, one pedimented dormer on each side, 2/2 sash with soldier course headers, one-story porch across front has Doric columns and turned balustrade, arched louvered vent in gable of attic, screened one-story porch on rear.

Noncontributing, one-story, concrete block garage to the rear.

Section 7 Page 15

127-0343-0042 1C 2315 Second Avenue 1920 ca

Architectural Summary: Two-story, two-bay frame Foursquare dwelling with paired 9/1 sash windows, entry with sidelights and transom, asbestos shingle siding, hipped roof with hipped dormer with paired casements, closed eave cornice with internal gutters.

127-0343-0043 1C, 1NC 2313 Second Avenue 1920 ca

Architectural Summary: Two-story, two-bay frame Foursquare dwelling with paired 9/1 sash windows, entry with sidelights and transom, asbestos shingle siding, hipped roof with hipped dormer with paired casements, closed eave cornice with internal gutters.

Noncontributing, one-story, concrete block garage to the rear.

127-0343-0044 1C 2311 Second Avenue 1920 ca

Architectural Summary: Two-story, two-bay frame Foursquare dwelling with paired 1/1 sash windows, entry with sidelights and transom, aluminum siding, gable roof with gabled dormers, decorative brackets in gable, closed eave cornice with internal gutters.

127-0343-0045 1C, 1NC 2309 Second Avenue 1920 ca

Architectural Summary: Two-story, two-bay frame Foursquare dwelling with paired and single 6/1 sash windows, entry with sidelights and transom, aluminum siding, gable roof with gabled dormers, decorative brackets in gable, closed eave cornice with internal gutters.

Noncontributing, one-story, frame garage to the rear.

127-0343-0046 1C 2307 Second Avenue 1920 ca

Architectural Summary: Two-story, two-bay frame Foursquare dwelling with paired and single 9/1 sash windows, entry with sidelights and transom, aluminum siding, gable roof with gabled dormers, decorative brackets in gable, closed eave cornice with internal gutters.

127-0343-0047 1C 2303 Second Avenue 1920 ca

Architectural Summary: Two-story, two-bay frame Foursquare dwelling with paired and single 9/1 sash windows, entry with sidelights and transom, aluminum siding, gable roof with gabled dormers, decorative brackets in gable, open cornice with exposed rafter ends and ornamental gable brackets.

127-0343-0048 3C (1 C Object) 2301 Second Avenue 1920 ca

Architectural Summary:

Two-story, two-bay frame Foursquare dwelling with ornamental 5 (vertical)/1 sash windows with diamond tops of panes, entry with sidelights and transom, aluminum siding, gable roof with gabled dormers, decorative brackets in gable, open eave cornice with exposed rafter ends and ornamental

Section 7 Page 16

gable brackets. One-story rear porch.

Architectural Summary: Two-story, 3-bay double-pile side-passage plan dwelling with 2/2 sash windows, entry with transom, gable is off center of principal facade, hipped standing seam metal roof.

127-0343-0151 2C 2514 Third Avenue 1910 ca

Architectural Summary: Frame gable-fronted side-passage dwelling with center front gable, 1-story, 2-bay porch on front with turned posts, spindle frieze and sawn brackets, gable standing seam metal roof.

One-story frame asbestos-shingled shed to rear.

127-0343-0152 1NC 2510 Third Avenue 1970 ca

Architectural Summary: Non-contributing, one-story, gable-front frame dwelling with 1/1 sash, off-center gabled porch.

127-0343-0153 1C 2508 Third Avenue 1920 ca

Architectural Summary: Frame, 2-story, 2-bay multiple dwelling with hipped roof, 2-story, 2-bay gabled porch on front with Doric columns, single and paired 1/1 sash windows, door to first and second floor apartments from first floor front originally.

127-0343-0154 1C 2404 Third Avenue 1920 ca

Architectural Summary: Brick 6-bay, 2-story double apartment building containing two apartments with shallow slate covered mansard roof over each section, rock-faced sills, flat stone lintels at 1/1 sash.

127-0343-0155 2C 2502 Third Avenue 1920 ca

Architectural Summary: Frame, 2-story, 2-bay Foursquare dwelling with narrow weatherboard siding, paired-sash, hipped standing seam metal roof with central hip-roof dormer, closed eave cornice with gutters, one-story, 2-bay brick porch across front.

Corrugated metal clad frame garage.

127-0343-0156 1C 2500 Third Avenue 1920 ca

Architectural Summary: Frame, two-story, two-bay Foursquare dwelling with replacement door with sidelights and transom, paired and singled 1/1 sash windows, off-center gable over one bay of main front, one-story, 2-bay porch with Doric columns across front, projecting polygonal bay of two stories on south facade.

Section 7 Page 32

127-0343-0157 1C 2418 Third Avenue 1920 ca

Architectural Summary: Frame, 2-story, 2-bay Foursquare dwelling with paired 6/1 sash windows, center gabled dormer on clipped gable roof, wood shingled second floor, aluminum siding on first floor, 1-story, 2-bay porch across front with tapered square posts on brick plinths.

127-0343-0158 1C 2414 Third Avenue 1920 ca

Architectural Summary: Frame, 2-story, 2-bay Foursquare dwelling with paired 6/1 sash windows, center hipped dormer on hipped roof, stucco exterior, 1-story, 2-bay porch across front with stuccoed square posts with arched openings. Closed eave cornice with inset gutter.

127-0343-0159 2C 2412 Third Avenue 1915 ca

Architectural Summary: Brick exterior with paired and single sash, no dormer, one-story, 2-bay porch across the front with fluted Doric columns. Closed eave cornice with inset gutter. Corrugated metal clad frame garage.

127-0343-0160 2C 2408 Third Avenue 1915 ca

Architectural Summary: Brick exterior with paired and single sash, no dormer, one-story, 2-bay porch across the front with fluted Doric columns. Closed eave cornice with inset gutter. Corrugated metal clad frame garage.

127-0343-0161 2C 2406 Third Avenue 1920 ca

Architectural Summary: Frame, 2-story, 2-bay multiple dwelling with hipped roof, 1-story, 2-bay gabled porch on front with square posts, single and paired 1/1 sash windows, door to first and second floor apartments from first floor front originally. Brick hip-roofed garage.

127-0343-0162 1C 2404 Third Avenue 1915 ca

Architectural Summary: Brick exterior with paired and triple 6/1 sash, no dormer, one-story, 1-bay porch across the front with arched opening on brick plinths. Closed eave cornice with inset gutter.

127-0343-0163 1C 2400 Third Avenue 1895 ca

Architectural Summary: Frame, 2-story, 2-bay double-pile, side-passage plan dwelling with 1/1 sash, projecting gabled elements on side and front, polygonal bay undercut on front element, with sawn decorative brackets, one-story wrap-around porch on front and south side, with sawn brackets, turned posts and decorative sawn frieze and ornamental railing.

Section 7 Page 33

127-0343-0164 1C 2314 Third Avenue 1900 ca

Architectural Summary: Frame 2-story, 3-bay gable fronted dwelling with asphalt imitation stone siding, slate roof with gables on sides, one-story and 2-story wings on rear, 1-story, 3-bay porch across front with wide lattice frieze and rail with ornamented cut-outs, closed eave cornice with inset gutter.

127-0343-0165 1C 2310 Third Avenue 1915 ca

Architectural Summary: Frame 2-story, 2-bay foursquare dwelling with central front gable on hipped roof, paired 1/1 replacement sash, door with sidelights and transom, wide one-story, 2-bay porch on front with tapered square columns, vinyl siding on front, stucco elsewhere. Two-story porch with enclosed 2nd floor on rear.

127-0343-0166 1C 2308 Third Avenue 1920 ca

Architectural Summary: Frame 2-story, 2-family house with 2-story, 3-bay porch with Doric columns, paired 2/2 sash, stucco on front, gabled wing to rear.

127-0343-0167 2C 2306 Third Avenue 1920 ca

Architectural Summary: Brick 2-story, 2-bay Foursquare dwelling with paired triple sash windows with ornamental upper sash (with diamond topped vertical panes), one-story, 2-bay porch across front with Doric columns on brick plinths, paired casements in dormer on front match upper sash on sash windows, closed eave cornice, 2-story porch on rear.

Corrugated metal clad frame garage.

127-0343-0168 2C 2302 Third Avenue 1915 ca

Architectural Summary: Frame 2-story, 2-bay foursquare dwelling with central gable with ornamental fanlight, 1/1 sash windows, door with sidelights and transom, one-story, wrap-around porch with

Doric columns, gabled wing to north side, one-story section on rear (enclosed porch?).

Corrugated metal clad frame garage.

127-0343-0169 1C 2212 Third Avenue 1895 ca

Architectural Summary: Frame 2-story, 3-bay double-pile side-passage plan dwelling with 3-story corner tower over entry bay with pyramidal steep roof, L-shaped gable roof with gables on front and north side. Small kicked roof hood at side entry on north, and paired sash in gables and closed eave cornice with inset gutter.

Section 7 Page 34

127-0343-0170 1C 2210 Third Avenue 1895 ca

Architectural Summary: Frame 2-story, 3-bay gable-fronted double-pile side-passage plan dwelling, three-bay, two-story porch with turned posts and lattice frieze.

127-0343-0171 4C (1 C Structure) 2208 Third Avenue 1910 ca

Architectural Summary: Frame 2-story Queen Anne style dwelling with projecting conically-roofed tower on front to north side, single leaf door with transom and sidelights, 1/1 paired and single sash, gabled projecting element on south with 2-story bay, one-story wraparound porch with Doric columns has gable over entry.

Two corrugated metal clad frame garages.

Mid-20th-century frame gazebo (Contributing Structure).

127-0343-0172 1C 2206 Third Avenue 1895 ca

Architectural Summary: Frame 2-story, 3-bay gable-fronted double-pile side-passage plan dwelling, three-bay, one-story porch with slender columns, 2-story polygonal bay undercut under projecting gable on south side with decorative brackets.

127-0343-0173 1C 2202 Third Avenue 1915 ca

Architectural Summary: Frame 2-story, 3-bay dwelling with hipped standing seam metal roof, off-center dormer contains Palladian window, paired and single 1/1 sash, large window with decorative transom on 1st floor beside door with transom and sidelights and oval glass panel, one-story Doric wrap-around porch, projecting bay on south side, and closed eave cornice with inset gutter.

127-0343-0174 2C 2114 Third Avenue 1895 ca

Architectural Summary: Frame 2 1/2-story elaborate Queen Anne style dwelling with side gabled roof with central polygonal bay with conical roof with third floor undercut porch, with second floor porch undercut at northeast corner. Arch-headed window with ornamental upper sash, one-story polygonal porch across front and around tower has paired chamfered posts, sawn brackets, and square baluster, 1/1 sash with ornamental upper sash. Enclosed eaves cornice with inset gutters. 2-story ell with 2-story porch on south side.

Shed-roofed brick garage.

127-0343-0175 1C 2110 Third Avenue 1895 ca

Architectural Summary: Frame 2-story, 3-bay dwelling with hipped slate shingle roof, off-center dormer contains sash window, paired and single 1/1 sash, large window with decorative transom on 1st floor beside door with transom and sidelights and oval glass panel, projecting front bay with

Section 7 Page 35

wood mousetooth-shingled infill, wide wrap-around porch with turned posts and pierced ornamental frieze, enclosed porch of 2 stories on south side, 2-story porch on rear, projecting bay on south side, and closed eave cornice with inset gutter.

127-0343-0176                      2C      2308 Third Avenue                      1895   ca

Architectural Summary: Frame 2-story, complex Queen Anne style house with 1/1 sash, hipped slate roof, German siding on first floor, diamond shingles on second floor, 2-story projecting bay on front and south side with curved bay on front. 2-story Doric column wraps around front and side. Paneled gables with carved ornament and dentils in gables. Stained glass transoms at first floor windows. 2-story porch on rear. Slate roof has ornamental diamond shaped elements and patterns. Brick, mansard-roofed 1 1/2-story garage to rear with dormers and elaborate paneled doors.

127-0343-0177                      2C      2102 Third Avenue                      1920   ca

Architectural Summary: Frame 1 1/2-story gambrel-front Bungalow with 2-bay 1-story porch across the front, exposed rafter ends with tapered wood posts on brick plinths. One-story corrugated metal clad frame garage.

127-0343-0178                      2C      2100 Third Avenue                      1920   ca

Architectural Summary: Brick 1 1/2-story 3-bay gambrel-roofed dwelling with 12/1 sash, central door with sidelights, shed-roofed dormers on front and rear, one-story 3-bay porch with stucco arched openings on brick plinths, gable brackets. One-story stuccoed frame garage.

127-0343-0179                      2C      2022 Third Avenue                      1920   ca

Architectural Summary: Frame 2-story 3-bay Foursquare dwelling with stuccoed walls, hipped standing seam metal roof, paired and single 2/2 sash windows, door to first floor and door to second both on front porch, 2-story 2-bay porch with square piers, closed eave cornice with inset gutters. One-story shed-roofed brick garage to rear with parapet.

127-0343-0180                      1C      2012 Third Avenue                      1920   ca

Architectural Summary: Frame 2-story 3-bay Foursquare dwelling with stuccoed walls, hipped standing seam metal roof, paired 1/1 sash windows, door to first floor and door to second both on front porch, 2-story 2-bay porch with square piers, closed eave cornice with inset gutters.

Section   7   Page  36 

127-0343-0181                      2C      2010 Third Avenue                      1920    ca

Architectural Summary: Frame 2-story 3-bay Foursquare dwelling with stuccoed walls, hipped standing seam metal roof, paired 1/1 sash windows, door to first floor and door to second both on front porch, 1-story 2-bay porch with stuccoed arched openings, closed eave cornice with inset gutters.

One-story corrugated metal clad frame garage.

127-0343-0182                      2C      2008 Third Avenue                      1920    ca

Architectural Summary: Frame 2-story 3-bay Foursquare dwelling with stuccoed walls, hipped standing seam metal roof, paired 1/1 sash windows, door to first floor and door to second both on front porch, 1-story 2-bay porch with stuccoed arched openings, closed eave cornice with inset gutters.

One-story corrugated metal clad frame garage.

127-0343-0183                      1C      2006 Third Avenue                      1920    ca

Architectural Summary: Frame 2-story 3-bay Foursquare dwelling with stuccoed walls, hipped standing seam metal roof, paired 1/1 sash windows, door to first floor and door to second both on front porch, 1-story 2-bay Tuscan porch, closed eave cornice with inset gutters.

127-0343-0184                      2C      2004 Third Avenue                      1920    ca

Architectural Summary: Frame 2-story 3-bay Foursquare dwelling with stuccoed walls, hipped standing seam metal roof, paired 1/1 sash windows, door to first floor and door to second both on front porch, 1-story 2-bay Tuscan porch, closed eave cornice with inset gutters.

One-story corrugated metal clad frame garage.

127-0343-0185                      2C      2002 Third Avenue                      1920    ca

Architectural Summary: Frame 2-story 3-bay Foursquare dwelling with stuccoed walls, hipped standing seam metal roof, 9/1 sash windows, 1-story 2-bay Tuscan porch, closed eave cornice with inset gutters.

One-story corrugated metal clad frame garage.

127-0343-0186                      2C      2000 Third Avenue                      1920    ca

Architectural Summary: Frame 2-story 3-bay Foursquare dwelling with stuccoed walls, hipped standing seam metal roof, 9/1 sash windows, 1-story 2-bay Tuscan porch, closed eave cornice with inset gutters.

One-story corrugated metal clad frame garage.

Section 7 Page 37

127-0343-0187                      2NC    1914 Third Avenue                      1970    ca  
Architectural Summary: Frame, 3-bay, 1-story tract house with aluminum siding and 3/1 sash.  
Noncontributing, one-story, frame shed ca 1960 to rear.

127-0343-0188                      1C, 1NC    1910 Third Avenue                      1920    ca  
Architectural Summary: Frame 1 1/2-story gabled Bungalow, 1/1 sash, gabled central dormer, exposed rafter ends and gable brackets, and 2-bay porch across front with paired posts.  
Noncontributing, one-story, concrete block shed ca. 1960 to rear.

127-0343-0189                      1C    1908 Third Avenue                      1905    ca  
Architectural Summary: Frame 2-story, 2-bay double-pile, side-passage dwelling with paired and single 1/1 sash, dentil cornice, one-story porch with square posts, turned brackets, and dentil cornice. Two-story polygonal bay on front undercut under gable, paired diamond paned casements in gable, two-story ell to rear.

127-0343-0190                      1C    1906 Third Avenue                      1905    ca  
Architectural Summary: Frame 2-story, 2-bay double-pile, side-passage dwelling with paired and single 1/1 sash, dentil cornice, one-story wrap-around porch with square posts, turned brackets, and dentil cornice. Shallow projecting bay on front with gabled top, closed eave with inset gutters on two-story ell to rear.

127-0343-0192                      2C    1900 Third Avenue                      1905    ca  
Architectural Summary: Shed-roofed frame two-story, three-bay double-pile, side-passage plan dwelling with 2/2 sash, double door with transom, consoles on wooden cornice, one-story, 3-bay Tuscan porch.  
One-story corrugated metal clad frame garage.

127-0343-0193                      1C    1814 Third Avenue                      1895    ca  
Architectural Summary: Frame 2-story, 3-bay double-pile side passage plan dwelling with 2/2 sash, slate mansard roof conceals shed; has end consoles; cornice with consoles and dentil molding, 3-bay one-story porch across front with turned posts and sawn brackets, inset gutter.

127-0343-0194                      1C    1812 Third Avenue                      1895    ca  
Architectural Summary: Frame 2-story, 3-bay double-pile side passage plan dwelling with 2/2 sash, cornice with consoles and dentil molding, 3-bay one-story porch across front with turned posts and sawn brackets, inset gutter.

Section 7 Page 38

127-0343-0195 1C 1808 Third Avenue 1920 ca

Architectural Summary: Two-story frame 2-bay Foursquare dwelling with paired and single 9/1 sash, stuccoed walls, hipped roof with hipped center dormer, 1-story 2-bay porch across front with stuccoed arched openings on brick plinths and closed eave cornice with built-in gutters.

127-0343-0196 1C 1806 Third Avenue 1920 ca

Architectural Summary: Two-story frame 2-bay Foursquare dwelling with paired and single 9/1 sash, stuccoed walls, hipped roof with hipped center dormer, 1-story 2-bay porch across front with stuccoed arched openings on brick plinths and closed eave cornice with built-in gutters.

127-0343-0197 1C 1804 Third Avenue 1910 ca

Architectural Summary: Frame 2-story gable-front multiple dwelling with 9/1 sash, one-story 2-bay Doric porch, 9/1 sash, slate hipped roof.

127-0343-0198 2C 1802 Third Avenue 1895 ca

Architectural Summary: Frame 2-story, 3-bay double-pile side passage plan dwelling with 2/2 sash, hipped roof with central gable, cornice with consoles and dentil molding, 3-bay one-story porch across front with spindle frieze, 2-story bay on south side, modillion cornice, ornamental window cornices with dentil molding, inset gutter.

One-story corrugated metal clad frame garage.

127-0343-0199 1C 1800 Third Avenue 1895 ca

Architectural Summary: Frame 2-story, 3-bay double-pile side passage plan dwelling with 2/2 sash, hipped roof with central gable, cornice with consoles and dentil molding, 3-bay one-story porch across front with spindle frieze, 2-story bay on south side, modillion cornice, ornamental window cornices with dentil molding, inset gutter.

127-0343-0200 1C 1720 Third Avenue 1895 ca

Architectural Summary: Frame 2-story, 3-bay double-pile side passage plan dwelling with 2/2 sash, cornice with consoles and dentil molding, 3-bay one-story porch across front with turned posts and sawn brackets, inset gutter.

127-0343-0201 1C 1713 Third Avenue 1895 ca

Architectural Summary: Frame 2-story, 3-bay double-pile side passage plan dwelling with 2/2 sash, cornice with consoles and dentil molding, 3-bay one-story porch across front with turned posts and sawn brackets, inset gutter.

Section 7 Page 39

127-0343-0202 1C 1714 Third Avenue 1970 ca

Architectural Summary: Blocklike frame 2-story apartment building with 6/6 sash, vinyl siding.

127-0343-0203 1C 1628 Mathews Street 1879 ca

Architectural Summary: Frame 2-story, 5-bay double-pile center-passage plan dwelling with central 2-story porch at entry bay sheltering doors on each floor with transoms flanked by 6/6 sash, shallow hipped standing seam metal roof, massive brick chimneys placed between the two rooms that open to each side of the central passage. Sawn brackets on the cornice across at the rear suggest that the west front was the principal front originally. The chimneys feature inset panel on the front. One-story bracketed porch of three bays on west front.

127-0343-0204 1C 1701 Third Avenue 1910 ca

Architectural Summary: Frame 2-story 3-bay double-pile side-passage plan dwelling with wide entry (now altered) with elliptical fanlight, 1/1 sash on front 2/2 sash elsewhere, hipped standing seam metal roof with wide clipped gable on front, two-story ell with 2-story porch on south side, one-story Doric wrap-around porch, and stuccoed exterior.

127-0343-0205 1C 1707 Third Avenue 1910 ca

Architectural Summary: Frame 2-story 3-bay dwelling with regional double-pile side-passage plan and Colonial Revival detailing. The gable-front roof has a dentil cornice which extends up to form a full pediment. A polygonal bay rises on the south side. A 1-story porch with 3 bays across the front has slender Corinthian colonnettes and a dentil cornice. One-story ell to rear and built-in gutter.

127-0343-0206 2C 1NC (Structure) 1711 Third Avenue 1895 ca

Architectural Summary: Large frame double-pile side-passage plan house with steep roof with hipped section in front with high gable and projecting gable bay offset to south side of entry bay: the first floor of the bay is undercut below one-story porch across front with probably added Doric columns, gables on north side of roof over one-story square projecting bay.

One-story weatherboarded frame garage.

Noncontributing metal carport (Noncontributing Structure).

127-0343-0207 1C 1713 Third Avenue 1920 ca

Architectural Summary: Frame 2-story 3-bay Foursquare dwelling with 9/1 sash, hipped standing seam metal roof, stuccoed walls, one-story 2-bay Doric porch across front, door with sidelights and transom; closed eave cornice with inset gutter.

Section 7 Page 40

127-0343-0208 1C 1715 Third Avenue 1920 ca

Architectural Summary: Frame 2-story 3-bay Foursquare dwelling with 9/1 sash, hipped standing seam metal roof, stuccoed walls, one-story 2-bay Doric porch across front, door with sidelights and transom; closed eave cornice with inset gutter.

127-0343-0209 3C 1801 Third Avenue 1895 ca

Architectural Summary: Frame 2-story, 3-bay double-pile side passage plan dwelling with 2/2 sash, hipped roof with central gable, pedimented side fully projecting second floor central pavilion over porch, polygonal bay on south, 3-bay one-story porch across front with spindle frieze, 2-story bay on south side, modillion cornice, ornamental window cornices with dentil molding, inset gutter. Two one-story corrugated metal clad frame garages.

127-0343-0210 2C 1805 Third Avenue 1895 ca

Architectural Summary: Frame 2-story, 3-bay double-pile side passage plan dwelling with 1/1 sash, hipped roof with central gable, cornice with consoles and dentil molding, 3-bay one-story porch across front with spindle frieze, 2-story bay on south side, modillion cornice, ornamental window cornices with dentil molding, inset gutter. One-story weatherboarded frame garage.

127-0343-0211 1C 1807 Third Avenue 1895 ca

Architectural Summary: Frame 2-story, 3-bay double-pile side passage plan dwelling with 2/2 sash, cornice with consoles and dentil molding, 1-story 3-bay porch across front with turned posts and spindle frieze, inset gutter.

127-0343-0212 1C, 1NC 1809 Third Avenue 1910 ca

Architectural Summary: Frame 2-story, 3-bay double-pile side passage plan dwelling with paired and single 1/1 sash, mansard roof has pressed metal shingles with small gable over one-story projecting square bay front porch. The gable has sawn infill ornament; cornice with consoles and dentil molding, 3-bay one-story porch across front with turned posts and sawn brackets, inset gutter. Noncontributing, one-story concrete block shed to rear.

127-0343-0213 2C 1811 Third Avenue 1910 ca

Architectural Summary: Frame 2-story, 3-bay double-pile side passage plan dwelling with 2/2 sash, asphalt shingle mansard roof conceals shed; has end consoles; cornice with consoles and dentil molding, 3-bay one-story porch across front with turned posts originally (one survives) and sawn brackets, inset gutter. One-story frame garage.

Section 7 Page 41

127-0343-0214 1C 2600 Fourth Avenue 1920 ca

Architectural Summary: Frame 2-story stuccoed commercial building with inset, blocked storefront and blocked inset second-floor apartment entry to side, paired 1/1 sash, hipped standing seam metal roof.

127-0343-0215 1C 1411 Chestnut Street 1950 ca

Architectural Summary: Brick 1-story-shed-roofed commercial building with boarded up storefront.

127-0343-0216 1C 1401 -1409 Chestnut Street 1910

Architectural Summary: Brick 1-story, 5-unit commercial block with slate mansard roofs concealing shed roofs to rear, bricked up or boarded up storefronts; metal cornices with pressed metal consoles between storefronts.

127-0343-0217 1C 1901 Third Avenue 1890 ca

Architectural Summary: Two (or 1 3/4) story Queen Anne style dwelling with pyramidal slate roof with projecting gabled elements to each side and clipped gables, offset section to front with under first floor bay and pierced brackets supporting second floor. The first floor is brick and the second floor is framed. One-story porch at entry has slender Doric columns and sawn wood frieze with circular motif. Fanlight in 2nd floor over entry door, wooden ornamental bargeboards in gables and metal ornamental finials. 2/2 sash windows with segmentally arched heads on rear and sides. One-story ell to rear.

127-0343-0218 1C 1905 Third Avenue 1890 ca

Architectural Summary: Two (or 1 3/4) story Queen Anne style dwelling with pyramidal slate roof with projecting gabled elements to each side and clipped gables offset section to front with under first floor bay and pierced brackets supporting second floor. Fanlight in 2nd floor over entry door, wooden ornamental bargeboards in gables and metal ornamental finials. 2/2 sash windows with segmentally arched heads on rear and sides. One-story ell to rear.

127-0343-0219 1C 1907 Third Avenue 1890 ca

Architectural Summary: Two (or 1 3/4) story Queen Anne style dwelling with pyramidal slate roof with projecting gabled elements to each side and clipped gables offset section to front with under first floor bay and pierced brackets supporting second floor. The first floor is brick and framed on second floor. One-story porch at entry has replaced slender Doric columns and sawn wood frieze with

Section 7 Page 42

circular motif. Fanlight in 2nd floor over entry door, wooden ornamental bargeboards in gables and metal ornamental finials. 2/2 sash windows with segmentally arched heads on rear and sides. One-story ell to rear.

127-0343-0220                      1C, 1NC              1909 Third Avenue              1890 ca  
Architectural Summary: Two (or 1 3/4) story Queen Anne style dwelling with pyramidal asphalt shingle roof with projecting gabled elements to each side and clipped gables offset section to front with under first floor bay and pierced brackets supporting second floor. The first floor is brick and framed on second floor. One-story porch at entry has slender Doric columns and sawn wood frieze with circular motif. Fanlight in 2nd floor over entry door, wooden ornamental bargeboards in gables and metal ornamental finials. 2/2 sash windows with segmentally arched heads on rear and sides. One-story ell to rear.  
Noncontributing frame shed ca.1970 to rear.

127-0343-0221                      1C              1911 Third Avenue              1890 ca  
Architectural Summary: Two (or 1 3/4) story Queen Anne style dwelling with pyramidal slate roof with projecting gabled elements to each side and clipped gables offset section to front with under first floor bay and pierced brackets supporting second floor. The first floor is stucco as is the second floor. Fanlight in 2nd floor over entry door, wooden ornamental bargeboards in gables and metal ornamental finials. Windows boarded up. One-story ell to rear.

127-0343-0222                      2C              1913 Third Avenue              1910 ca  
Architectural Summary: Frame 2-story, 3-bay double-pile side passage plan dwelling with 2/2 sash, slate mansard roof conceals shed; has end consoles; dentil cornice with end console blocks and small central dormer, 3-bay one-story porch across front with turned posts, sawn brackets and spindle frieze, inset gutter.  
One-story metal clad frame garage.

127-0343-0223                      4C              1915 Third Avenue              1910  
Architectural Summary: Two-story frame 3-bay double-pile, side-passage plan dwelling with 2/2 sash, single leaf door with transom, projecting south side element, one-story 3-bay porch across front has transom, closed eave cornice and inset gutter. One-story sun room on south.  
One-story corrugated metal clad frame garage.  
One-story board-and-batten frame shed.  
One-story frame chicken house.

Section 7 Page 43

127-0343-0224 1C 2005 Third Avenue 1920 ca

Architectural Summary: Frame 2-story, 2-bay dwelling with watchboard siding, paired 1/1 sash on second floor gable on front with wood shingled infill and Palladian window motif in attic, polygonal bay window on south side, triple window on first floor under porch beside entry door with oval glass panel, sidelights and transom.

127-0343-0225 1C 2007 Third Avenue 1920 ca

Architectural Summary: Frame 2-story 3-bay Foursquare dwelling with stuccoed walls, hipped standing seam metal roof, paired 1/1 sash windows, door to first floor and door to second both on front porch, 1-story 3-bay porch with square piers, closed eave cornice with inset gutters.

127-0343-0226 2C 2009 Third Avenue 1920 ca

Architectural Summary: Frame 2-story 3-bay Foursquare dwelling with stuccoed walls, hipped standing seam metal roof, paired 1/1 sash windows, door to first floor and door to second both on front porch, 1-story 2-bay porch with metal replacement columns, closed eave cornice.

Large, one-story corrugated metal clad frame two-car garage.

127-0343-0227 2C, 1NC (Structure) 2011 Third Avenue 1920 ca

Architectural Summary: Frame 2-story 3-bay Foursquare dwelling with stuccoed walls, hipped standing seam metal roof, paired 6/1 sash windows, door to first floor and door to second both on front porch, 1-story 2-bay porch with metal replacement columns, closed eave cornice.

Frame, one-story garage.

Noncontributing carport (Noncontributing Structure).

127-0343-0228 1C 2101 Third Avenue 1920 ca

Architectural Summary: Frame 2-story 3-bay Foursquare dwelling with stuccoed walls, hipped standing seam metal roof, 1/1 sash windows, 1-story 2-bay porch with fluted columns on brick plinths, closed eave cornice with inset gutters.

127-0343-0229 1C 2103 Third Avenue 1920 ca

Architectural Summary: Frame 2-story 3-bay Foursquare dwelling with stuccoed walls, hipped standing seam metal roof, paired 1/1 sash windows, door to first floor and door to second both on front porch, 1-story 2-bay porch with stuccoed arched openings, closed eave cornice.

127-0343-0230 1C 2105 Third Avenue 1910 ca

Architectural Summary: Frame 2-story, 2-bay double-pile side-passage plan dwelling with 1/1 sash, projecting gable entry pavilion with shallow pediment at roof, polygonal first floor bay under porch

Section 7 Page 44

beside entry with gable at roof above, one-story 2-bay porch with square posts across front with gable over entry bay and turned baluster rail. The house has a closed eave cornice with inset gutter.

127-0343-0231                      1C      2109 Third Avenue                      1910 ca

Architectural Summary: Frame gable-fronted 2-story, 3-bay double-pile side-passage plan dwelling with 2/2 sash, pedimented front, 3-bay 1-story porch across front with turned posts and dentil cornice.

127-0343-0232                      3C      2111 Third Avenue                      1895 ca

Architectural Summary: Frame gable-fronted 2-story, 3-bay double-pile side-passage plan dwelling with diamond shaped light in gable, polygonal 2-story bay on south side, standing seam metal roof with ornamental iron cresting on ridges, open eaves with wood sheathing on underside of rafters. 2-story bay to north side appears added. Entry door with transom sheltered below wide porch with wood columns.

Two one-story vertical board-clad frame sheds ca 1920.

127-0343-0233                      2C      2117 Third Avenue                      1895 ca

Architectural Summary: Large frame double-pile side-passage-form dwelling with steep roof with hipped section on front of high gable and projecting hipped bay offset to south side of entry bay. One-story porch follows form of house and wraps around north side with square posts and sawn brackets. 2-story polygonal bay on north side, closed eave cornice with inset gutter, 1/1 sash. Cornice has applied decorative paterae. One-story corrugated metal clad frame garage.

127-0343-0234                      1C      2201 Third Avenue                      1895 ca

Architectural Summary: Frame gable-fronted 2-story, 3-bay double-pile side-passage plan dwelling with diamond shaped light in gable, polygonal 2-story bay on south side, standing seam metal roof with ornamental iron cresting on ridges, open eaves with wood sheathing on underside of rafters. Projecting polygonal 1-story bay on front, modern 1-story porch at entry and north side. 2-story wing to north side. Entry door with transom sheltered below wide porch with wood columns.

127-0343-0235                      1C      2203 -2205 Third Avenue                      1925 ca

Architectural Summary: Brick 2-story, 6-bay double dwelling with 1st and 2nd floor apartments in each of the section, inset entries with second-floor doors over each, rock-faced stone lintels and sills at 1/1 sash windows and doors, brick panels over second floor openings, topped by corbelled brick cornice, shed parapet roof, segmentally arched 2/2 side windows.

Section 7 Page 45

127-0343-0236 1C 2307 Third Avenue 1910 ca

Architectural Summary: Frame 2-story, 2-bay double-passage single-pile plan dwelling with paired and single 2/2 sash windows, gable over front window bay containing half-circle attic light; porch of 2-bays and 1-story across front with Doric columns and dentil cornice, house has closed eave cornice with inset gutter.

127-0343-0237 1C 2209 Third Avenue 1910 ca

Architectural Summary: Frame 2-story 2-bay double-passage single-pile plan dwelling with 1/1 replacement sash, projecting 2-story polygonal bay undercut below gable supported on sawn console brackets, one-story Doric wraparound porch on front and south side.

127-0343-0238 2C 2211 Third Avenue 1910 ca

Architectural Summary: Frame 2-story 2-bay double-passage single-pile plan dwelling with 6/6 replacement sash, projecting 2-story polygonal bay undercut below gable supported on sawn console brackets, one-story Doric wraparound porch on front and south side. Porch posts replaced. One-story stuccoed frame garage.

127-0343-0239 2C 2213 Third Avenue 1905 ca

Architectural Summary: Frame 1 1/2-story, 3-bay gambrel-roofed shingle-sided dwelling with Colonial Revival and Shingle-style detailing, shouldered partially exterior chimneys offset on the south end, 1/1 sash windows are on first-floor front under porch, where a wide picture window is topped by a transom to the south of the central entry door. The porch, which is under the main roof, has a dentil cornice and Doric columns sitting on a shingled railing. The porch is surrounded by a gambrel roofed element with an inset porch with curves, shingle-lined walls. A rear porch is inset at the southeast corner.

One-story corrugated metal clad frame two-car garage.

127-0343-0240 1NC 2301 Third Avenue 1998 ca

Architectural Summary: Noncontributing concrete block gable-fronted church with inset entry containing a projecting glass vestibule flanked by paired 1/1 sash windows with 4-light transoms, large circular window in gable with diamond shaped window above in apex. Vinyl sided side walls above a concrete block base. Curved rear contains pulpit and choir.

127-0343-0241 1C 2317 Third Avenue 1920 ca

Architectural Summary: Frame 2-story, 2-bay stuccoed Foursquare dwelling with paired and single 6/1 sash slate gabled roof, one-story shed porch across front with single arched stucco opening, triple window under porch, ornamental brackets in eaves.

Section 7 Page 46

127-0343-0242 1C 2319 Third Avenue 1905 ca

Architectural Summary: Frame, 2-story, 3-bay double-pile side-passage plan dwelling with 2/2 sash, with central gable, closed eave cornice and inset gutter, wrap-around one-story porch with turned posts and spindle frieze and gable over entry bay. Projecting 2-story bay on the south side, 2-story rear ell.

127-0343-0243 1C 2401 Third Avenue 1900 ca

Architectural Summary: Frame, 2-story, 3-bay double-pile side-passage plan dwelling with 1/1 sash, with central gable, closed eave cornice and inset gutter, one-story porch with turned posts and sawn brackets and pedimented front. Modillion cornice at top of front. Projecting 2-story bay on the south side, 2-story rear ell.

127-0343-0244 1C 2403 Third Avenue 1920 ca

Architectural Summary: Frame 2-story, 2-bay double dwelling with single paired 1/1 sash, two front doors, one to each floor, one-story, 2-bay porch across front with Doric columns, central hipped dormer on front, stuccoed walls.

127-0343-0245 1C 2405 Third Avenue 1920 ca

Architectural Summary: Brick, 2-story, 2-bay Foursquare dwelling with paired 1/1 sash windows, one-story, 2-bay porch with arched stucco openings on tapered brick plinths, ornamental railing.

127-0343-0246 2C 2407 Third Avenue 1920 ca

Architectural Summary: Brick, 2-story, 2-bay Foursquare dwelling with paired 1/1 sash windows, one-story, 2-bay porch with arched stucco openings on tapered brick plinths, ornamental railing. One-story corrugated metal clad frame garage.

127-0343-0247 2C 2409 Third Avenue 1920 ca

Architectural Summary: Brick, 2-story, 4-bay dwelling with 1/1 sash windows, hipped asphalt shingle roof, one-story, 1-bay stucco porch with Doric columns across front, rafter end exposed at open eaves.

One-story corrugated metal clad frame shed.

127-0343-0248 2C 2413 Third Avenue 1910 ca

Architectural Summary: Brick, 2-story, 4-bay dwelling with sash windows, hipped standing seam metal roof with central hipped dormer, one-story, 2-bay porch with Doric columns across front, closed eave cornice with inset gutter.

One-story metal clad frame garage.

Section 7 Page 47

127-0343-0249                      2C      2501 Third Avenue                      1920   ca

Architectural Summary: Frame 2-story, 3-bay stuccoed Foursquare dwelling with hipped standing seam metal roof, hipped central dormer with paired casements, 9/1 sash windows, paired window on first floor front, sheltered by 2-bay 1-story porch with Doric columns across front. Closed eave cornice with inset gutters.

One-story stuccoed frame garage.

127-0343-0250                      1C      2503 Third Avenue                      1920   ca

Architectural Summary: Frame 2-story, 3-bay stuccoed Foursquare dwelling with hipped standing seam metal roof, hipped central dormer with paired casements, triple first floor sash windows, paired window on first floor front, sheltered by 2-bay 1-story porch with stucco arched opening across front. Closed eave cornice with inset gutters.

127-0343-0251                      2C      2505 Third Avenue                      1920   ca

Architectural Summary: Frame 2-story, 3-bay stuccoed Foursquare dwelling with hipped asphalt shingle roof, hipped central dormer with paired casements, 9/1 sash windows, paired window on first floor front, sheltered by 2-bay 1-story porch with Doric columns across front. Closed eave cornice. One-story metal clad frame garage.

127-0343-0252                      1C      2509 Third Avenue                      1920   ca

Architectural Summary: Frame 2-story, 3-bay stuccoed Foursquare dwelling with hipped pressed-shingle roof, gabled central dormer with paired casements, 9/1 sash windows, paired window on first floor front, sheltered by 2-bay 1-story deep porch with hipped roof and tapered paneled square columns across front. Open eaves with exposed rafter ends.

127-0343-0253                      1C, 1NC      2511 Third Avenue                      1920   ca

Architectural Summary: Frame 2-story, 3-bay stuccoed Foursquare dwelling with gabled roof with exposed decorative rafter ends, end brackets in gables, gabled central dormer with splayed side and paired casements, 1/1 sash windows, paired window on first floor front, sheltered by 2-bay 1-story shed porch with paneled square columns across front. Open eaves with exposed rafter ends.

Noncontributing concrete block shed ca. 1960 to rear.

127-0343-0254                      1C      2513 Third Avenue                      1920   ca

Architectural Summary: Frame 2-story, 3-bay stuccoed Foursquare dwelling with hipped asphalt shingle roof, gabled central dormer with paired casements, 9/1 sash windows, paired window on first floor front, sheltered by 2-bay 1-story deep porch with hipped roof and tapered paneled square columns across front. Open eaves with exposed rafter ends.

Section 7 Page 48

127-0343-0255 1C 2515 Third Avenue 1920 ca

Architectural Summary: Frame 2-story, 3-bay stuccoed Foursquare dwelling with gabled roof with exposed decorative rafter ends, end brackets in gables, gabled central dormer with splayed side and paired casements, 9/1 sash windows, paired window on first floor front, sheltered by 2-bay 1-story shed porch with paneled square columns across front. Open eaves with exposed rafter ends.

127-0343-0256 3C 2517 Third Avenue 1920 ca

Architectural Summary: Frame 2-story, 3-bay stuccoed Foursquare dwelling with gabled roof with exposed decorative rafter ends, end brackets in gables, shallow unusual pent roof of slate across front with bracketed hipped hood over entry door, side porch on north, gabled central dormer with splayed side and paired casements, 9/1 sash windows, paired window on first floor front, sheltered by 2-bay 1-story shed porch with paneled square columns across front. Open eaves with exposed rafter ends. Two one-story corrugated metal clad frame garages.

127-0343-0257 1C 2601 Third Avenue 1920 ca

Architectural Summary: Frame 2-story, 3-bay stuccoed Foursquare dwelling with hipped standing seam metal roof, 9/1 sash, 1-story 2-bay porch with stuccoed arched openings. Closed eave cornice with inset gutter.

127-0343-0258 1C 2603 Third Avenue 1920 ca

Architectural Summary: Frame 2-story, 3-bay stuccoed Foursquare dwelling with hipped standing seam metal roof, paired 9/1 sash window, hipped central dormer, 1-story 2-bay porch with stuccoed arched openings. Closed eave cornice with inset gutter.

127-0343-0259 1C 2605 Third Avenue 1920 ca

Architectural Summary: Frame 2-story, 3-bay stuccoed Foursquare dwelling with hipped standing seam metal roof, paired 9/1 sash window, hipped central dormer, 1-story 2-bay porch with metal replacement posts. Closed eave cornice with inset gutter.

127-0343-0260 1C, 1NC 2607 Third Avenue 1920 ca

Architectural Summary: Frame 2-story, 3-bay stuccoed Foursquare dwelling with hipped standing seam metal roof, paired 9/1 sash window, hipped central dormer, 1-story 2-bay porch with stuccoed arched openings. Closed eave cornice with inset gutter.

Noncontributing altered one-story concrete block garage.

City of Richmond, Virginia

Section 7 Page 49

127-0343-0261 1C, 1NC 2609 Third Avenue 1920 ca

Architectural Summary: Frame 2-story, 3-bay stuccoed Foursquare dwelling with hipped standing seam metal roof, paired 9/1 sash window, hipped central dormer, 1-story 2-bay porch with stuccoed arched openings. Closed eave cornice with inset gutter.

Noncontributing one-story concrete block garage ca 1970 to rear.

127-0343-0262 1C 2615 -2617 Third Avenue 1920 ca

Architectural Summary: Brick, 2-story, 4-bay duplex dwelling with 2-bay units, 3/1 sash windows, one-story one-bay hip-roofed porches for each unit with fluted square columns, steep mansard roof with slate covering, divided at center by brick fire wall and center chimney.

127-0343-0263 1C 2619 -2621 Third Avenue 1920 ca

Architectural Summary: Brick, 2-story, 4-bay duplex dwelling with 2-bay units, 3/1 sash windows, one-story one-bay hip-roofed porches for each unit with Doric columns, steep mansard roof with slate covering, divided at center by brick fire wall and center chimney.

127-0343-0264 1C 2623 -2625 Third Avenue 1920 ca

Architectural Summary: Brick, 2-story, 4-bay duplex dwelling with 2-bay units, 3/1 sash windows, one-story one-bay hip-roofed porches for each unit with fluted square columns, steep mansard roof with slate covering, divided at center by brick fire wall and center chimney.

127-0343-0265 1NC 2701 Third Avenue 1960 ca

Architectural Summary: Non-contributing, one-story, brick duplex dwelling with shallow asphalt shingle gable roof with 2/2 metal sash windows, and metal awnings over the single-leaf entries.

127-0343-0266 1C 2705 Third Avenue 1910 ca

Architectural Summary: Frame 2-story, 2-bay dwelling with paired 1/1 replacement sash, entry door with sidelights and transom, surrounded by a small off-center gable, one-story wrap-around porch with metal replacement columns.

127-0343-0267 1C 2707 Third Avenue 1920 ca

Architectural Summary: Brick, 2-story, 2-bay Foursquare dwelling with single 4/1 sash, soldier course headers, central gable on principal front, entry with sidelights with arched heads, triple window beside door, 1-story 2-bay porch has single Doric column, slate roof, paired brackets on main cornice with inset gutters.

Section 7 Page 50

127-0343-0268 1C 2711 -2713 Third Avenue 1925 ca

Architectural Summary: Brick 2-story 6-bay double dwelling containing two apartments in each unit, shed parapet roof, 1/1 sash, door into 1st and 2nd floor apartments inset in inner bays of each unit with door to second floor balcony above, porch across front has Doric columns.

127-0343-0269 1C 2715 Third Avenue 1920 ca

Architectural Summary: Large brick 2-story 3-bay Foursquare dwelling with paired and single 6/1 sash, one-story 3-bay Doric porch across front, standing seam metal hipped roof with central dormer, and closed eave cornice with inset gutter.

127-0343-0270 2C 2717 Third Avenue 1920 ca

Architectural Summary: Frame 2-story, 4-bay Foursquare dwelling with 4 single 9/1 sash windows (2nd floor), and a triple sash on 1st floor beside the entry bay with sidelights and transom, large central pedimented dormer with triple casements, polygonal 2-story bay on north side undercut below gable roof. One-story wrap-around porch has paired paneled, tapered wood square columns on rock-faced concrete block plinths and ornamental wood rail with oval openings.  
One-story corrugated metal clad frame garage.

127-0343-0271 3C, 1NC 2801 Third Avenue 1915 ca

Architectural Summary: Reddish brown brick 2-story 2-bay Foursquare dwelling with deep modillion block cornice, replaced 1/1 sash windows, central dormer with roof broken in the center below it with returned modillion cornice and diamond casement window. One-story 2-bay porch across front has modillion cornice also, with gable offset above the entry bay. Projecting bay of 1 story on the south side, turned baluster rail on porch.

Fine one-story frame garage with details to match the house.

One-story frame shed shared with house next door.

Noncontributing frame shed.

127-0343-0272 2C 2803 Third Avenue 1915 ca

Architectural Summary: Brick 2-story 3-bay Foursquare dwelling with 1/1 sash, carved modillion cornice, gable offset over bay and on south side, porch of 1 story and three bays across front is supported by fluted Doric columns, a central pediment and modillion cornice are also part of the porch.

One-story matchboard covered frame shed.

Section 7 Page 51

127-0343-0273                      3C      2805 Third Avenue                      1915 ca

Architectural Summary: Frame stuccoed dwelling with paired and triple 1/1 sash windows, central gable with palladian motif in center as attic window. Slate hipped roof, one-story 3-bay porch across front with fluted square columns, modillion cornice and a central pediment.

One-story corrugated metal clad frame garage.

One-story two-bay weatherboarded frame outbuilding.

127-0343-0274                      2C      2807 Third Avenue                      1915 ca

Architectural Summary: Brick 2-story 3-bay Foursquare dwelling with 1/1 sash, carved modillion cornice, gable offset over bay and on south side, porch of 1 story and three bays across front is supported by fluted Doric columns, a central pediment and modillion cornice are also part of the porch.

One-story corrugated metal clad frame garage.

127-0343-0275                      1C      2809 Third Avenue                      1915 ca

Architectural Summary: Brick 2-story 4-bay Foursquare dwelling with steep side gable roof with central gable, 1/1 sash, carved modillion cornice, a central brick panel in 2nd floor, gable offset over bay and on south side, porch of 1 story and three bays across front is supported by fluted Doric columns, a central pediment and modillion cornice are also part of the porch.

127-0343-0276                      1C      2811 Third Avenue                      1920 ca

Architectural Summary: Frame 2-story 2-bay Foursquare dwelling with single and triple 1/1 sash, door with glass panel and sidelights, central hipped dormer and one-story porch with fluted square columns and turned baluster railing that wraps around the north side.

127-0343-0277                      2C      2815 Third Avenue                      1920 ca

Architectural Summary: Frame 2-story 2-bay Foursquare dwelling with single, paired and triple 1/1 sash, door with glass panel and sidelights, asphalt shingle hipped roof, central hipped dormer and one-story, 2-bay porch across front with square columns and turned baluster railing that wraps around the north side.

One-story corrugated metal clad frame garage.

127-0343-0278                      1C      2901 Third Avenue                      1910 ca

Architectural Summary: Frame 2-story, 3-bay Queen Anne style dwelling with boarded up windows and boarded up door set in inset elliptically arched openings, offset projecting bay above on 2nd floor, paneled frieze closed eave/cornice with inset gutter, one-story porch across front has Doric columns, wraps around north side, projecting to north at rear, polygonal 2-story bay on south side.

Section 7 Page 52

127-0343-0279                      1NC, 1C      2903 Third Avenue                      1970   ca  
Architectural Summary: Non-contributing frame one-story 3-bay tract house with metal 2/2 sash, triple pictured window on front.  
One-story corrugated metal clad frame garage ca. 1920.

127-0343-0280                      1C      2905 Third Avenue                      1940   ca  
Architectural Summary: Frame 2-story, 2-bay multiple dwelling with 1st and 2nd floor apartments, 2-story porch on north side with plain Doric columns on brick plinths with turned baluster rail, 2/2 sash, and hipped asphalt shingle roof, and closed eave cornice.

127-0343-0281                      1C      2909 Third Avenue                      1915   ca  
Architectural Summary: Frame 2-story 2-bay Foursquare dwelling with 4 1/1 sash on 2nd floor and one paired 1/1 sash beside door by 1st floor. 2-story slightly projecting bay on north end contains interior chimney, wide projecting wing to rear on north. 1-story 2-bay porch supported on fluted Doric columns on brick plinths and with turned baluster rail. 2-story shallow projecting bay on south.

127-0343-0282                      1C, 1NC      2911 Third Avenue                      1940   ca  
Architectural Summary: Frame 2-story, 2-bay multiple dwelling with 1st and 2nd floor apartments, 2-story porch on north side, 2/2 sash, and hipped asphalt shingle roof, and closed eave cornice.  
Noncontributing one-story frame shed ca. 1970.

127-0343-0283                      1C      2915 Third Avenue                      1910   ca  
Architectural Summary: Large frame 4-bay 2-story Colonial Revival dwelling with 1/1 sash, central gable with Palladian motif lighting the attic, smaller gables on sides, long 1-story porch with fluted Doric columns and turned baluster railings wraps around both sides of the house, dentil cornice on house and on porch with inset gutters.

127-0343-0284                      1NC      1401 Brookland Park Blvd.                      1960   ca  
Architectural Summary: Noncontributing, one-story, enamel-panel covered, concrete block service station with three service bays.

127-0343-0285                      1C      2924 Fourth Avenue                      1915  
Architectural Summary: A brick 2-story three-bay commercial building with corner entry; shed roof surrounded by a parapet with a steep slate roof on front incorporating a decorative front gable with molded box cornice and stepped end walls. 2/2 sash windows with rock face lintels and sills, rock faced quoins, pilasters along Brook and Park Boulevard side to north. Ornate Colonial Revival door to rear on north side leads to second floor lodge room.

Section 7 Page 53

127-0343-0286                      1C      2916 Fourth Avenue                      1920    ca

Architectural Summary: Frame 2-story, 3-bay American Foursquare dwelling with paired and single 9/1 sash, door in north bay with sidelights and transom, hipped roof with central hipped dormer, 1-story, 2-bay porch with square stucco posts, shallow arched openings, and square wood railings. Closed eave cornice with built-in gutter.

127-0343-0287                      1C      2914 Fourth Avenue                      1920    ca

Architectural Summary: Frame 2-story, 3-bay American Foursquare dwelling with paired and single 9/1 sash, door in north bay with sidelights and transom, hipped roof with central hipped dormer, 1-story, 2-bay porch with square stucco posts, shallow arched openings, and square wood railings. Open eaves with exposed rafter ends.

127-0343-0288                      1C      2912 Fourth Avenue                      1920    ca

Architectural Summary: Frame 2-story, 3-bay American Foursquare dwelling with single 6/6 sash, Colonial Revival door surround, molded modillion cornice.

127-0343-0289                      1C      2910 Fourth Avenue                      1920    ca

Architectural Summary: Frame 2-story, 3-bay American Foursquare dwelling with paired and triple 1/1 sash, 1-story, 2-bay porch with Doric Columns and pediment at entry bay, shallow arched openings, and square wood railings. Closed eave cornice with built-in gutter.

127-0343-0290                      1C      2908 Fourth Avenue                      1920    ca

Architectural Summary: Frame 2-story, 3-bay American Foursquare dwelling with triple and single 1/1 sash, door with sidelights and transom, hipped roof with central hipped dormer with classical pilasters and pediments, 1-story, 2-bay porch with dentil mold cornice and paired doric Columns on brick plinths and turned baluster railing. Closed eave cornice with built-in gutter.

127-0343-0291                      2C      2906 Fourth Avenue                      1920    ca

Architectural Summary: Frame 2-story, 3-bay American Foursquare dwelling with paired and single multi pane/1 sash, door with sidelights and transom, hipped roof with gable over entry instead of usual central dormer, continuous half circular window, 1-story, wraparound porch with Ionic Columns and dentil cornice.

Small one-story frame weatherboard shed roofed outbuilding located to rear of house in alley.

Section 7 Page 54

127-0343-0292                      2C      2902 Fourth Avenue                      1920    ca

Architectural Summary: A three-bay, one-story brick Bungalow with pressed brick running bond walls, 1/1 sash windows with rock faced stone sills and lintels, wide front window with small upper sash with small diamond panes over fixed lower sash; shed dormer across front of wood shingled gambrel roof; one-story porch across the front under the main roof with Doric Columns on brick plinths and turned baluster railings.

One-story gable-roofed corrugated metal clad frame garage built ca. 1920 located to rear of dwelling in alley.

127-0343-0293                      3C      2900 Fourth Avenue                      1925    ca

Architectural Summary: A Brick 2-story, 2-bay American Foursquare dwelling with 9/1 sash windows, gabled 2-story pavilion on front contains triple first-floor window and returned cornice, dormers on sides, 7-course American bond walls with soldier course string course at second floor level, one-story, two-bay porch with Doric Columns, dentil cornice and pediment and gabled bay on south side.

A ca. 1920 shed-roofed metal clad frame garage located in the rear of the lot in an alley.

A ca. 1920 gable roofed metal clad frame garage located to the rear of the lot in an alley.

127-0343-0294                      1C, 2NC      2818 Fourth Avenue                      1910    ca

Architectural Summary: A frame 2-story, 3-bay double-pile dwelling with replaced 6/6 sash, hipped roof with central dormer, two doors on front, one to second floor and one to first floor.

Two noncontributing ca. 1990 frame sheds with gable asphalt shingle roofs, vinyl siding located to rear of lot in alley.

127-0343-0295                      2C      2816 Fourth Avenue                      1925    ca

Architectural Summary: A brick 2-story, 3-bay American Foursquare dwelling with Colonial Revival-style details including glazed header flemish bond front facade, single and triple 9/1 sash windows, hipped slate roof with exposed decorative rafter ends, one-story, two-bay porch with fluted Doric columns and modillion cornice.

One ca. 1920 gable-roofed frame one-story corrugated metal clad garage.

127-0343-0296                      1C      2814 Fourth Avenue                      1920    ca

Architectural Summary: A concrete block two-story, two-bay American Foursquare dwelling with rock-faced concrete block walls, hipped asphalt shingle roof with central gable on each front, 1/1 sash windows, one-story, two-bay porch with fluted Doric columns on brick plinths, pediment at entry bay.

Section 7 Page 55

127-0343-0297 1C 2812 Fourth Avenue 1920 ca

Architectural Summary: A frame two-story, three-bay American Foursquare double apartment dwelling with hipped standing seam metal roof with central dormer with diamond panel casement windows. Double-hung 1/1 sash windows, double door to the two floors, one-story, two-bay porch with Doric columns, second floor balcony, covered blinds, gabled bay on south side.

127-0343-0298 1C 2808 Fourth Avenue 1920 ca

Architectural Summary: A brick 2-story, 2-bay American Foursquare dwelling with 1/1 sash windows with rock-faced stone lintels and sills, picture window (fixed) with multipanel transom, one-story wraparound Doric porch with turned baluster rail.

127-0343-0299 1C ---- Fourth Avenue 1915 ca

Architectural Summary: Frame one-story, three-bay hip roofed Bungalow with inset central entry protected by Doric porch with paired columns and curved ceiling, flanked by projecting bays containing fixed picture windows with multi-paned transoms, also on sides. Bays are supported on sawn brackets; 2/2 sash elsewhere.

127-0343-0300 1NC 2802 Fourth Avenue 1965 ca

Architectural Summary: Noncontributing 1-story frame 3-bay tract house w/ pair. and sing 1/1 sash.

127-0343-0301 2C 2800 Fourth Avenue 1920 ca

Architectural Summary: Frame two-story, two-bay frame dwelling with single and triple 1/1 sash, single leaf door with sidelights and transom, one-story, three-bay porch with Doric columns and pediment over entry bay; hipped roof with central hipped dormer, and slate shingle roof.  
One-story frame corrugated metal clad gable roofed garage located to the rear of the lot in the alley.

127-0343-0302 2C 2716 Fourth Avenue 1920 ca

Architectural Summary: Frame two-story, two-bay American Foursquare dwelling with clipped gable slate roof, paired 9/1 sash windows, decorative brackets and exposed rafter ends, clipped gable dormer in centers, one-story, one-bay porch with stucco arched opening and tapered birch piers.  
One-story frame corrugated metal clad gable roofed garage located to the rear of the lot in the alley.

127-0343-0303 2C 2714 Fourth Avenue 1920 ca

Architectural Summary: Frame two-story, two-bay American Foursquare dwelling with hipped slate roof, paired 9/1 sash windows, one-story, one-bay porch with stucco piers.  
One-story frame corrugated metal clad gable roofed garage located to the rear of the lot in the alley.

Section 7 Page 56

127-0343-0304                      2C      2712 Fourth Avenue                      1920   ca

Architectural Summary: Frame two-story, two-bay American Foursquare dwelling with hipped slate roof, paired 9/1 sash windows, one-story, one-bay porch with stucco piers.

One-story frame corrugated metal clad gable roofed garage located to the rear of the lot in the alley.

127-0343-0305                      1C      2706 Fourth Avenue                      1920   ca

Architectural Summary: Frame two-story, four-bay American Foursquare dwelling with hipped slate roof, paired and single 9/1 sash windows, one-story, one-bay hip roofed porch at entry on carved brackets. One-story, one-bay side porch on south.

127-0343-0306                      1C      2618 Fourth Avenue                      1895   ca

Architectural Summary: Frame two-story, three-bay gable fronted hip-roofed double-pile side passage dwelling with 2/2 sash, one-story wraparound porch with turned posts, sawn brackets, spindle frieze, interior side brick chimney with elaborate corbelled tops, small window with pediment in gable front.

127-0343-0307                      1C      2614 Fourth Avenue                      1920   ca

Architectural Summary: Frame two-story, three-bay American Foursquare dwelling with a standing seam metal hipped roof with central gabled dormer containing a palladian window element.

127-0343-0308                      1C      2610 Fourth Avenue                      1900   ca

Architectural Summary: Frame two-story, three-bay gable fronted hip-roofed double-pile side passage dwelling with double leaf door with transom sheathed under 4-bay, 1-story porch across front with Doric Columns. Projecting hip section on north side; gable sided with ornamental wood shingles; 2/2 sash windows.

127-0343-0309                      1C      2606 Fourth Avenue                      1920   ca

Architectural Summary: Frame two-story, three-bay American Foursquare dwelling with paired 9/1 sash, standing seam metal roof with hipped central dormer; 2-bay, 1-story porch across front with arched stucco opening.

127-0343-0310                      1C      2604 Fourth Avenue                      1920   ca

Architectural Summary: Frame two-story, three-bay American Foursquare dwelling with paired 9/1 sash, standing seam metal roof with hipped central dormer; 2-bay, 1-story porch across front with arched stucco opening. Aluminum siding added to cornice.

Section 7 Page 57

127-0343-0311                      2C      2602 Fourth Avenue                      1920   ca

Architectural Summary: Frame two-story, three-bay American Foursquare dwelling with single and paired 9/1 sash, standing seam metal roof with hipped central dormer; 2-bay, 1-story porch across front with arched stucco opening. Aluminum siding added to cornice.

One-story frame corrugated metal clad gable-roofed garage.

127-0343-0312                      2C      2516 Fourth Avenue                      1910   ca

Architectural Summary: Frame two-story, two-bay gable fronted double-pile side-passage plan dwelling with single and paired 2/2 sash windows; slate roof, transom at first floor window and door; palladian window with gable; wide gable section extends to north; one-story wraparound porch with fluted Doric columns, turned baluster rail, and pediment over entry bay.

One-story frame corrugated metal clad gable-roofed garage.

127-0343-0313                      1C      2514 Fourth Avenue                      1920   ca

Architectural Summary: Frame two-story, two-bay stuccoed American Foursquare dwelling with standing seam metal gable roof; paired and single 6/1 sash windows; exposed ornamental brackets and decorative rafter ends; one-story, two-bay shed porch.

127-0343-0314                      2C (1 C Structure)      2512 Fourth Avenue                      1920   ca

Architectural Summary: Frame two-story, two-bay stuccoed American Foursquare dwelling with standing seam metal gable roof; paired and single 6/1 sash windows; exposed ornamental brackets and decorative rafter ends; one-story, two-bay porch with Doric columns.

Stone fireplace is contributing structure; built of river rock in about 1945. It is located at rear of lot in alley.

127-0343-0315                      2C      2510 Fourth Avenue                      1920   ca

Architectural Summary: Frame two-story, two-bay stuccoed American Foursquare dwelling with standing seam metal gable roof; paired and single 6/1 sash windows; exposed ornamental brackets and decorative rafter ends; one-story, two-bay shed porch.

One-story, frame gable-roofed, corrugated metal clad garage.

127-0343-0316                      1C      2504 Fourth Avenue                      1920   ca

Architectural Summary: Frame two-story, two-bay stuccoed American Foursquare dwelling with clipped gable roof; paired and single 6/1 sash windows; exposed ornamental brackets and decorative rafter ends; one-story, two-bay porch.

Section 7 Page 58

127-0343-0317                      2C      2502 Fourth Avenue                      1895    ca

Architectural Summary: Frame two-story, three-bay weatherboarded double-pile side-passage plan dwelling with 2/2 sash windows (floor length on first floor); hipped standing seam metal roof; and one-story, three-bay Doric porch across front.

Frame, one-story, gable-roofed corrugated metal clad garage located to rear of lot in alley.

127-0343-0318                      2C      2416 Fourth Avenue                      1895    ca

Architectural Summary: Frame two-story dwelling of complex plan; with projecting gabled front flanked by a three-stage tower/vestibule with diamond windows at top and pierced cornice with modillions resembling a dovecote, and pyramidal roof. Under two-story bays on front at northside 2/2 sash windows and open cornice with covered rafter ends; one-story unit on north side may be early addition. One-story wrap-around porch with turned posts and pierced frieze board; two-story polygonal bay on south side.

Frame, one-story, gable-roofed corrugated metal clad garage located to rear of lot in alley.

127-0343-0319                      1C      2414 Fourth Avenue                      1920    ca

Architectural Summary: Frame two-story, two-bay duplex apartment building with American Foursquare form; 2/2 sash, hipped slate roof with central dormer, rock-faced concrete block foundation, and one-story, three-bay porch across front with replaced posts and rail.

127-0343-0320                      1C      2410 Fourth Avenue                      1905    ca

Architectural Summary: Frame two-story, three-bay double-pile side-passage-plan dwelling with 2/2 sash, gable front roof, one story porch with tapered posts and sawn brackets that wrap around both south and north sides.

127-0343-0321                      1NC    2406 Fourth Avenue                      1960    ca

Architectural Summary: Non-contributing two-story brick (first floor) and frame (second floor) gabled dwelling with 2/2 horizontal sash.

127-0343-0322                      1C, 1NC    2402 Fourth Avenue                      1910    ca

Architectural Summary: Frame two-story, four-bay dwelling with Colonial Revival details, hipped slate roof with front gable offset over entry and containing Palladian motif, 1/1 sash, one-story porch across front with large tinted Ionic columns; oval window on north side.

Non-contributing one-story frame garage located to the rear.

Section 7 Page 59

127-0343-0323 1C 2318 Fourth Avenue 1910 ca

Architectural Summary: Brick two-story, two-bay Classical Revival building with paired and single 1/1 sash with rock faced stone lintels and sills, modillion cornices, paneled parapet, pressed brick facade in running bond, 7-course common brick elsewhere. Altered first floor storefront with paneled corner posts and molded cornice; projecting section on south side.

127-0343-0324 1C 2314 Fourth Avenue 1920 ca

Architectural Summary: Frame two-story, three-bay American Foursquare dwelling with paired 9/1 sash, standing seam metal roof with hipped central dormer; 2-bay, 1-story porch across front with arched stucco opening.

127-0343-0325 1NC 2310 Fourth Avenue 1970 ca

Architectural Summary: Non-contributing frame one-story gable-fronted dwelling with one-bay porch offset, 2/2 (horizontal) sash windows and centered door.

127-0343-0326 1NC 2308 Fourth Avenue 1970 ca

Architectural Summary: Non-contributing frame one-story gable-fronted dwelling with one-bay porch offset, 2/2 (horizontal) sash windows and centered door.

127-0343-0327 1C 2304 Fourth Avenue 1920 ca

Architectural Summary: Frame one-and-one-half-story, Bungalow with gambrel roof with shed dormer at front containing four linked 9/1 sash; undercut two-bay porch with paired Ionic columns with paterae over each in the friezes and standing on concrete block plinths, 9/1 sash.

127-0343-0328 1C 2302 Fourth Avenue 1920 ca

Architectural Summary: Frame one-story, Bungalow with weatherboard siding; 6/1 paired sash windows, central gabled dormer with paired casements, decorative brackets in the gables, exposed rafter ends, two-bay porch across the front with tapered wood columns on brick plinths.

127-0343-0329 1C 2300 Fourth Avenue 1895 ca

Architectural Summary: Frame two-story, two-bay two-room gable roofed dwelling; central chimney, 1/1 sash, double leaf entry with transom to east end, two-story projecting bay with conical roof, one-story porch with turned posts and opposite frieze wraparound south side and front, gable and two-story bay on south side, small gable over entry bay containing sawn ornament.

Section 7 Page 60

127-0343-0330 2C 2216 Fourth Avenue 1910 ca

Architectural Summary: Vernacular frame two-story, three-bay double pile side passage plan dwelling with added asbestos brick-patterned siding, 1/1 sash, hipped slate roof with gables centered on front and sides, closed eave cornice with inset gutter, one-story wraparound porch with Doric columns and plain railing. Two-story rear ell with two-story porch on the north side. One-story concrete block and frame corrugated metal covered garage to rear.

127-0343-0331 1C 2214 Fourth Avenue 1910 ca

Architectural Summary: Frame two-story, three-bay gable fronted side-passage plan dwelling with pedimented front gable, 1/1 sash, one-story, two-bay porch with Ionic columns on paneled wood pedestals and turned railing, shallow projecting bay on north side, triple window in attic.

127-0343-0332 1C 2210 Fourth Avenue 1910 ca

Architectural Summary: Frame weatherboarded two-story, two-bay double-pile side-passage plan dwelling with paired and single 1/1 replacement sash windows, double leaf door with glass panels and transom, wood posts and dentil cornices, central gable on front with added louvers in vent along two-story ell to rear.

127-0343-0333 1C 2206 Fourth Avenue 1910 ca

Architectural Summary: Vernacular frame weatherboarded two-story, two-bay gable fronted double-pile side-passage plan dwelling with asbestos shingle siding, 1/1 sash, two-story polygonal bay on pediment in gable with half round windows lighting the attic, and one-story, two-bay porch across porch with Doric Columns.

127-0343-0334 2C 2202 Fourth Avenue 1910 ca

Architectural Summary: Vernacular frame weatherboarded two-story, three-bay double pile, side-passage-plan dwelling with 1/1 sash windows, wooden door with original transom above in advanced gabled portion to south side; 1-story front facade, decorative front porch of one-story and three-bays across front has turned posts and spindle frieze. 1-story frame metal clad garage gabled ca 1940.

127-0343-0335 2C 2200 Fourth Avenue 1920 ca

Architectural Summary: Brick two-story, two-bay American Foursquare dwelling with sidelights and transom at entry, paired 6/1 sash windows on second floor, triple windows with elliptical fanlight over on first; protected by one-story, two-bay porch across front with large tapered brick piers supporting shallow stucco arches. Closed eave cornice with built in gutters. One-story, brick, garage to rear.

127-0343-0343 1NC 2016 Fourth Avenue 1965 ca

Architectural Summary: Non-contributing two-story concrete block multiple dwelling with flat roof.

127-0343-0344 1C 2014 Fourth Avenue 1905 ca

Architectural Summary: Frame two-and-one-half-story, two-bay double-pile side-passage plan dwelling with mansard roof with shed-roofed dormers.

127-0343-0345 1C 2012 Fourth Avenue 1910 ca

Architectural Summary: Two-story frame three-bay double-pile side-passage plan dwelling with boarded up windows and doors, hipped standing seam metal roof with small hipped dormer on front and sides, long modillion blocks on cornice with inset gutter, one-story porch with square fluted columns and turned baluster rail around south side to enclosed section.

127-0343-0346 2C 2006 Fourth Avenue 1920 ca

Architectural Summary: Frame two-story, two-bay American Foursquare dwelling with paired 6/1 sash on second floor and triple on first floor; sheltered by one-story, two-bay porch across front with tapered, paneled post on brick plinths, exposed rafter-ends on slate gable roof.

Corrugated metal clad frame 1-story garage built ca. 1920.

127-0343-0347 1C 2000 Fourth Avenue 1895 ca

Architectural Summary: Vernacular frame two-story, two-bay stuccoed double-pile side passage plan dwelling with gable front roof with gable filled with ornamental wood shingles, single and paired 1/1 sash windows, projecting bay on south side with polygonal first floor bay under square 2nd floor.

127-0343-0348 2C 1914 Fourth Avenue 1920 ca

Architectural Summary: Two-story, three-bay frame hip-roofed multiple dwelling with hipped slate roof, 2-story, 3-bay porch with Doric columns, paired single 1/1 sash windows, 2-story porch on rear. Stuccoed one-story frame gabled standing seam metal roof garage built ca. 1920 located to rear.

127-0343-0349 1C 1910 Fourth Avenue 1905 ca

Architectural Summary: Large frame two-story hip-roofed Queen Anne style dwelling with paired and single 1/1 sash windows, double entry door with transom, and projecting gabled element at both ends of front with elaborate turned ornament and wood shingles in gable slate roof with colored ornament, polygonal bay with conical roof on second floor over entry and one-story porch wrapping around front and sides into turned posts, sawn brackets and lattice frieze. The roof rises to form a

Section 7 Page 63

higher hip toward the rear, with projecting bays on either side, a small polygonal sun porch opens to the south of the main porch, a projecting porch gable over the entry bay contains a sawed sunburst.

127-0343-0350                      2C      1908 Fourth Avenue                      1920    ca

Architectural Summary: Frame two-story, two-bay American Foursquare dwelling with paired 6/1 sash on second floor and triple on first floor; sheltered by one-story, two-bay porch across front with tapered, paneled post on brick plinths, exposed rafter-ends on slate gable roof.  
Corrugated metal clad frame 1-story garage built ca. 1920.

127-0343-0351                      1C      1906 Fourth Avenue                      1900    ca

Architectural Summary: Frame two-story, three-bay double-pile side-passage plan dwelling with modillion block cornice, arch-headed window in gable, gables on sides, and one-story, two-bay porch across front with Doric columns on wood pedestals and turned baluster railing.

127-0343-0352                      1NC    1900 Fourth Avenue                      1960    ca

Architectural Summary: Non-contributing two-story stuccoed masonry multiple dwelling with stuccoed walls, 1/1 metal sash windows, aluminum siding filled gable.

127-0343-0353                      1C, 1NC    1810 Fourth Avenue                      1910    ca

Architectural Summary: Frame two-story, three-bay gable-fronted dwelling with projecting entry bay with gable that intersects with one side of main gable, 1/1 sash, gables on sides, rear porch at NW corner, and one-story wraparound porch with Doric columns and turned baluster railing.  
Non-contributing one-story frame weatherboarded gable roofed shed.

127-0343-0354                      1C      1808 Fourth Avenue                      1895    ca

Architectural Summary: Frame two-story, two-bay gable-fronted dwelling with weatherboard walls, 1/1 sash with multi-paned edging in colored glass in upper sashes, dentil cornices over each window, inset single leaf door, pressed metal shingles in gable, projecting polygonal bay offset to north of front beside entry has conical roof projecting above main gable, and one-story porch wraps around bay and north side with turned posts and latticed frieze; cross-wing on rear projects to each side.

127-0343-0355                      1NC    1806 Fourth Avenue                      1970    ca

Architectural Summary: Non-contributing one-story, gable-fronted frame dwelling with asphalt shingle roof and aluminum siding.

Architectural Summary: Frame two-story, two-bay double-pile side-passage plan dwelling with 1/1 sash, shallow side gable roof with gabled projecting polygonal bay offset to south end of east facade, cornice on front highly ornamental with sawn dentil mold and sawn brackets at polygonal bay; one-story porch with sawn brackets, spindle frieze, and turned posts wraps around the bay.

127-0343-0357                      2NC    1802 Fourth Avenue                      1955    ca

Architectural Summary: Non-contributing one-story, brick house with 8/8 double and single sash, small one-bay porch at entry with metal supports.

Non-contributing frame shed to rear of lot.

127-0343-0358                      2NC    1800 Fourth Avenue                      1970    ca

Architectural Summary: Non-contributing one-story, brick house with paired and single 6/6 sash, gabled asphalt shingle roof and small one-bay porch with turned posts at entry.

Non-contributing frame shed built ca. 1970.

127-0343-0359                      1C      1714 Fourth Avenue                      1905    ca

Architectural Summary: Vernacular frame two-story, three-bay double-pile side-passage plan dwelling with boarded up windows, asphalt brick-text siding added, shed roof with modillion cornice on front with decorative pierced vents between modillions; one-story, three-bay porch across front with turned posts and sawn brackets.

127-0343-0360                      1C      1712 Fourth Avenue                      1895    ca

Architectural Summary: Vernacular frame two-story, three-bay double-pile side-passage plan dwelling with hipped standing seam metal roof, 2/2 sash, one-story, three-bay porch across front with replacement posts; long windows onto porch.

127-0343-0361                      1C      1708 Fourth Avenue                      1895    ca

Architectural Summary: Frame two-story, three-bay double-pile side-passage plan dwelling with 1/1 sash with dentil cornice over each, gable filled with ornamental wood shingles, gabled polygonal bay on south side, one-story, four-bay porch across front wraps around north side and has turned posts and spindle frieze; gable has paired sash; gabled projecting elements to rear on both sides.

127-0343-0362                      2C      1706 Fourth Avenue                      1895    ca

Architectural Summary: Frame two-story, three-bay double-pile side-passage plan dwelling with Queen Anne-style detailing, peaked hipped standing seam metal roof and projecting polygonal bay containing entry offset to north side of main (east) facade with gable pediments, 1/1 sash windows with second floor pediment, pedimented bay on south side and ornamental bracket at cornice eaves with built-in gutters and one-story wraparound porch with lattice frieze and turned posts, and

Section 7 Page 65

ornamental railing, two-story similar porch on rear.

Gabled two-story frame stable/carriage house ca. 1895 with central section flanked by one-story sheds to each side.

127-0343-0363                      1C      1701 Fourth Avenue                      1895    ca

Architectural Summary: Two-story gable-fronted Queen Anne-style with brick first floor and frame second floor with projecting gabled elements on south and north, and three-story gabled tower in angle of wing, corbelled wood cornice between floors, deep eaves with decorative rafter ends and brackets, bargeboards with applied bullseye paterae, one-story porch wraps around front and south side with triple chamfered posts and brackets segmental arched one-story floor sash windows, large triple sash with transom with multiple panes, gabled entry to porch at southwest corner.

127-0343-0364                      1C      1703 Fourth Avenue                      1895    ca

Architectural Summary: Frame two-story gable-fronted dwelling with projecting gabled element on south, north one-story porch on front and south side with turned posts, projecting eaves with decorative rafter ends and bargeboards, inset porch under front gable.

127-0343-0365                      1NC    1705 Fourth Avenue                      1895    ca

Architectural Summary: Noncontributing two-story gable-fronted dwelling with projecting gabled elements on north and south, brick first floor and frame second floor, complex first floor windows with decorative stick-style frame containing two 6/1 sash similar framing at door in south gabled unit, one-story porch across front wraps around south side.

127-0343-0366                      2NC    1707 Fourth Avenue                      1970    ca

Architectural Summary: Non-contributing one-story, brick tract home with triple picture window, central paneled entry door.

Non-contributing one-story frame garage with asphalt bricktex siding built ca. 1970.

127-0343-0367                      1NC    1709 Fourth Avenue                      1960    ca

Architectural Summary: Non-contributing one-story, brick tract home with triple picture window.

127-0343-0368                      1C      1717 Fourth Avenue                      1895    ca

Architectural Summary: Frame two-story, two-bay gable-fronted Queen Anne-style dwelling with 1/1 sash windows with dentilled cornices with gable on sides with off-center polygonal bay with conical roof on front, front sheltered by a polygonal one-story porch with turned posts and lattice frieze, wood shingles in gable and on the bay roof, two-story rear porch on north side.

Section 7 Page 66

127-0343-0369 1C 1801 Fourth Avenue 1905 ca

Architectural Summary: Frame two-story, gable-fronted double-pile side-passage-plan dwelling with 1/1 sash, long gabled rear wing, gabled projecting polygonal bay on south side, one-story wraparound porch on front and south side, front windows have border of small panes in upper sashes.

127-0343-0370 1C 1809 Fourth Avenue 1920 ca

Architectural Summary: Frame two-story, three-bay American Foursquare dwelling with single and paired 9/1 sash, hipped asphalt shingle roof with hipped central dormer; 2-bay, 1-story porch across front with arched stucco opening. Aluminum siding added to cornice.

127-0343-0371 1C 1811 Fourth Avenue 1895 ca

Architectural Summary: Frame two-story, three-bay double-pile side-passage plan dwelling with 1/1 sash with dentil cornice over each, gable filled with ornamental wood shingles, gabled polygonal bay on south side, one-story, three-bay porch with turned posts, gable has paired sash; gabled projecting elements to rear on both sides.

127-0343-0372 1C, 1NC 1815 Fourth Avenue 1920 ca

Architectural Summary: Frame two-story, three-bay American Foursquare dwelling with single and paired 9/1 sash, asphalt shingle roof with hipped central dormer; 2-bay, 1-story porch across front with arched stucco opening.

Non-contributing wooden outbuilding gabled frame vinyl siding built ca. 1980.

127-0343-0373 2C 1817 Fourth Avenue 1905 ca

Architectural Summary: Frame two-story, gable-fronted two-bay double-pile side-passage-plan dwelling with paired and single 1/1 sash windows, single leaf door.

One-story frame vertical board covered garage.

127-0343-0374 1C 1900 Fourth Avenue 1920 ca

Architectural Summary: Brick two-story, three-bay hip-roofed double-pile side-passage-plan dwelling with pressed brick in running bond and with 7-course American on sides and rear, one-story, three-bay porch across front with square fluted columns and turned baluster railing, dentil molded cornice on main roof.

127-0343-0375 1C 1909 Fourth Avenue 1920 ca

Architectural Summary: Frame two-story, three-bay American Foursquare dwelling with paired 9/1 sash, slate roof; 2-bay, 1-story porch with tapered wood posts on brick plinths with arched heads.

Section 7 Page 67

One-story wing to rear.

127-0343-0376                      1C      1911 Fourth Avenue                      1920    ca  
Architectural Summary: Frame two-story American Foursquare dwelling with hipped roof with two wall dormers on second floor, one-story, one-bay porch across the front with paneled square columns.

127-0343-0377                      1C      1915 Fourth Avenue                      1920    ca  
Architectural Summary: Frame two-story, two-bay American Foursquare dwelling with paired and single 1/1 sash, two single-leaf glass-panel doors sheltered by porch across front with fluted Doric columns and turned baluster railing.

127-0343-0378                      1C      1917 Fourth Avenue                      1915    ca  
Architectural Summary: One-and-one-half-story frame stuccoed gable-front gambrel-roofed dwelling with side shed dormers, paired and single 8/1 sash.

127-0343-0379                      1C      1921 Fourth Avenue                      1920    ca  
Architectural Summary: Flemish-bond brick two-story, two-bay American Foursquare dwelling with paired and single 6/1 sash, wide hipped roof with paired console brackets, and one-story, three-bay Doric porch.

127-0343-0380                      2C      2001 Fourth Avenue                      1905    ca  
Architectural Summary: Frame two-story, two-bay double-pile side-passage-plan dwelling with hipped standing seam metal roof, 1/1 sash, advanced gabled polygonal bay offset on front to south of entry, gabled elements on north and south sides, one-story porch wraps around the front and south. One-story metal clad gabled garage to rear of lot.

127-0343-0381                      1C      2003 Fourth Avenue                      1940    ca  
Architectural Summary: Frame four-bay one-and-one-half-story Colonial-style dwelling with two 1/1 sash windows to south and three part picture window to north of central entry door.

127-0343-0382                      1NC    2007 Fourth Avenue                      1955    ca  
Architectural Summary: Non-contributing frame two-story, two-bay multiple Colonial Revival-style dwelling with hipped roof, 6/6 and 8/8 sash windows, Doric pedimented door surround at main entry to second floor, first floor entry on south side on first floor of two-story porch with square columns.

Section 7 Page 68

127-0343-0383                      1C      2013 Fourth Avenue                      1940    ca  
Architectural Summary:    Frame four-bay one-and-one-half-story Colonial-style dwelling with two  
1/1 sash windows to south and three part picture window to north of central entry door.

127-0343-0384                      1C      2015 Fourth Avenue                      1940    ca  
Architectural Summary:    Frame one-and-one-half-story Colonial-style dwelling with exterior brick  
chimney on south end, 8/8 sash, projecting one-bay gabled element on the north end, three-bay porch  
across front with square columns.

127-0343-0385                      1C      2101 Fourth Avenue                      1930    ca  
Architectural Summary:    One-story dwelling with 2/2 sash, 4-bay front with concrete lintels,  
textured concrete block below window sills, smooth finish walls, and smoother corner quoins.

127-0343-0386                      3C      2105 Fourth Avenue                      1920    ca  
Architectural Summary:    Frame 2-story, 3-bay weatherboarded Foursquare dwelling with 1/1 sash,  
deep eaves with curved modillion cornice, deck-on-hip slate roof with hipper dormer on front center,  
1-story, 2-bay porch on front with Doric columns and turned baluster railings.  
One-story, frameweatherboard outbuilding ca. 1920.  
One-story corrugated metal clad frame garage.

127-0343-0387                      2C      2107 Fourth Avenue                      1920  
Architectural Summary:    Frame, 2-story, 3-bay American Foursquare with paired 9/1 sash, MET.  
roof with hipped central dormer, 2-bay, 1-story porch across front with arched stucco opening.  
One-story brick garage.

127-0343-0388                      2C      2109 Fourth Avenue                      1920  
Architectural Summary:    Frame 2-story, 4-bay 6/1 sash, one-story 1-bay stucco porch with arched  
opening; no dormer. Single 6/1 sash on 2nd floor, triple sash on first floor.  
One-story brick garage.

127-0343-0389                      2C      2111 Fourth Avenue                      1920  
Architectural Summary:    Frame 2-story, 4-bay 6/1 sash, one-story 1-bay stucco porch with arched  
opening; no dormer. Single 6/1 sash on 2nd floor, triple sash on first floor.  
One-story brick garage.

127-0343-0390                      2C, 1NC      2115 Fourth Avenue                      1915    ca

Architectural Summary: Frame gambrel-front Dutch Colonial-style dwelling, one-over-one paired  
Section   7   Page  69 

and single sash windows with inset corner porch with corner paneled square columns. Gabled projecting element on south, hip-roofed element on north; polygonal bay on first-floor front. Frame 2-story, 4-bay 6/1 sash, one-story 1-bay stucco porch with arched opening; no dormer. Single 6/1 sash on 2nd floor, triple sash on first floor.  
One-story corrugated metal clad frame garage.  
Noncontributing frame garage ca. 1970.

127-0343-0391                      3C    2117 Fourth Avenue                      1905 ca

Architectural Summary: Frame 2-bay, 2-story double-pile side-passage-plan dwelling with Queen Anne-style details, projecting gabled bay beside single-leaf entry, shallow standing seam metal hipped roof, paired and single 1/1 sash windows, dentil molded cornice, one-story wrap-around porch with square replacement posts.  
Two one-story corrugated metal clad frame garages.

127-0343-0392                      1C    2201 Fourth Avenue                      1905 ca

Architectural Summary: Large frame 5-bay center-passage-plan dwelling with Queen Anne detailing, off-center gable on front and gables on sides, turned and sawn gable details, 2/2 sash, one-story, 5-bay porch on front with turned posts, dentil cornice, and sawn brackets.

127-0343-0393                      1C    2203 Fourth Avenue                      1920

Architectural Summary: Frame two-story, three-bay American Foursquare dwelling with single and paired 9/1 sash, standing seam metal roof with hipped central dormer; 2-bay, 1-story porch across front with Doric columns on brick plinths.

127-0343-0394                      1C    2205 Fourth Avenue                      1920

Architectural Summary: Frame two-story, three-bay American Foursquare dwelling with single and paired 9/1 sash, standing seam metal roof with hipped central dormer; 2-bay, 1-story porch across front with wood replacement columns. Aluminum siding added to cornice.

127-0343-0395                      1C    2207 -2209 Fourth Avenue                      1925 ca

Architectural Summary: Brick, 2-story, 6-bay, 4-unit apartment building with two central doors with entries to first and 2nd floor entries, 1/1 sash with rock-faced sills and heads, cream-colored inset brick panels over window bays.

127-0343-0396                      2C    2213 Fourth Avenue                      1920

Architectural Summary: Frame two-story, three-bay American Foursquare dwelling with paired

1/1 replacement sash, standing seam metal roof with hipped central dormer; 2-bay, 1-story porch  
Section 7 Page 70

across front with arched stucco opening. Vinyl siding added.  
One-story corrugated metal clad frame garage.

127-0343-0397 1C 2215 Fourth Avenue 1920

Architectural Summary: Frame two-story, three-bay American Foursquare dwelling with triple window on first floor, paired 9/1 above, standing seam metal roof with hipped central dormer; 2-bay, 1-story porch across front with arched stucco opening.

127-0343-0398 2C 2217 Fourth Avenue 1920 ca

Architectural Summary: 2-story, 3-bay double-pile, side-passage-plan dwelling with 2/2 sash, paneled wood cornice with consoles and dentil molding at front of shed roof.  
One-story corrugated metal clad frame garage.

127-0343-0399 1C 2301 Fourth Avenue 1920

Architectural Summary: Frame two-story, three-bay American Foursquare dwelling with paired 9/1 sash, gabled central dormer; 2-bay, 1-story porch across front with arched stucco opening. Gabled, asphalt shingle roof with exposed rafter ends and decorative brackets.

127-0343-0400 2C 2303 Fourth Avenue 1920

Architectural Summary: Frame two-story, three-bay American Foursquare dwelling with paired 9/1 sash, standing seam metal roof with hipped central dormer; 2-bay, 1-story porch across front with arched stucco opening.  
One-story corrugated metal clad frame garage.

127-0343-0401 1C 2305 Fourth Avenue 1925 ca

Architectural Summary: Brick gable fronted two-story, 3-bay Foursquare dwelling with paired 6/1 sash, half timbered stucco gable end, exposed rafter end and 3-bay gabled porch with arched stucco opening in center, stuccoed posts on brick plinths.

127-0343-0402 1C 2307 Fourth Avenue 1925 ca

Architectural Summary: Brick gable fronted two-story, 3-bay Foursquare dwelling with paired 6/1 sash, half timbered stucco gable end, exposed rafter end and 3-bay pointed gable arch in porch, stuccoed posts on brick plinths.

127-0343-0403 1C 2311 Fourth Avenue 1920 ca

Architectural Summary: Frame one-story, 3-bay Bungalow with stuccoed walls, 9/1 sash, projecting

rafter ends and gable brackets, gabled porch across front with paired corner posts on brick plinths.  
Section 7 Page 71

127-0343-0404                      1C     2317 Fourth Avenue                      1920   ca  
Architectural Summary: Frame 2-story, 3-bay American Foursquare dwelling with paired 1/1 sash.

127-0343-0405                      1C     2319 Fourth Avenue                      1920   ca  
Architectural Summary: Frame 2-story, 3-bay American Foursquare dwelling with paired 6/1 sash.

127-0343-0406                      1C     2321 Fourth Avenue                      1920   ca  
Architectural Summary: Brick, two-story commercial building with Foursquare detailing and apartment above, paneled brick strip pilasters at each end of storefront, inset porch at southwest corner serves apartment upstairs and has Doric corner column. Hipped standing seam metal roof has central hipped dormer. Polygonal projecting frame bay on 2nd floor of north side.

127-0343-0407                      1C     2401 Fourth Avenue                      1905   ca  
Architectural Summary: Frame 2-story, 3-bay double-pile side-passage-plan dwelling with 2/2 sash, shed roof with steep false gable with slate covering and central gable with modillion cornice and circular louvered vent, and one-story 3-bay porch with turned posts and dentil cornice.

127-0343-0408                      1NC   2405 Fourth Avenue                      1965   ca  
Architectural Summary: Non-contributing frame 1-story dwelling with 2/2 sash windows, shallow asphalt shingle gable roof, brick veneer on lower part of front.

127-0343-0409                      1C     2411 Fourth Avenue                      1915   ca  
Architectural Summary: Frame 2-story, gable-front double-pile, side-passage-plan dwelling with 1/1 sash, half round window in gable, projecting gables on sides, one-story, three-bay porch across front with wider metal supports (but Ionic columns remain against the wall).

127-0343-0410                      1NC   2413 Fourth Avenue                      1970   ca  
Architectural Summary: Non-contributing frame dwelling with shallow gable roof, 6/6 sash windows, and small gabled porch at off-center entry.

127-0343-0411                      1C     2415 Fourth Avenue                      1905   ca  
Architectural Summary: Frame 2-story, complex Queen Anne dwelling with 1/1 sash, ornamental wood shingle in gables, carved decorative brackets in eaves, under bays on each side and front and projecting 2nd floor 2-bay porch over wrap-around one-story porch, both with turned posts and spindles frieze.

Section 7 Page 72

127-0343-0412 1C 2501 Fourth Avenue 1920 ca

Architectural Summary: Brick 2-story, 3-bay double-pile, side-passage-plan dwelling with segmentally arched 2/2 sash windows, shallow standing seam metal hipped roof, one-story 2-bay porch with large square columns.

127-0343-0413 1C 2505 Fourth Avenue 1920 ca

Architectural Summary: Concrete block ashlar 2-story gable fronted dwelling with Queen Anne-derived complex floor plan, 1/1 sash, gable front and projecting gabled roof on sides, with projecting polygonal bay on 2nd floor of south side, gables filled with board-and-batten siding, one-story porch on front and south side with Doric columns.

127-0343-0414 1C 2507 Fourth Avenue 1920

Architectural Summary: One-story, 1-bay porch with stuccoed arch spanning across front and resting on brick plinths at the corners.

127-0343-0415 1C 2515 Fourth Avenue 1920

Architectural Summary: Frame, 2-story, 3-bay American Foursquare dwelling.

127-0343-0416 1NC 2517 Fourth Avenue 1980

Architectural Summary: Noncontributing brick 1-story, double dwelling with projecting gabled porch at north end creating entry to one apartment and gabled unit with inset porch at south end with entry to other apartment, 2/2 sash, and shallow gabled asphalt shingle roof.

127-0343-0417 1C - Fourth Avenue 1945 ca

Architectural Summary: Brick one-story gable fronted dwelling (or office) with central door with Federal Revival door surround incorporating side pilaster and a pediment flanked by 6/1 sash windows; gabled projecting wing to east side, slightly projecting element on west front containing triple window. Returned gable cornice.

127-0343-0418 1C 2603 Fourth Avenue 1920

Architectural Summary: Frame 2-story, 3-bay American Foursquare dwelling.

127-0343-0419 1C 2605 Fourth Avenue 1920

Architectural Summary: Frame, 2-story, 3-bay American Foursquare dwelling.

127-0343-0420 1C 2609 Fourth Avenue 1920 ca

Architectural Summary: Two-story frame weatherboarded 3-bay double-pile side-passage-plan

U. S. Department of the Interior

dwelling with 1/1 sash windows, single leaf door with transom and hipped standing seam metal roof with central dormer, one-story ell, and 2-bay 1-story porch across front.

127-0343-0421 1C 2611 Fourth Avenue 1920 ca

Architectural Summary: Two-story frame 3-bay double-pile side-passage-plan dwelling with 2/2 sash windows, single leaf door with transom and hipped standing seam metal roof with central dormer, one-story ell, and 2-bay 1-story porch with Doric columns across front.

127-0343-0422 1C 2613 Fourth Avenue 1920 ca

Architectural Summary: Two-story frame 3-bay double-pile side-passage-plan dwelling with 2/2 sash windows, single leaf door with transom and hipped standing seam metal roof with central dormer, one-story ell, and 2-bay 1-story porch with Doric columns across front.

127-0343-0423 1C 2617 Fourth Avenue 1905 ca

Architectural Summary: Frame 2-story, 3-bay weatherboarded double-pile side-passage-plan dwelling with hipped roof, boarded up sash windows with dentil cornices over each, square projecting gable bay on front, oval window beside door. Gable filled with wood shingles, projecting-gabled element on north side.

127-0343-0424 1C 2701 Fourth Avenue 1920

Architectural Summary: Frame, 2-story American Foursquare with slate roof; 1-story, 2-bay porch has stucco arched openings resting on tapered brick piers.

127-0343-0425 1C 2703 Fourth Avenue 1920

Architectural Summary: Frame, 2-story, 3-bay American Foursquare with gabled roof with exposed decorative rafter ends and eave brackets.

127-0343-0426 1C 2705 Fourth Avenue 1920

Architectural Summary: Frame, 2-story, 3-bay American Foursquare with 1-story wrap-around porch with stuccoed piers supporting arched openings.

127-0343-0427 1C 2707 Fourth Avenue 1920

Architectural Summary: Frame 2-story, 3-bay American Foursquare dwelling.

127-0343-0428 1C 2711 Fourth Avenue 1905 ca

Architectural Summary: Frame 2-story, 3-bay weatherboarded complex Queen Anne dwelling with paired and single 6/1 sash, ornamental wood shingle in gables, carved decorative brackets in eaves,

Section 7 Page 74

under bays on each side and front and one-story, 2-bay porch with wood tapered piers on brick plinths.

127-0343-0429 1C 2717 Fourth Avenue 1930

Architectural Summary: Frame 1 1/2-story stuccoed frame gable fronted dwelling with shed side dormers with projecting gabled entry pavilion and one-story south side wing, 6/1 and 8/1 sash windows, circular vent in gable, Colonial style pedimented door surround.

127-0343-0430 1C 2719 Fourth Avenue 1920

Architectural Summary: Frame 2-story, 3-bay American Foursquare dwelling with triple and paired 9/1 sash windows, asphalt shingle roof; one-story wrap-around porch with arched stucco openings.

127-0343-0431 1C 2801 Fourth Avenue 1920 ca

Architectural Summary: Frame 2-story, 2-bay Foursquare dwelling with leaded glass upper sash on first floor, 1/1 sash, hipped slate roof, central dormer with Palladian-form window, wrap-around porch, two-story enclosed porch on rear.

127-0343-0432 1C 2803 Fourth Avenue 1920 ca

Architectural Summary: Frame 2-story, 2-bay Foursquare dwelling with leaded glass upper sash on first floor, 1/1 sash, hipped slate roof, central dormer with Palladian-form window, wrap-around porch, two-story enclosed porch on rear.

127-0343-0433 2C 2807 Fourth Avenue 1920 ca

Architectural Summary: Brick 2-story, 3-bay Foursquare dwelling with leaded glass upper sash on first floor, 9/1 sash, hipped slate roof, one-story, 2-bay porch with paneled columns on brick plinths two-story enclosed porch on rear, exposed rafter ends.

One-story frame garage.

127-0343-0434 2C 2809 Fourth Avenue 1920 ca

Architectural Summary: Brick 2-story, 3-bay Foursquare dwelling with leaded glass upper sash on first floor, 9/1 sash, hipped slate roof, hip-roofed dormer, one-story, 1-story, 2-bay porch with wood columns on brick plinths, two-story enclosed porch on rear, exposed rafter ends.

One-story frame garage.

127-0343-0435 1C 2815 Fourth Avenue 1925 ca

Architectural Summary: Frame, stuccoed 2-unit apartment building with 1st and 2nd floor apartments opening off 2-story, 3-bay gabled porch with Doric columns and stuccoed gable, 1/1 sash,

Section 7 Page 75

front and side gables on hipped roof with eave brackets.

127-0343-0436 1C 2819 Fourth Avenue 1920 ca

Architectural Summary: Brick 2-story, 2-bay, 2-unit apartment building with paired and single 9/1 sash, hipped slate roof, one-story, 2-bay porch across front with paneled square columns, modillion cornice and turned baluster rail; closed eave cornice with built-in gutter, two-story enclosed porch on rear, and exposed rafter ends.

127-0343-0437 1C 2821 Fourth Avenue 1920

Architectural Summary: Frame 2-story, 3-bay American Foursquare with hipped slate roof, paired and triple 9/1 sash, exposed rafter ends.

127-0343-0438 1C 2825 Fourth Avenue 1930 ca

Architectural Summary: Small, frame, 1-story, 3-bay Bungalow with shallow gable roof with exposed decorative rafter ends, slightly projecting end chimney of brick, porch across front of 2 bays with fluted Doric columns on brick plinths, and early rustic seats with irregular lattice backs at each end, 8-light casement windows on front.

127-0343-0439 1C 2827 Fourth Avenue 1920 ca

Architectural Summary: Brick 2-story, 2-bay Foursquare dwelling with leaded glass upper sash on first floor, paired and single 1/1 sash, hipped slate roof, central dormer with Palladian-form window, wrap-around porch, two-story enclosed porch on rear, stuccoed front facade, brick quoins.

127-0343-0440 1C 2829 Fourth Avenue 1920 ca

Architectural Summary: Brick 2-story, 2-bay Foursquare dwelling with leaded glass upper sash on first floor, single 1/1 sash, hipped slate roof, central dormer with Palladian-form window, wrap-around porch, two-story enclosed porch on rear, Flemish bond facade, brick quoins.

127-0343-0441 1C 2901 Fourth Avenue 1920 ca

Architectural Summary: Brick gable-front nave-plan church with pointed arch windows with stained glass casement windows with stained glass surrounding brick frame, separated by stone-topped buttresses, raised parapet at gables, slate roof with projecting gabled wings at rear of sides, circular window in gables, crenelated vestibule in center front like a very short tower and pointed arch doors. Flat roofed educational building to rear, raised basement with paired 1/1 sash and belt course at first floor level.

Section 7 Page 76

127-0343-0442                      2C      2903 Fourth Avenue                      1930   ca

Architectural Summary: Large brick, gable-fronted 2-story Tudor Revival dwelling with clipped gable slate roof, projecting gable on south side, roof continues to south to cover 1-story corner porch with large stucco square column at corner, Flemish bond walls with glazed headers and solder belt course at 2nd floor level, half timbering in stucco gables. Gables have small roof across bottom, 9/1 sash on sides and triple 6/1 sash on front.

Frame, metal-clad, gabled one-story garage.

127-0343-0443                      1C      2905 Fourth Avenue                      1920

Architectural Summary: One-story, 2-bay porch across front with fluted square columns and advanced pedimented elements in entry bay.

127-0343-0444                      1C      2907 Fourth Avenue                      1920   ca

Architectural Summary: Large frame weatherboarded 4-bay, 2-story Foursquare dwelling with 9/1 sash, paired consoles at eaves, polygonal bay of 2 stories on south, one-story porch wraps around the north side.

127-0343-0445                      1C      2909 Fourth Avenue                      1920   ca

Architectural Summary: Frame 2-story, 3-bay Foursquare dwelling with 1/1 sash, hipped standing seam metal roof, one-story, 2-bay porch across front with Doric columns.

127-0343-0446                      1NC    2917 Fourth Avenue                      1960   ca

Architectural Summary: Concrete block, 2-story multiple dwelling with shallow hipped roof, metal casement windows, brick sills, small vestibule at entry.

127-0343-0447                      1NC    2919 Fourth Avenue                      1960   ca

Architectural Summary: Noncontributing concrete block, 2-story multiple dwelling with shallow hipped roof, metal casement windows, brick sills, small vestibule at entry.

127-0343-0448                      1C      2921 Fourth Avenue                      1905   ca

Architectural Summary: Frame 2-story, 2-bay gable-fronted double-pile, side-passage dwelling with 2/2 sash, one-story porch wrapped around north and south sides (shallow on south) with Doric columns, returned cornice and pediment windows in the gables. Projecting gable on south side. Polygonal bay on second floor on south. Gables include one polygonal 2-story bay on north side, 2-story porch on rear with turned posts and dentil cornice.

Section 7 Page 77

127-0343-0449 1C 1512 Custer Street 1920 ca

Architectural Summary: Frame 2-story, 2-bay double-pile, side-passage-plan dwelling with single and triple 1/1 sash windows, single-leaf metal panel door with transom, one-story, 2-bay porch across front with square posts, hipped roof.

127-0343-0450 1C 1518 Custer Street 1930 ca

Architectural Summary: Stuccoed frame one-story Bungalow with paired and single 1/1 sash, gabled one-bay porch at center entry with square posts on brick plinths.

127-0343-0451 2C 1511 Custer Street 1930 ca

Architectural Summary: Frame, one 1/2-story two-bay Bungalow with paired 6/6 sash, large gabled dormer, one-bay porch across front with tapered wood columns on brick plinths, exposed rafter ends, and eave brackets.

One-story metal clad frame shed.

127-0343-0452 1C 1515 Custer Street Avenue 1925 ca

Architectural Summary: Frame one-story stuccoed gable fronted Bungalow with very deep cornice eaves with large brackets, gabled central porch with decorative trusses and brackets, triple and single 1/1 sash.

127-0343-0453 1C 1517 Custer Street 1910 ca

Architectural Summary: 2-story frame double-pile, side-passage-plan dwelling with 2/2 sash windows, replacement single-leaf door, one-story, 2-bay porch has hipped roof and square posts.

127-0343-0454 1NC 2810 -2812 Fifth Avenue 1960 ca

Architectural Summary: Noncontributing, concrete block, 2-story multiple dwelling with shallow hipped roof, metal casement windows, brick sills, small vestibule at entry.

127-0343-0455 1NC 2806 -2808 Fifth Avenue 1960 ca

Architectural Summary: Noncontributing, concrete block, 2-story multiple dwelling with shallow hipped roof, metal casement windows, brick sills, small vestibule at entry.

127-0343-0456 1C 1512 Victor Street 1920

Architectural Summary: Frame 2-story stuccoed double dwelling with steep side gable roof with two front gables with diamond ornament; one-story one-bay at each unit with paneled wood columns, 6/6 sash.

Section 7 Page 78

127-0343-0457                      1C      1516 Victor Street                      1920   ca  
Architectural Summary: Frame 2-story, 2-bay Foursquare dwelling with stucco walls, paired sash windows, exposed rafter ends, one-story one-bay porch with Doric columns, hipped roof.

127-0343-0458                      1C      1518 Victor Street                      1920   ca  
Architectural Summary: Brick 2-story, 6-bay double dwelling with 1/1 sash with soldier brick heads, shed roof with parapets, 7-course American bond brick stucco panels in parapet, one-story 2-bay porch at entry with square columns on brick plinths.

127-0343-0459                      1C      1505 Victor Street                      1920   ca  
Architectural Summary: Frame 2-story Foursquare dwelling with single and paired 6/1 windows with one-story, 2-bay porch with Doric columns, shallow hipped roof.

127-0343-0460                      1C      1507 Victor Street                      1920   ca  
Architectural Summary: Frame 2-story Foursquare dwelling with single and paired 6/1 windows with one-story, 2-bay porch with Doric columns, shallow hipped roof.

127-0343-0461                      1C      1509 Victor Street                      1920   ca  
Architectural Summary: Frame 2-story Foursquare dwelling with single and paired 6/1 windows with one-story, 2-bay porch with metal columns, shallow hipped roof.

127-0343-0462                      1C      1511 Victor Street                      1920   ca  
Architectural Summary: Frame 2-story Foursquare dwelling with single and paired 6/1 windows with one-story, 2-bay porch with metal columns, shallow hipped roof.

127-0343-0463                      1C      1513 Victor Street                      1920   ca  
Architectural Summary: Frame 2-story Foursquare dwelling with single and paired 6/1 windows with one-story, 2-bay porch with metal columns, shallow hipped roof.

127-0343-0464                      1C      1520 Pulaski Street                      1920   ca  
Architectural Summary: Frame 1-story, 2-bay Foursquare dwelling with single and paired 9/1 windows with one-story, 2-bay porch with Doric columns, shallow hipped roof.

127-0343-0465                      1C      1518 Pulaski Street                      1920   ca  
Architectural Summary: Frame 2-story Foursquare dwelling with single and paired 9/1 windows with one-story, 2-bay porch with Doric columns, shallow hipped roof.

Section 7 Page 79

127-0343-0466                      1C      1516 Pulaski Street                      1920   ca  
Architectural Summary: Frame 1-story, 2-bay Foursquare dwelling with single and paired 9/1 windows with one-story, 2-bay porch with Doric columns, shallow hipped roof.

127-0343-0467                      1C      1514 Pulaski Street                      1920   ca  
Architectural Summary: Frame 2-story, 3-bay Foursquare dwelling with single and paired 9/1 windows with one-story, 2-bay porch with Doric columns, shallow hipped roof.

127-0343-0468                      1C      1512 Pulaski Street                      1920   ca  
Architectural Summary: Frame 2-story Foursquare dwelling with single and paired 6/1 windows with one-story, 2-bay porch with Doric columns, shallow hipped roof.

127-0343-0469                      1NC    1521 Pulaski Street                      1980   ca  
Architectural Summary: Noncontributing, one-story brick duplex dwelling with 6/6 sash, shallow gabled asphalt shingle roof.

127-0343-0470                      1NC    2608 Fifth Avenue                      1955   ca  
Architectural Summary: Noncontributing, one-story frame gabled 3-bay tract house with triple picture window in center, entry to north end, 6/6 sash to south and elsewhere, shallow gable roof.

127-0343-0471                      1NC    2606 Fifth Avenue                      1955   ca  
Architectural Summary: Noncontributing, one-story frame gabled 3-bay tract house with triple picture window in center, entry to north end, 6/6 sash to south and elsewhere, shallow gable roof.

127-0343-0472                      1NC    2604 Fifth Avenue                      1955   ca  
Architectural Summary: Noncontributing, one-story frame gabled 3-bay tract house with triple picture window, center entry door flanked by 1/1 sash, shallow gable roof.

127-0343-0473                      1NC    2602 Fifth Avenue                      1955   ca  
Architectural Summary: Noncontributing, one-story frame gabled 3-bay tract house with triple picture window in center, entry to north end, 6/6 sash to south and elsewhere, shallow gable roof.

127-0343-0474                      1NC    2600 Fifth Avenue                      1955   ca  
Architectural Summary: One-story frame three-bay gabled tract house with triple picture window in center, entry to north end, 6/6 sash to south and elsewhere, shallow gable roof.

Section 7 Page 80

127-0343-0475 1NC 2516 Fifth Avenue 1955 ca

Architectural Summary: Noncontributing, one-story frame gabled 3-bay tract house with triple picture window in center, entry to north end, 6/6 sash to south and elsewhere, shallow gable roof.

127-0343-0476 1C 2514 Fifth Avenue 1920 ca

Architectural Summary: Frame 2-story, 2-bay Foursquare dwelling with matchboard (narrow weatherboard), 8/1 sash, shallow hipped roof, and one-story, 2-bay porch across front with square columns on brick plinths.

127-0343-0477 1C 2512 Fifth Avenue 1920 ca

Architectural Summary: Frame 2-story, 2-bay Foursquare dwelling with weatherboard, 8/1 sash, shallow hipped roof, and one-story, 2-bay porch across front with Doric columns.

127-0343-0478 1C 2510 Fifth Avenue 1920 ca

Architectural Summary: Frame 2-story, 2-bay Foursquare dwelling with weatherboard, 8/1 sash, shallow hipped roof, and one-story, 2-bay porch across front with Doric columns.

127-0343-0479 1C 2508 Fifth Avenue 1920 ca

Architectural Summary: Frame 2-story, 2-bay Foursquare dwelling with asbestos shingle siding, paired and single 1/1 sash, shallow hipped roof, and one-story, 2-bay porch across front with square columns on brick plinths.

127-0343-0480 1NC 2506 Fifth Avenue 1980 ca

Architectural Summary: Noncontributing, brick 1-story gable fronted dwelling with 6/6 sash.

127-0343-0481 1C 2504 Fifth Avenue 1920

Architectural Summary: Frame, 2-story, 3-bay American Foursquare with 6/1 sash, and 1-story, 2-bay porch across front with Doric columns.

127-0343-0482 1C 2502 Fifth Avenue 1920

Architectural Summary: 1 1/2-story with gambrel roof and shed dormer on front and rear; one-story, 1-bay arched stucco porch; single and paired 1/1 sash, and 1-story, 2-bay porch across front with arched stucco opening.

127-0343-0483 1C 2414 Fifth Avenue 1955 ca

Architectural Summary: Concrete block one-story 4-bay dwelling with shallow gable roof, 6/6 and 8/8 sash.

Section 7 Page 81

127-0343-0484                      1C      2410 -2412 Fifth Avenue      1965    ca.  
Architectural Summary: Frame one-story duplex apartment building with asbestos shingle siding, gabled roof, 2/2 paired and single windows, concrete steps to each single leaf entry.

127-0343-0485                      1C      2406 -2408 Fifth Avenue      1965    ca  
Architectural Summary: Frame one-story duplex apartment building with asbestos shingle siding, gabled roof, 2/2 paired and single windows, concrete steps to each single leaf entry.

127-0343-0486                      1C      2504 Fifth Avenue                      1920    ca  
Architectural Summary: Frame 2-story, 2-bay Foursquare dwelling with asbestos shingle siding, paired 1/1 sash, shallow hipped roof, and one-story, 2-bay porch across front with square columns on brick plinths.

127-0343-0487                      1C      2400 Fifth Avenue                      1895    ca  
Architectural Summary: Frame 2-story, 3-bay gabled single-pile side-passage-plan dwelling with advanced pavilion on front with gable. Gables have returned cornices; 2/2 sash, one-story wrap-around porch on front and south sides has chamfered posts and sawtooth frieze ornament, hip-roofed 2-story rear section.

127-0343-0488                      1C      2320 Fifth Avenue                      1905    ca  
Architectural Summary: Frame, one-story, 5-bay double-pile center-passage-plan dwelling with hipped standing seam metal roof with center gable on front and gables on polygonal projecting bays on sides, one-story, 5-bay porch across front has chamfered posts, dentil cornice and sawtooth frieze ornaments, 2/2 sash, and closed eaves cornice with inset gutters.

127-0343-0489                      1C      2314 Fifth Avenue                      1905    ca  
Architectural Summary: Frame 1-story, 5-bay double-pile center-passage-plan dwelling with deck on hip standing seam metal roof with center gable on front with louvered vent, one-story, 3-bay porch across front has chamfered posts, dentil cornice and sawtooth frieze ornaments, 2/2 sash, and closed eaves cornice with inset gutters.

127-0343-0490                      1C      2300 Fifth Avenue                      1905  
Architectural Summary: Frame 2-story, 2-bay gabled double-pile, side-passage-plan dwelling with paired and single 1/1 sash, one-story gabled 2-bay porch with tapered wood posts and ornamental rail.

Section 7 Page 82

127-0343-0491 1C 2220 Fifth Avenue 1905 ca

Architectural Summary: Frame, two-story, double-pile side-passage-plan dwelling with central ornamental gable on hipped standing seam metal roof, one-over-one sash windows, one-story, one-bay porch with replaced columns, door with transom, and ell to the rear with porch along the south side under the main roof.

127-0343-0492 1C 2214 Fifth Avenue 1905 ca

Architectural Summary: Frame, two-story, double-pile side-passage-plan dwelling with shallow gabled standing seam metal roof, bracketed cornice, one-over-one sash windows, one-story, three-bay porch with turned posts across the front, door with transom, and ell to the rear with porch along the north side under the main roof.

127-0343-0493 1C 2210 Fifth Avenue 1930 ca

Architectural Summary: Stuccoed frame one-story Bungalow with paired 1/1 sash, gabled one-bay porch at center entry with square posts and arched opening, and central gabled dormer with three-light paired casements.

127-0343-0494 1C 2208 Fifth Avenue 1930 ca

Architectural Summary: Stuccoed frame one-story Bungalow with paired 1/1 sash, gabled one-bay porch at center entry with square posts and arched opening, and central gabled dormer with three-light paired casements.

127-0343-0495 2C 2206 Fifth Avenue 1905 ca

Architectural Summary: Frame, two-story, double-pile, side-passage-plan dwelling with central ornamental gable on hipped standing seam metal roof, one-over-one sash windows, one-story, four-bay wrap-around porch with turned posts, double-leaf entry door with transom, and ell to the rear with two-story enclosed porch along the north side under the main roof.

One-story, frame, gabled, metal-clad garage.

127-0343-0496 2C 2200 Fifth Avenue 1905 ca

Architectural Summary: Frame, two-story, double-pile, side-passage-plan dwelling with central ornamental gables on front and south side of hipped standing seam metal roof, one-over-one sash windows, one-story, four-bay wrap-around porch with turned posts, double-leaf entry door with transom, and ell to the rear with two-story enclosed porch along the south side under the main roof. Frame one-story garage with gable roof and weatherboard siding.

Section   7   Page  83 

127-0343-0497                      1C     2116 Fifth Avenue                      1905   ca

Architectural Summary: Frame, two-story, double-pile side-passage-plan dwelling with shallow gabled standing seam metal roof, bracketed cornice, one-over-one sash windows, one-story, two-bay porch with Doric columns across the front, double-leaf door with transom, and ell to the rear with porch along the north side under the main roof.

127-0343-0498                      1C     2114 Fifth Avenue                      1930   ca

Architectural Summary: Frame, 1-story, Bungalow with single and paired 1/1 sash, gabled standing seam metal roof, and gabled one-bay porch at center entry with Doric columns on brick plinths.

127-0343-0499                      1C     2112 Fifth Avenue                      1905   ca

Architectural Summary: Frame, two-story, double-pile, side-passage-plan dwelling with central front gable, asphalt shingle roof, one-over-one sash windows with triple window and entry door with sidelight and transom under one-story, two-bay Doric porch across the front, and projecting two-story bay to south side and ell to the rear.

127-0343-0500                      1C     2108 Fifth Avenue                      1930   ca

Architectural Summary: Frame 1-story, 3-bay gabled dwelling with replaced 1/1 sash, one-story gabled 1-bay porch with square wood posts and ornamental rail.

127-0343-0501                      1C     2106 Fifth Avenue                      1930   ca

Architectural Summary: Frame 1-story, 3-bay gabled dwelling with 1/1 sash, exposed rafter ends, one-story shed-roofed 1-bay porch with columns.

127-0343-0502                      1C     2104 Fifth Avenue                      1930   ca

Architectural Summary: Frame 1-story, 3-bay gabled dwelling with 1/1 sash, exposed rafter ends, one-story gabled 1-bay porch with square wood posts on brick plinths and ornamental rail.

127-0343-0503                      1C     2018 Fifth Avenue                      1905   ca

Architectural Summary: Frame, two-story, L-shaped dwelling with gabled projecting element, paired and single two-over-two sash windows, one-story porch with Doric columns with two bays on the front and wrapping around the side to the entry, asphalt shingle roof, slightly projecting two-story bay to south side and gabled element projecting to the north side.

127-0343-0504                      1C     2014 Fifth Avenue                      1930   ca

Architectural Summary: Frame 1-story, 3-bay gable-fronted Bungalow with 6/1 sash windows, exposed rafter ends & gable brackets, 1-story gabled 3-bay porch with sq. wd. posts on brick plinths.

Section 7 Page 84

127-0343-0505 1C 2000 Fifth Avenue 1930 ca

Architectural Summary: Frame 1-story, 3-bay gable-fronted Bungalow with 6/1 sash windows, exposed rafter ends, and enclosed one-story gabled porch.

127-0343-0506 1C 1918 Fifth Avenue 1905 ca

Architectural Summary: Frame, two-story, double-pile, side-passage-plan dwelling with central front gable, standing seam metal roof, one-over-one sash windows, one-story, two-bay Doric porch across the front, and projecting two-story polygonal bay to south side, projecting gabled wing opposite to the north, and gabled ell to the rear.

127-0343-0507 2C 1914 Fifth Avenue 1905 ca

Architectural Summary: Frame, two-story, double-pile, side-passage-plan dwelling with shed standing seam metal roof, one-over-one sash windows, one-story, three-bay front porch with turned posts. One-story frame shed.

127-0343-0508 1C 1910 Fifth Avenue 1920 ca

Architectural Summary: Frame 2-story, 2-bay Foursquare dwelling with paired 1/1 sash windows, stucco siding, shallow hipped roof with central hipped dormer with paired casement windows, and one-story, 2-bay, porch across front with Doric columns.

127-0343-0509 1C 1906 Fifth Avenue 1910 ca

Architectural Summary: Frame 2-story, 3-bay Foursquare-type dwelling with 1/1 sash windows, shallow hipped roof with central hipped dormer with triple casement windows, and one-story, 3-bay, porch across front with Doric columns.

127-0343-0510 2C 1902 Fifth Avenue 1910 ca

Architectural Summary: Frame 2-story, 2-bay Foursquare-type dwelling with paired and single 1/1 sash windows, shallow hipped roof with off-central gable small fanlight, and one-story, 2-bay, porch across front with Doric columns.

One-story frame, gabled garage with asphalt shingle siding and standing seam metal roof.

127-0343-0511 2C 1814 Fifth Avenue 1905 ca

Architectural Summary: Frame, two-story, double-pile, side-passage-plan dwelling with hipped standing seam metal roof with inset gutter, six-over-six sash windows, one-story, three-bay porch with slender columns, single-leaf entry door with transom, and ell to the rear with two-story porch along the south side under the main roof.

Frame one-story garage with gable roof and vinyl siding.

Section 7 Page 85

127-0343-0512                      2C      1812 Fifth Avenue                      1920   ca

Architectural Summary: Frame one-story Bungalow with paired and single 6/1 sash windows, gabled standing seam metal roof with large central gabled dormer with paired sash window, and two-bay porch under main roof across the front with columns on brick plinths.

One-story, frame, gabled, metal-clad garage.

127-0343-0513                      1C      1810 Fifth Avenue                      1905   ca

Architectural Summary: Frame, two-story, double-pile, side-passage-plan dwelling with shallow hipped standing seam metal roof with inset gutter and brackets, boarded up sash windows, one-story, three-bay porch with unusual slender posts and ornamental brackets, single-leaf entry door with transom, and ell to the rear with two-story porch along the south side.

127-0343-0514                      1C      1806 Fifth Avenue                      1905   ca

Architectural Summary: Frame, two-story, double-pile, side-passage-plan dwelling with central front gable, asphalt shingle roof, one-over-one sash windows, one-story, three-bay porch with spindle frieze and turned posts across the front, and projecting two-story polygonal bay to south side, and gabled ell to the rear.

One-story, frame, gabled garage with metal siding and standing seam metal roof.

127-0343-0515                      1NC    1804 Fifth Avenue                      1960   ca

Architectural Summary: Noncontributing concrete block, 1-story, 3-bay gable-fronted dwelling with sliding metal windows, one-story gabled 2-bay porch with metal supports.

127-0343-0516                      2C      1802 Fifth Avenue                      1920   ca

Architectural Summary: Frame two-story Foursquare-style dwelling with 1/1 sash windows, shallow hipped standing seam metal roof with central gabled dormer, and two-bay porch across the front with columns.

One-story, frame, gabled, metal-clad garage.

127-0343-0517                      1C      1716 Fifth Avenue                      1905   ca

Architectural Summary: Frame, two-story, double-pile, side-passage-plan dwelling with hipped standing seam metal roof with inset gutter, two-over-two sash windows, one-story, two-bay porch with Doric columns, single-leaf entry door with transom and sidelight may have been double leaf entry originally, and ell to the rear with two-story porch along the south side under the main roof.

Section 7 Page 86

127-0343-0518                      3C      1708 Fifth Avenue                      1900   ca

Architectural Summary: Frame, two-story, double-pile, side-passage-plan dwelling with Mansard slate-covered roof fronting and concealing a long shed roof; two-story projecting polygonal bay on the front has a conical top and represents a tower form; one-over-one sash windows; one-story, two-bay porch with Doric columns, single-leaf entry door, and ell to the rear with two-story porch along the south side under the main roof.

Small frame garage

Small frame garage.

127-0343-0558      1C      corner of Fourquare Lane and Second Avenue      1925  
Architectural Summary: Brick 1-story Classical Revival-style nave-plan church with arch-headed stained glass sash windows with stone keystone and blocks, full entablature with dentil molding, brick parapet, full Ionic portico on front with pediment, Corinthian columns, and bulls eye window, arch-headed entry door. Raised basement. Header bond brickwork under windows, slate roof on portico dies into parapet; standing seam metal gable roof behind parapet. Arched window in west end over the altar.

127-0343-0559      1C      4 Fourquare Lane      1950  
Architectural Summary: Two-story, six-course American bond brick, International-style school on a raised, poured-concrete basement. There are banded windows on each floor on the east and west sides and blind ends to the north and south with inset decorative concrete crosses. An off-center, square-topped brick belfry with a louvered copper insert marks the main entry on the east side. The two main floors house classrooms on each side of a central corridor. The building is served by internal stairs at the southeast and northeast corners and a cafeteria is housed in the basement. The roof with a flat profile is made distinctive by a shallow slope to a valley in the center, visible at the north and south ends. The banded windows have been partly blocked with stuccoed panels, but the building's integrity is intact.

**8. Summary Statement of Significance**

The Chestnut Hill/Plateau Historic District in the City of Richmond is eligible for listing in the National Register of Historic Places under criteria A and C as a historic residential and commercial area exhibiting the late nineteenth- and early twentieth-century development of a "streetcar suburb." Residential, commercial, transportation-related, and institutional buildings primarily date from a period of significance from ca. 1890 to 1930, during which time new, popular building designs gradually replaced traditional forms, although there was remarkable continuity of form and location for the various corresponding building types. A further period of significance extends from 1931 to 1946, when a few significant new structures were built and the storefronts of several of the existing commercial buildings were altered as the city's institutions and business owners responded to the Great Depression and the post-World War II-era change in architectural styles with a modernization effort. A significant date is 1914, the year of the town of Highland Park's incorporation into the city of Richmond.

The predominant historic period represented by the surveyed resources is that of Reconstruction and Growth (1866-1916), reflecting the era of Chestnut Hill's founding in the late nineteenth century and the period of time during which commercial and residential growth transformed the community from a semi-developed field to a densely built suburb. Single family residential structures are the vast majority of the documented resource types. Although multiple dwellings, commercial buildings, mixed-use buildings, fraternal lodges, churches, and schools are located in the district or its immediate vicinity, the boundaries, based on the visual continuity and physical integrity of the district, include only those sections of Chestnut Hill and the Plateau that retain intact historic structures. Areas of significance include commerce, transportation, and architecture. All but seventeen of the contributing primary resources in the district are significant as domestic properties. The district's resources include several architecturally significant buildings (most notably the Colonial Revival-style Beardsley House at 2300 Second Avenue, the five elaborate Queen Anne-style houses on the east side of the 1900 block of Third Avenue, and the granite Gothic Revival-style Northside Baptist Church at 2800 Third Avenue) and one closely related to the transportation theme (the service station at Third Avenue and Brookland Park Boulevard)

### Historical Background

#### *Colony to Early National Period (1753-1830)*

The Chestnut Hill/Plateau Historic District was the site of a farm owned, in the eighteenth century, by prominent city man Samuel DuVal (1714-1784). He acquired 300 acres on Shockoe Creek adjoining Widow Cannon's pasture, Cannon's Branch, and William Byrd's line in 1745. He later acquired an adjoining 100 acres, named the property Mount Comfort, and built a large brick center-passage-plan dwelling on the flat center of the tract on the east side of the Meadow Bridge Road.<sup>13</sup> In 1813, DuVal heirs sold 30 acres, part of the Mount Comfort tract, to David Bullock and others.<sup>14</sup> This tract did not contain the house, which was nearby. The tract containing the house was eventually acquired by members of the Randolph family, who insured the two-story brick house, the frame kitchen, and the frame dairy for \$3,100 in 1809.<sup>15</sup>

Peter V. Daniel (1784-1860) acquired the tract for life through the inheritance of his wife, Lucy Randolph, in the early 1820s.<sup>16</sup> The upper portion of Mount Comfort or Spring Farm, including "the brick dwelling house, the kitchen, and the house sometimes called the office" was inherited by Lucy N. Daniel and the southern portion by her sister, Edmonia M. Preston.<sup>17</sup> Peter V. Daniel purchased an additional tract of the original DuVal farm in 1828.<sup>18</sup>

#### *Antebellum Period (1831-1860)*

Peter V. and Lucy Daniel's property included most of what became the Chestnut Hill subdivision. Daniel, lieutenant governor of Virginia from 1818 to 1835 and a justice of the U.S. Supreme Court from 1841 to 1860, lived most of his life on Grace Street in the city, but maintained his residential property just outside the city. The farm included the southernmost part of the Chestnut Hill/Plateau district of Highland Park stretching from Trigg Street north to Magnolia Street.

Immediately to the northeast of Mount Comfort was the property owned by Adolph Dill, a prosperous Jewish baker born in 1792, who arrived in Richmond in 1819 and lived and worked in the city. His house stood at 00 Clay Street in the city's Jackson Ward. His land, a part of the Chestnut Hill/Plateau historic district stretching from near Magnolia Street to Brookland Park Boulevard (originally Dill Street), was developed after 1908 and was known as the Plateau.<sup>19</sup>

National Park Service

National Register of Historic Places  
Continuation Sheet

Chestnut Hill/Plateau Historic District  
City of Richmond, Virginia

Section 8 Page 95

The Virginia Central Railroad was built along Shockoe Creek in the early 1850s.<sup>20</sup> Daniel also owned a mill on Bacon's Quarter Branch.<sup>21</sup> The mill race ran along the eastern edge of the property and was held by a dam on the property line bordering Mount Comfort in 1856.<sup>22</sup> Daniel clearly benefited by the industrial potential of the confluence of water power and rail service in developing the area on a small scale.

*Civil War (1861-1865)*

The Civil War adversely affected Richmond in many and well-known ways. The principal effect on the Chestnut Hill/Plateau area was the construction of a fortification, Battery No. 7, which protected the city on its northeastern approaches. This was located near the present-day Juniper, Willow, and Spruce streets in the center of the proposed district. No archaeological investigations have been made to determine if any trace remains of the battery in the built-up suburban lots.

After Judge Peter V. Daniel's death in 1860, the property, divided into tracts or lots, was sold at auction, where it was purchased by Francis H. Deane, a physician.<sup>23</sup> The area along Meadow Bridge Road on the east, including Mansfield, was held by Deane and his son, Francis, for many years. The sloping land on the west side of the road was settled in smaller lots. A tract at the top of the hill on the west side of the road was purchased in 1862 by Bernhard Brauer from Early Corbin.<sup>24</sup> This 226-by-300 foot tract was in turn sold to Rudolf Kastelburg in the following year.<sup>25</sup> Kastelberg probably built the large, frame, Greek Revival-style, double-pile, central-passage-plan dwelling on the site (127-0343-0203) shortly after the end of the war, or it may have been built at the end of the Antebellum period by a previous owner.

*Reconstruction and Growth (1866-1916)*

Industrial Growth and Initial Development (1866-1889)

The Virginia Central and the Chesapeake and Ohio railroads were consolidated under the latter name in 1868, with direct connections to a large geographical area. The rail access in the Mount Comfort area attracted the firm of Tanner and Delaney to the site in 1875. In that year

Section   8   Page   96  

they opened the Metropolitan Iron Works, known by 1883 as the Richmond Locomotive Works, which made locomotives, boilers, and mills in a large and busy operation employing as many as 2,000 men at one point. The Locomotive Works were housed in a handsome towered brick structure on a twelve-acre site located between Bacon's Quarter Branch and Valley Road.

The tracts along the west side of Meadow Bridge Road ran down the slope to Cannon's Branch and shared that water source with adjoining outlots owned by numerous persons. About 1873, the Meadow Bridge Road through the Highland Park area was superseded by a new highway, known as the Richmond and Henrico Turnpike, built along the bottom of the Cannon's Branch Ravine to the west.<sup>26</sup> In 1877, most of the area was still taken up by the rural tracts of Deane's heirs, Dill's heirs, and others. In fact, the entire area of Henrico County north of Richmond was divided up into small farms and nurseries, most of which were engaged in supplying the produce needed in the city.<sup>27</sup>

Development of the area was foreseen by prudent investors in the city and elsewhere. Richmond was the first city in the nation to have a revenue-producing electric streetcar line, in 1882. The streetcar would stimulate the development of five outlying suburbs. Popular destinations were included in parks at the terminuses of some of the early lines including Reservoir Park (Byrd Park) and Woodland Park (Forest Hills Park). Land improvement companies took advantage of the growing demand for housing in open suburban settings and the rising standard of living among the middle classes to open tracts of land in the north and south sides and the west end of the city.

Developers played upon an anti-urban spirit among the middle classes, in part induced by political fears and in part by health concerns, to promote the northern suburbs of Richmond. With characteristic hyperbole, one booster for the adjacent suburb of Barton Heights proclaimed:

There would be no anarchists if all the people owned their homes. The ownership of real estate, especially of homes, tends strongly to the making of good citizens. You may go still further and say that of all good citizens, those who own suburban homes are the best. . . For whom is Barton Heights? Hundreds of people living in Richmond with an unsatisfied longing for something, they hardly know what, are utterly unaware that it is for them. They are dimly conscious that the spending of two-thirds of the year in ill-lighted halls and badly ventilated rooms, sitting in

damp and dingy basements and climbing numerous flights of steep and narrow stairs, while the children are exposed in the streets to every danger of body, mind, and soul; and the remaining third in little coops of rooms at stuffy summer resorts, with increased expenses, while "benedict" stays at home and endures life in abject misery, is not the way to make the most of life.<sup>28</sup>

The Southside Land and Improvement Company, the West End Land Company, and the Northside Land and Improvement Company were all chartered in 1889, immediately after electric streetcar lines became feasible. Both the Northside and Southside companies were chartered to operate streetcars as well as develop land. A streetcar line was opened in 1890 to the south of Richmond terminating in Woodland Park and serving the suburb named Woodland Heights. A similar project was begun in 1889 immediately west of the Mount Comfort property. The Barton Heights development and the Brookland Park suburb to its north were begun by James H. Barton and others. The project included construction of a viaduct over Bacon's Quarter Branch connected to Richmond's First Street and including a streetcar line operated by the Richmond Railway and Electric Company.<sup>29</sup>

In September of 1889, the 135-acre Mount Comfort property of Francis Deane was sold to the Northside Land Improvement Company.<sup>30</sup> Several buildings were standing on the property and indicated by blocks on the plat of the Deane property on the eve of the sale. One of these may represent the Mount Comfort house of Samuel DuVal. These had vanished within a few years, but archeological traces may survive among the lots and houses of the district.

The development was laid out soon after in squares (as Richmonders referred to blocks), streets, and alleys and known as "Mount Comfort."<sup>31</sup> This name was used in deeds for some time, but by 1893 it was known as Chestnut Hill. Some lots were sold immediately. The Northside Land Improvement Company was dissolved in March of 1890 and its property was transferred to a new entity, the Northside Land Company for \$150,000.<sup>32</sup> Several squares or parts of squares had already been sold or assigned, including one parcel to a man named Christian Schnedler. Schnedler bought lots one through ten in square 10 of the plan of Mount Comfort in February of 1890 for \$820, financed by the company.<sup>33</sup> At almost the same time, a 150-acre subdivision some distance north of Mount Comfort, to be known as Highland Park, was purchased by the Highland Park Company, which shared many of the same developers as the Northside Land Company.<sup>34</sup>

Section 8 Page 98

The Northside Land Improvement Company was made up of two principals, J. M. Fourqurean, a dry-goods merchant, and N. V. Randolph, a manufacturer, and a number of prominent investors serving as directors.<sup>35</sup> Fourqurean had held land on the west side of the Meadow Bridge Road for some years. A related, interlocking group of investors, including Randolph and Fourqurean, as well as Frank and A. F. Mosby and others, formed the Highland Park Company. Frank Mosby had sold the 150 acres to the Highland Park Company in 1890 for \$250,000.<sup>36</sup> A. F. Mosby owned the land between the two suburbs, a tract later known as the Plateau. Here he conducted a prosperous business known as the Richmond Commercial Nurseries, supplying fruit trees to the mid-Atlantic region.<sup>37</sup> The two development companies acquired the land for two real estate ventures and together proceeded to build a viaduct and to provide a streetcar line to serve them.

Street Car Suburb (1890-1916)

In 1892, the Fifth Street Viaduct, a toll bridge, was built by the Northside Viaduct Company to carry vehicles, pedestrians, and a proposed streetcar line seventy-five feet above Bacon's Quarter Branch. The 1,200-foot-long viaduct was constructed by the Edgemoor Bridge Company of Wilmington, Delaware. The streetcar line was promised to buyers of lots as soon as sufficient lots were sold. As in the case of the other streetcar lines, a park was proposed near the terminus.<sup>38</sup> This eight-acre Plaza Park, occupying two squares at a central point in the neighborhood, was mentioned in advertisements and a prospectus.<sup>39</sup> No similar park was planned, however, for the Chestnut Hill development, through which the line ran. The streetcar line, originally known as the Richmond-Henrico Railway Company, was completed by 1893 and was operated by the Richmond and Manchester Railway Company.<sup>40</sup>

Most of the lots were sold in 1891 and by 1901 deed records indicate few remained in the hands of the company. Some of the squares were sold entirely as investments, such as Square 17, purchased by A. F. Cordes in February of 1890.<sup>41</sup> The company built houses on some of the lots as a demonstration of their seriousness to buyers. These were probably the Queen Anne-style houses at the southern end of Fourth Avenue (127-0343-0363 to 0365). A city promotional publication in 1893 indicates that the company had spent \$275,000 in building houses, the viaduct, the street railway, and in lights, streets, sewers, and other betterments. By that time approximately thirty-five houses had been built, including the very substantial dwellings of William Carstang, M. B. Leonard, R. E. Heinrich [1910 Fourth Avenue (127-0343-0349)] and Dr.

C.T. Duke (127-0343-0174) built at the corner of Willow Street and Third Avenue. These four were illustrated by photographs in the same publication. In addition, a "Handsome Presbyterian Church" had been erected.<sup>42</sup> The streetcar line ran along Fourth Avenue through the middle of the district.

In 1894, the effects of the Panic of August 1893 were felt by businesses and developers across the nation. Many communities failed because they had been "boomed" or falsely promoted. The Chestnut Hill, Highland Park, and Barton Heights projects undoubtedly suffered a slowdown, but recovered from the effects of the Depression because of the demand for housing and the improved living standards required by the middle classes in the New South. A promotional brochure issued for Barton Heights in 1894 best expresses the mood of the period:

How was it begun? Not with a boom. . . There has never been a boom in Barton Heights and there never will be. The growth has been rapid indeed, but healthy and steady, making the safest and most profitable investment possible. . . It is also the oasis in the desert of hard times for the working man. On every hand the ear is greeted with the music of trowel, saw, and hammer. Since the Panic of 1893, thirty-nine houses have been built and contracts are out for eleven more.<sup>43</sup>

Undoubtedly in response to the financial crisis that followed the Panic of 1893, the men of the community formed the Highland Park Citizen's Association to promote the neighborhood and to foster community life for their mutual benefit. The group began in September of 1894 by publishing the first number of a monthly newsletter called the *Northside News*. In it the following announcement, in keeping with national trends in community and business development related to the development of chambers of commerce across the country, called notice to the group's goals and "booster" spirit:

A number of gentlemen of the Northside have conferred together and have decided to have a called meeting on Tuesday, September 18, at 8:00 p.m. at Highland Park Hall for the purpose of organizing an association for the mutual benefit of the residents. See your neighbor and talk it up. Try to have one representative from each house on the Northside. Remember the date and the hour as it is important to have a full meeting and begin to work at once. Time is fleeting.<sup>44</sup>

Businesses grew up to serve and profit from the development of Chestnut Hill and the neighboring suburbs. One of the most successful was the firm of Ruffin and Forquarean, a lumber company that supplied the materials for many of the houses built in the Northside area. Forquarean owned substantial tracts of land in the area and served as a director of both the Chestnut Hill and Highland Park companies. The lumber company, later known as Ruffin and Payne, was located on the southeasternmost lot of Chestnut Hill and in the adjoining Mansfield section around the northern end of the Fifth Street viaduct. It remained in the Mansfield area until 1966. The coal-fired power plant that supplied Chestnut Hill and Highland Park with electricity was shared with the American Locomotive Works and stood nearby on the north side of Valley Road.<sup>45</sup> Mansfield had been developed with a street grid aligned with that of Chestnut Hill. It contained a fire department connected with the power plant and a gas storage facility. It also was the home of the Richmond Sand and Gravel Company. This firm, like the lumber yard, took advantage of the railroad adjoining their property to bring in materials.

Necessary for the successful development of a new suburb was the provision of amenities close at hand for the residents, so that constant trips to the city were not needed. Prominent among these requirements were schools, commercial establishments, and churches. Since Chestnut Hill and Highland Park were in Henrico County, provision of a new county school district was necessary. The original two-room schoolhouse for the area, now gone, was located in the northern suburb. It was not superceded until 1909, when the present building of the Highland Park School was built on the west side of Second Avenue south of Dill Street (Brookland Park Boulevard), just outside the district. This school contained all grades, including, until 1914, a small high school department. In that year the enrollment at Highland Park School was 509, with an additional 27 high school pupils.<sup>46</sup>

Commerce developed along Dill Street, later Brookland Park Boulevard, at the north end of the district, although no commercial buildings date from the nineteenth century. Conventional commercial buildings near the corner of Second Avenue and Brookland Park Boulevard date from the first and second quarters of the century (127-0343-0015 through 0018). As the twentieth century progressed, commercial buildings were permitted on isolated lots and in groups on cross streets through the north side of the city to allow close location of shops needed on a daily basis by residents.

Section   8   Page  101 

The first church in Chestnut Hill was mentioned in an 1894 promotional publication for the city at large: a handsome Presbyterian Church. This structure, a stuccoed frame building erected for the Mizpah Presbyterian congregation in 1892 on the corner of Third Avenue and Juniper Street, undoubtedly reinforced the viability of the entire suburban project. Mizpah Church had been founded in 1885 to minister to Presbyterians on the north side of Richmond. The congregation had originally built a structure on Henrico Turnpike three miles north of the city. After that church burned in 1891, they saw an opportunity of moving to the new suburban district. The second building stood until recent years, but was torn down to make room for the New Grayland Baptist Church. A third Mizpah Church was built on Brookland Park Boulevard just outside the district in 1926.<sup>47</sup>

Similarly, the original Highland Park section north of Chestnut Hill was the site of a new Highland Park Methodist Church built in 1893, replaced in 1916 with a large brick structure, and further enlarged in 1927.<sup>48</sup> The Episcopal Church of the Ascension had its beginning in 1896, when a member of Monumental Church in the city organized a woman's guild in the Highland Park area. Services were held in the town hall. The Highland Park company gave a lot for the erection of a chapel in the northern suburb of Highland Park and a small frame building was completed by 1902. The parish purchased lots at 2901 Fourth Avenue in the Plateau section of the historic district in 1911 and built a new building (127-0343-0441), which opened in 1912.

The Northside Baptist Church was organized in Chestnut Hill in 1907, at a meeting held at the town hall. Services were held in the town hall for about a year before a substantial Gothic Revival-style building (127-0343-00138) was completed at the corner of Third Avenue and Victor Street in the area known as the Plateau. Today it is the well-preserved home of Fifth Street Baptist Church. The Highland Park Christian Church was organized in 1920 and built a church in the northern suburb in 1927 after years of meeting in the Highland Park School.

Most of the lots were sold in the 1890s, but few were built upon in the slow economy following the Panic of 1893. There were only about sixty houses standing in the district in 1901, when a map of the development was prepared.<sup>49</sup> Many of the earliest houses were large and ornate dwellings built before the panic, as illustrated in an 1893 promotional brochure.<sup>50</sup>

Although the existing streetscapes of Chestnut Hill were by no means fully filled up, the demand for housing lots was, however, sufficient to persuade A.F. Mosby, the owner of the land to the immediate north, to develop his fruit-tree nursery land as a continuation of the Chestnut

Section 8 Page 102

Hill street grid. The development between Highland Park and Chestnut Hill was named "the Plateau" and was laid out well before it was developed in 1908. A few lots had even been sold by 1901, including three sets of lots to a "Foundling Hospital" (which apparently never located here) and a Northside Hall on Dill Street (Brookland Park Boulevard) and Fourth Avenue, which served as a community meeting hall.<sup>51</sup>

The Plateau stretched between Second Street and Fifth Street. The upper six squares of the twelve that made up the Plateau were longer than the original ones in Chestnut Hill and resembled those in Highland Park to the north, incorporating eighteen lots on each side. The lots were generally aligned with the numbered streets, but, in a few cases, faced the cross streets, in particular those on Logan and Pulaski streets. Some of these lot alignments were required by the intrusion of shallow ravines along the northeastern edge of the suburb. The district was bordered on the south by Magnolia Street and on the North by Dill Street, named for Adolph Dill, the previous owner of the Plateau tract. The cross streets were named Logan (later Pulaski), Victor, Custer, and Stuart.<sup>52</sup> Stuart Street later was incorporated as a section of Brookland Park Boulevard, the major east-west street in Richmond's Northside connecting all the late nineteenth-century streetcar suburbs.

In 1908, the now-adjacent villages of Chestnut Hill and Highland Park were consolidated in order to incorporate the area as a town. The council of Chestnut Hill voted to accept a new survey and to change the name of the new entity to Highland Park. The new town was an independent entity within Henrico County. The town developed rapidly in the era leading up to the First World War, although the Plateau area resembled agricultural fields in the first years. Many of the squares were completely vacant, as is clear from the history of Northside Baptist Church: "on Easter Sunday, April 11, 1909, the congregation met in the town hall and marched across the field to hold the first service in the new church."<sup>53</sup> The "town hall", or Highland Park Hall was located on Fourth Avenue just south of Dill Street (Brookland Park Boulevard), where it would be equally accessible to the northern and southern suburbs. It no longer stands, but a sketch in one history shows it as a two-story building with a gambrel roof.<sup>54</sup> A small frame building on Fourth Avenue housed a single horse-drawn fire engine.<sup>55</sup>

Most of the houses standing in the district take the form of the ubiquitous Foursquare house, with its simple two-story form and its Craftsman-style detailing based on designs in popular national publications. Many were constructed in groups of from two to four by builders as speculative developments intended to be sold to lower middle-income home-buyers. These

Section   8   Page  103 

were constructed between 1910 and 1930. The form and the decorative details were based on popular magazines and pattern books. A few were intended as duplexes.

*World War I to World War II (1917-1945)*

The period between the wars was occupied with the filling in of almost all of the vacant lots in the district. Commercial functions remained focused on Brookland Park Boulevard, which became a commercial strip road linking all the Northside suburbs. In 1921, an active citizen's group petitioned the city to change the name of several Highland Park streets, including Logan Street, the name of which was changed to honor Count Casimir Pulaski of the American Revolution. Recreational activities were developed at Hotchkiss Field, west of the district.<sup>56</sup> One of the principal meeting places for the community was Highland Park Pharmacy, housed in the two-story brick commercial building (127-0343-0015) at the corner of Second Avenue and Brookland Park Boulevard.<sup>57</sup> In the 1930s many streets were regraded and repaved to eliminate steep sections.<sup>58</sup> The viaduct was replaced in 1939 by a new concrete bridge named for Confederate General Thomas J. "Stonewall" Jackson.

Some new institutional buildings were built on formerly unoccupied corner lots. Saint Elizabeth's Roman Catholic Church was established by the Bishop of Richmond in 1923. The former Sitterding house and the large tract surrounding it on the west side of Second Avenue were acquired on the edge of the Plateau section of Highland Park. The house was adapted to serve as a rectory, meeting room, chapel, and housekeeper's rooms. The lot on which the church stood was eventually deeded to the diocese by Fritz Sitterding in honor of his deceased daughter's patron saint, Saint Elizabeth of Hungary. The present Classical Revival-style church (127-0343-0558) was built in 1925 and included a basement social hall.

Life in Highland Park in the 1920s resembled that in many other small communities in the early twentieth century. This is perhaps best recalled by a member of Mizpah Presbyterian Church, Wallace Bryan Stockton: "Highland Park became neat, with mixed architecture. The citizens were of mixed economic strata, from one end of the spectrum to the other, but basically they and their community were modest . . . board fences abounded. There were chicken lots in back yards and barns for horses and cows. There were chicken thieves, too, and Gypsies from the C & O tracks. The community abounded with vacant lots for ball games and lots of ice houses for boys on hot summer days. . . . Scouting received strong emphasis in Highland Park. Each of the three

City of Richmond, Virginia

Section 8 Page 104

protestant churches had active troops at various times. . . . When the patrols were not fighting each other there was unity in a rock battle with Barton Heights scouts down in the ravine."<sup>59</sup>

The houses built in the district in the period between the world wars embody the popular architectural stylistic details found in national publications and pattern books. These include Bungalow, Foursquare, Tudor Revival, and Colonial Revival-style buildings.

*The New Dominion (1946-Present)*

After the end of World War II, Richmond's suburban population continued to grow and the mostly urban black population expanded as well. Increased affluence and expectations of higher living standards encouraged remaining urban populations to move from the city center to the suburbs. Construction of the Richmond-Petersburg Turnpike (Interstate 95) and urban renewal decreased the availability of traditional urban housing. The city's northern suburbs, with their close proximity to the city, access to public transport, pleasant streets, and affordable housing stock, were under pressure to change. Richmond's segregated housing traditions could not bend easily and Highland Park, in particular, felt threatened. In 1949, the last streetcar ran down Fourth Avenue as the entire Richmond system was dismantled. The Highland Park line was, however, immediately replaced by a bus following the same route, which continues in operation today.

A school had been conducted by the parish from 1930-36. Although the school did not immediately flourish for a variety of reasons, the establishment of a parochial school in the neighborhood is an important gauge of its developmental maturity and the confidence of the parish in the future. The entire tract of land owned by the Sitterdings was purchased after 1937. The Saint Elizabeth's school was reopened in 1948 and a new school building was built in 1950 to supplement the old Sitterding house.<sup>60</sup> The impressively detailed International-style school served for several decades. It is closed and vacant today several hundred yards to the west of the church. Another important Roman Catholic institution, St. Mary's Cemetery, forms the southwestern boundary of the lower part of Chestnut Hill. An impressive mid-twentieth-century brick wall with elaborate gates gives a special architectural character to First Street.

In 1942, almost all the residents of Highland Park signed a pledge not to be the first homeowner on the block to sell to a black buyer. The campaign was sponsored by the Highland Park Citizens Association and included a fund-raising effort to raise money for a white veteran

United States Department of the Interior  
National Park Service

National Register of Historic Places  
Continuation Sheet

Chestnut Hill/Plateau Historic District  
City of Richmond, Virginia

Section   8   Page  105 

who was outbid by a black purchaser. According to a contemporary article, the residents feared that black buyers would form syndicates to engage in "block busting." They feared that a group of black buyers would purchase a house at market value and then take advantage of white fears and subsequent flight to buy other houses at reduced rates, sharing the overall cost.<sup>61</sup>

In spite of white fears, the transformation of Highland Park did not occur quickly. The change began as many residents moved out to the growing suburbs in Henrico County. The average income among residents declined as those who remained aged. The racial transformation did not happen until the mid-1960s, but when it did the process was sudden. Black homeowners replaced whites, until by 1970, about 70% of the properties had changed hands. By the late 1970s, very few white residents were left.<sup>62</sup> According to a 1978 news story, a counselor for a fair housing group stated that some real estate salesmen played on racial fears and persuaded some white owners to sell their homes at low prices. The real estate agents then sold or rented them to black residents at a substantial profit.<sup>63</sup>

Locally based commercial enterprises continued to serve the citizens from centrally located business areas along Brookland Park Boulevard. After the middle of the century, rather than invest in new buildings or demolish the existing stock of commercial buildings, merchants and building owners chose, in many cases, to maintain or to modernize the exteriors of the commercial building stock. Often this took the form of a new aluminum storefront. New shopping centers outside the neighborhood began to draw shoppers away from pedestrian-oriented neighborhoods and business districts.

As the community changed during this period, its churches also expanded and changed hands. A few Highland Park area congregations elected to move away due to the altered racial character of the neighborhood, in favor of larger suburban lots with room for additional expansion. Their large buildings, such as the former Northside Baptist Church, were purchased by black congregations and their functions continued. Others, such as Highland Park Methodist Church, just outside the district, and St. Elizabeth's Catholic Church (127-0343-0557), simply kept on with their ministry and gradually opened their doors to the changed community surrounding them. Other churches simply went out of business as their largely white membership declined below a functional margin. These include Mizpah Presbyterian, located just outside the district, and Ascension Episcopal Church (127-0343-0441). After much study, Mizpah Church merged with Ginter Park Presbyterian Church in 1974.<sup>64</sup> Both the Mizpah and Ascension buildings now serve primarily as day care centers. The previous frame building of

Section 8 Page 106

Mizpah Presbyterian Church building at Third Avenue and Juniper Street was demolished in recent years to build a new (and hence noncontributing) church for a Baptist congregation (127-0343-0240).

Over the ensuing years, Highland Park has suffered from problems common to other older city neighborhoods. Crime, declining population, and a deteriorating housing stock kept property values low and most houses unrestored. Vacant and boarded up houses became common by the 1980s. Some new single-family houses were built in the 1960s and 1970s, as well as several plainly detailed concrete block and frame apartment buildings. A high-rise apartment building for the elderly was built on the southern edge of the district. Construction of apartment complexes occurred on Mathews Street on the western edge of the district.

By 1990, the community had suffered from the ongoing exodus of homeowners as they moved into higher levels of income and whose children had reached the middle school years. Increased levels of crime, much of which was associated with certain isolated commercial locations and the apartment complexes on the western edge of the district, devastated the area.

Expansion of public facilities and services was a necessary accompaniment to the growth Richmond experienced during the period. Most of this took place outside the proposed district, but the publicly owned former Highland Park School, just adjacent to the district on Second Avenue was developed as a public housing project for senior citizens in 1987-90. The empty building was sensitively remodeled.

Most important to the successful revival of the neighborhood, the Highland Park Restoration and Preservation Program was formed in 1988. The organization's mission is to revive the potential for Highland Park and improve its declining housing stock. Toward that end, the foundation has worked closely with the City of Richmond to identify strategies for achieving historic preservation goals in the area. As a result of this effort, several houses have been thoroughly rehabilitated as single-family homes. Most recently, programs established by the city have aided the revitalization of older communities, including Highland Park, by promoting their unique historic character and by funding further rehabilitation of decayed houses.

**Chestnut Hill/Plateau Historic District  
City of Richmond, Virginia**

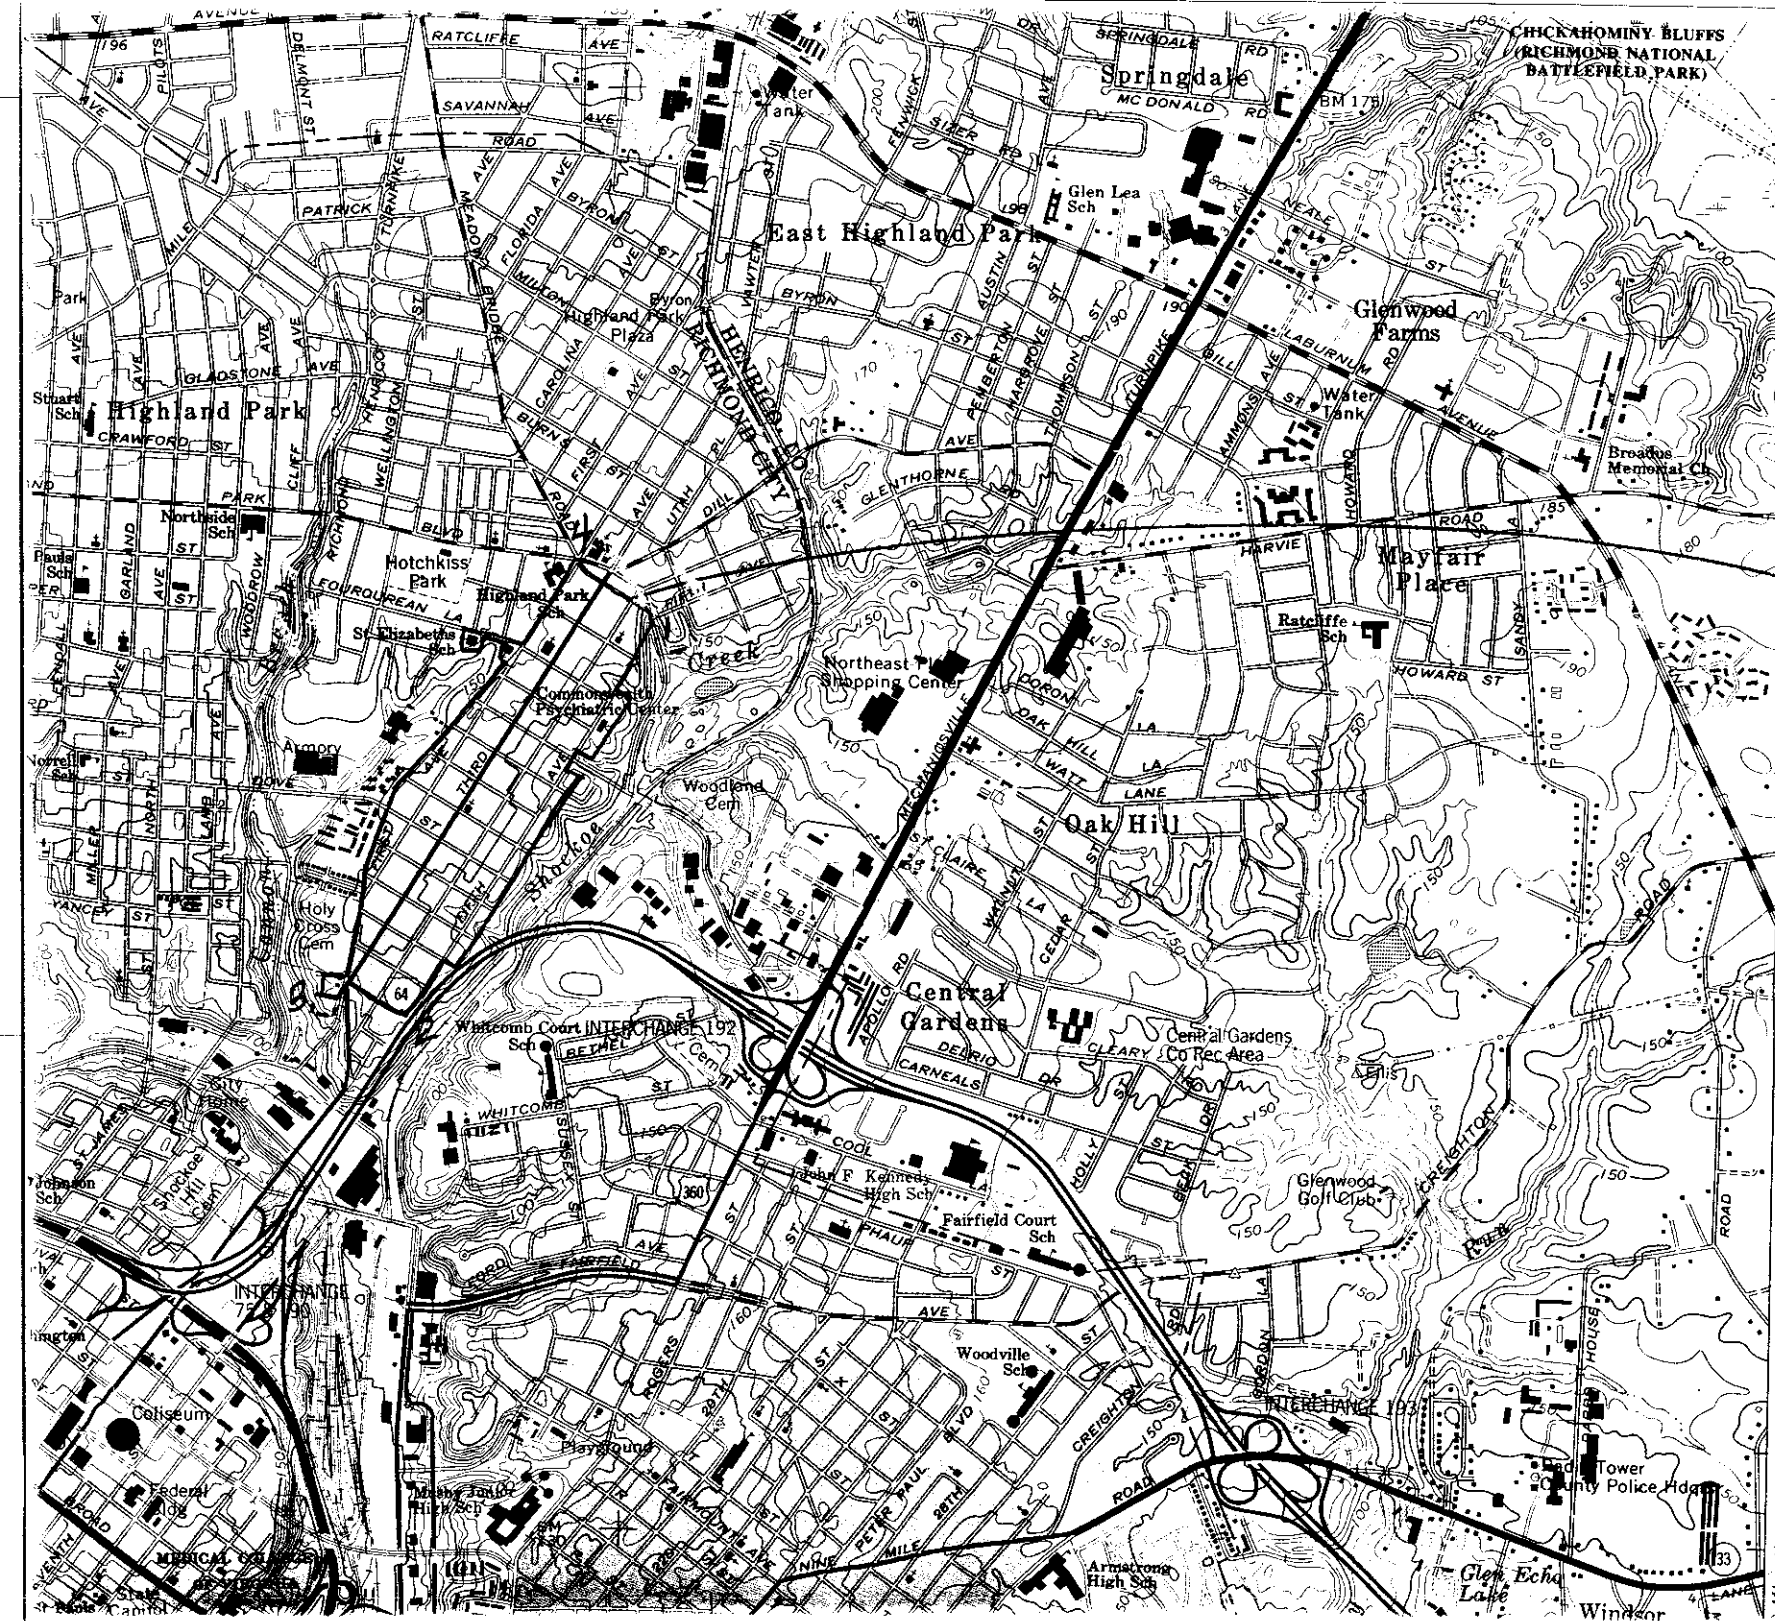

**Section \_\_10\_\_ Page \_\_111**

**Boundary Description**

Boundaries for the proposed historic district begin at the southeast corner of the intersection of Second Avenue and Brookland Park Boulevard and proceed east along the south side of Brookland Park Boulevard to a point on the southwest corner of the intersection of Brookland Park Boulevard and Fifth Avenue, thence south along the west side of Fifth Avenue to a point opposite the northern edge of the lot numbered 9 on Block N0000719 in the tax maps of the city, continuing with that lot line east to the northeast corner of that lot and thence south with lots 11 through 19., thence west with the north side of an alley to a point opposite on the west side of Fifth Avenue, thence with the west side of Fifth Avenue south to a point opposite the north side of the lot numbered 15 on block N0000861, thence south with the east side of the lots on the east side of Fifth Avenue to a point in line with the north side of Chestnut Street, thence west to a point on the northwest corner of the intersection of Chestnut Street and Fifth Avenue, thence south with the west side of Fifth Avenue to a point on the northwest corner of the intersection of Trigg Street and Fifth Avenue, thence west with the north side of Trigg Street to a point on the northeast corner of the intersection of Trigg Street, First Avenue, and Third Avenue, thence with the east side of First Avenue to a point at the south corner of the intersection of First and Second avenues, thence east to a point at the southeast corner of the intersection of Pulaski Street and Second Avenue, thence north to a point on the east side of Second Avenue opposite the south lot line of the lot at the southwest corner of the intersection of Fourquare Lane, thence in a line with the west side of the same lot to a point on the alley east of Harold Avenue, thence north in a line with that alley to the south side of Fourquare Lane, thence east in a line with the south side of Fourquare Lane to the east side of Second Avenue, and thence north with the east side of Second Avenue to the point of origin.

**Boundary Justification**

The boundaries were selected to include all structures that contribute to the historic character of the district, and to exclude areas of visual change in the post-1946 era.
